(a) For definitions see Additional Notes, page 62.
(b) The quarters and years are those between the London Clearing Banks' make-up dates; see Additional Notes, page 62. The quarter ended December 1960 contained twelve weeks; those ended June 1960 and March 1961 contained thirteen weeks and those ended September 1960 and June 1961 fourteen weeks.
(c) Overseas Central Banks, Currency Boards, Crown Agents for Oversea Governments and Administrations and certain other official bodies.
(d) A residual, which includes the holdings of banks other than the London Clearing Banks and Scottish Banks, unidentified overseas holdings and any error resulting from differences of valuation, or from differences of timing in the figures for some of the overseas official holders and, before March 1961, for the Scottish Banks.
(e) Changes in the Discount Market's holdings of marketable Government debt are treated as changes in the "indirect holdings" of those from whom the Market has borrowed; see Additional Notes, page 63.
(f) Discount Market's borrowings from lenders outside the banking system, net of changes in the Market's holdings of commercial and other bills and other assets and liabilities.
(g) Including some coin; see Additional Notes, page 63.
${ }^{(h)}$ Including Banking Department's holding of notes; see note (c) to Table 1.
(i) Other home and overseas (official and non-official) holders; see notes (c) and (d).
(j) The London Clearing Banks' and Scottish Banks' holdings of non-marketable Government debt are not reported separately and are included under "Other holders".

(a) The figures are aggregates for the members of the London Discount Market Association, and for 1951 to 1955 are partly estimated; those for Assets in these years are mainly at the 31st December, but partly at other dates in December.
(b) Excluding capital and reserves.
(c) At nominal value.
(d) Including local authority bills.
(e) Those banks whose main business is conducted outside the British Isles. Figures after 1958 differ slightly in coverage from those for earlier years; this difference is also reflected in the figures for "Other sources".

(a) Before October 1960 the figures generally relate to dates, varying from bank to bank, between the middle and end of each month; thereafter the figures are all at the common date shown.
(b) Of which the "authorised" circulation was 2.7 at all dates shown, the remainder being covered by Bank of England notes and coin.
(c) Current and Deposit Accounts less items in transit between offices of the same bank (included in Balances with Other Banks before October 1960).
(d) Coin, Notes and Balances with Bank of England (excluding Special Deposits), Balances with Other Banks, Money at Call and Short Notice and Bills Discounted.
(e) The total includes cover for Scottish bank notes in excess of the "authorised" circulation, and also banks' holdings of each other's notes.
(f) Balances with, and cheques in course of collection on, other banks in the United Kingdom and the Republic of Ireland; includes items in transit before October 1960.

(8) From April 1961 includes re-financeable export credits due for repayment within eighteen months, transferred from Advances and Other Accounts.
(h) At the 31 st December, 1951 to 1958; subsequently at the same dates as the other items in the table (see note (a)).
(i) Figures are the differences between Total Investments and British Government and Government guaranteed Securities; because of timing differences between these two series (see notes (a) and (h) the figures for Other Investments before 1959 are not exact.
(j) Excluding, from April 1961, re-financeable export credits (see note (g)).
(k) Figures, which are supplied by H.M. Treasury, relate to the 31st December, 1951 to 1958, and thereafter to the third Wednesday in the month (second Wednesday in December 1960). Nationalised industries are defined in the Additional Notes to Table 1, page 62.
(l) Before October 1960 and in December 1960 these residual figures reflect the inconsistencies of date between Total Advances and Other Accounts (see note (a)) and Advances to Nationalised Industries (see note (k)).
${ }^{(m)}$ Including Treasury Deposit Receipts amounting to $6.0(0.7 \%$ of Gross Deposits and Notes Outstanding).

(a) In general the figures, which relate mainly to the 30th June and the 31st December and dates in the middle of other months, represent the actual liabilities and assets of banking offices in Northern Ireland other than those of the National Bank (a London Clearing Bank, see Table 7); but the figures of Balances with Bank of England, Money at Call and Short Notice, Treasury Bills and Investments represent a proportion of the banks' total holdings of such assets equal to the proportion of their total Current and Deposit Accounts which was held at each date by offices in Northern Ireland.
(b) Averages of Notes Outstanding on Saturdays in periods of four consecutive weeks, including notes issued by the National Bank ( $0 \cdot 6$ in August 1961). The "authorised" circulation was approximately 2 at all dates shown, the remainder being covered by Bank of England notes and coin.
(c) The total includes cover for Northern Irish bank notes in excess of the "authorised" circulation.
(d) Balances with, and cheques in course of collection on, other banks in the United Kingdom and, for three banks, balances with banking offices outside the United Kingdom; also includes items in transit between offices of the same bank.
(e) See note (a). British Government and Government guaranteed Securities held by the offices of the Northern Irish banks, both in Northern Ireland and in the Republic of Ireland, are shown in the Additional Notes, page 63.

TABLE 10

## ANALYSIS OF BANK ADVANCES

$£$ millions

The figures relate to all advances made by member banks of the British Bankers' Association through offices located within Great Britain, irrespective of the borrower's country of residence. The figures for the London Clearing Banks and, from November 1960, the Scottish Banks relate to the third Wednesday in the month; those for other member banks (and for the Scottish Banks before November 1960) to various dates, mostly about the middle of the month. The definition of "advances" excludes bills discounted and foreign bills negotiated or bought and also "impersonal" or "internal" accounts. Except for the "personal" advances included in the "Personal and Professional" category, the classification is based on the business of the borrower and no account is taken of the object of the advance or the nature of the security held.

(a) See Additional Notes, page 63.
(b) Of which approximately $70 \%$ up to December 1954 and approximately $85 \%$ at later dates relates exclusively to United Kingdom Residents and Other Overseas Residents.
(c) Figures for December 1951 are incomplete, but the deficiency is unlikely to be substantial.

## Table 1: Exchequer

## Table 2: Holdings of Government debt and of Bank of England notes

These tables present an analysis of the net sterling requirements of the Exchequer Group and show, with such statistics as are available quarterly, the changes in holdings of Government debt and of Bank of England notes associated with the financing of these requirements. The Exchequer Group comprises the Exchequer, the Paymaster General, the National Debt Commissioners, the Exchange Equalisation Account and the Issue Department of the Bank of England. The quarters shown are 'banking quarters' ending on the make-up dates of the London Clearing Banks, i.e., the third Wednesdays of the months indicated (except in December 1960, when the make-up date was the second Wednesday); the "Year 1959/60" runs from the 19th March 1959 to the 16th March 1960 inclusive and the
"Year 1960/61" from the 17th March 1960 to the 15th March 1961. The figures for the Scottish Banks in Table 2 for periods up to March 1961 relate to dates which approximate to those for the London Clearing Banks; thereafter they relate to the same dates.
Table 1 records the Exchequer Group's cash deficit or surplus on budgetary, extra-budgetary and external items, and shows what changes have occurred in the total of Bank of England notes in circulation with the public, and in the Group's indebtedness to the Banking Department of the Bank of England and on Government debt held by the public.
The item " Government debt held by the public" comprises changes in the Exchequer Group's direct indebtedness to all others, outside the Group itself and the Banking Department of the Bank of England, on National Savings (National Savings Certificates, Defence Bonds, Premium Savings Bonds and deposits in the Post Office Savings Bank and the Ordinary Departments of the Trustee Savings Banks); on Tax Reserve Certificates; on Government stocks (including the Group's net sales to the public of Government guaranteed securities); and on Treasury Bills (including Bills acquired by the public which were originally issued otherwise than by tender).
The Government guaranteed securities dealt in by the Group are principally the Government guaranteed stocks of the nationalised industries, which throughout this Annex are defined as those public corporations to which advances have been made by the Exchequer under the Finance Acts, 1956, 1958, 1959 and 1960.
The figures of National Savings differ from those published by the National Savings Committee in that they cover the net receipt or disbursement during the period only in so far as it has been received, or paid, by the Exchequer Group. The figures shown under "Financing" comprise capital only-payments of interest and Premium Savings Bond prizes being budgetary items; they include for the Savings Banks the changes in the Savings Banks' Funds held by the National Debt Commissioners.

Table 2 analyses and rearranges the figures in the Financing part of Table 1 in various ways, to fit in with the Commentary and to distinguish between the banking system and other holders. The " banking system" is here defined as the London Clearing Banks, the Scottish Banks and the Banking Department of the Bank of England.

Part A of the table is concerned with changes in Government debt held directly by the public, the total of which appears as a financing item in Table 1. It analyses by type of holder the net changes in the public's holdings of marketable Government debt (stocks and Treasury Bills); and includes, as a single item, the net change in non-marketable debt, which, because the banking system's holdings of such debt are not known, is treated in Part C as if it related entirely to other holdings.

In Part B of the table the change in the Discount Market's total holdings of Government debt is shown as the sum of changes in "indirect holdings" of those from whom the Market has borrowed. "Indirect holdings" of Government debt means, for the London Clearing Banks and for the Scottish Banks, their call money with the Discount Market; for the Bank of England, Banking Department, advances to the Discount Market; and for other holders, their net provision of funds to the Discount Market. In practice, the Discount Market does not necessarily use all funds lent to it by the banking system to hold Government debt; nor are its "Commercial and other bills" necessarily lodged as security for, or otherwise related to, its borrowings from "Other sources". The figures are arranged in this way, however, for convenience in analysis, because it permits a simple division of the total change in holdings of Government debt between the banking system and other holders.

In Part C changes in holdings of Government debt and of Bank of England notes by the banking system and others outside the Exchequer Group are summarised from Part A (direct holdings), Part B (indirect holdings), and Table 1 (Government indebtedness to the Banking Department and the public's holding of notes). The total of these items is necessarily the same as the total financing shown in Table 1, residual errors falling into " Other holders ".

The figures of notes held by the banking system include some coin and Scottish bank notes not separately identifiable; and this also affects the residual figures of notes held outside the banking system.

## Table 7: London Clearing Banks

The ratio of Total Liquid Assets to Gross Deposits (the Liquidity Ratio) is the Clearing Banks' conventional measure of their liquidity; it does not take account of the extent to which they may hold other assets of comparable liquidity.

## Table 9: Northern Irish Banks

British Government and Government guaranteed securities held by the offices of the Northern Irish Banks (excluding the National Bank Limited, whose holdings are included in Table 7), both in Northern Ireland and in the Republic of Ireland, over the period covered by the table were:

## Table 12: Accepting Houses

These tables continue, respectively, the series for the three groups of Overseas Banks in London and for the Accepting Houses published in the Memoranda of Evidence submitted to the Radcliffe Committee (Volume 2, Statistical Appendix, Tables 6-9). The contributing
institutions to the tables are those which, at the dates shown, were members of the following groups:

Table 12 : The Accepting Houses Committee.

In these tables, the following definitions apply:
(a) Overseas Residents:
(i) Overseas Banking Offices: all banking offices located outside the United Kingdom, irrespective of the locations of the registered (or head) offices;
(ii) Other Overseas Residents: governments, companies, persons, etc., whose registered address or permanent domicile is outside the United Kingdom.
(b) Current and Deposit Accounts: bank customers' funds whether transferable or withdrawable on demand (current accounts) or lodged for a definite period or subject to agreed notice of withdrawal (deposit accounts). Sterling equivalents of foreign currency deposits are included.
(c) Investments: British Government and other securities at book value or cost, excluding investments in affiliated banks and subsidiary companies.
(d) Advances and Other Accounts: amounts outstanding on loan and overdrawn accounts, banks' deposits with overseas banking offices and other accounts of the banks themselves.

Figures of "Advances and Other Accounts" and some figures of "Current and Deposit Accounts" of the American Banks between December 1951 and December 1958 have been revised since they were published by the Radcliffe Committee.

## Table 15: Capital Issues

These estimates are based on the prices at which securities are issued, issues to the public being included in full at the time that subscriptions are invited. New issues comprise issues of capital in the United Kingdom made for cash by governments other than the United Kingdom Government, by local authorities, by public corporations and by public companies. Loans redeemable in twelve months or less are excluded and issues for
repaying them, or for repaying mortgages and bank advances, are classed as new issues. Loans to local authorities and public corporations from government funds, including issues of stock to the National Debt Commissioners, are not included. Issues by United Kingdom borrowers where it is known that the proceeds

Boards, excluding Dominion and Colonial sterling securities;
(iii) So far as known, the nominal value of British Government securities held by other official bodies but not those held by private individuals or firms.
The table shows total holdings classified by area and by the two principal classes of holder, Central Bank and other official funds on the one hand and non-official funds on the other. The latter include some funds held by overseas official bodies.

Table 17 does not include acceptances given by banks in the United Kingdom for account of residents abroad which, since 1951, have been as follows:

[^0]:    (a) Current and Deposit Accounts less (i) Balances with, and cheques in course of collection on, other banks in the United Kingdom and the Republic of Ireland; and (ii) Items in transit between offices of the same bank.
    (b) Coin, Notes and Balances with Bank of England (excluding Special Deposits), Money at Call and Short Notice and Bills Discounted. Excludes in 1951 Treasury Deposit Receipts (see note (g)). See also Additional Notes, page 63.
    (c) Before January 1961 the total included Lloyds Bank's balances with Eastern reserve banks (see also note (h)), which before 1958 were included in Balances with Bank of England.

[^1]:    (d) From February 1961 includes re-financeable export credits due for repayment within eighteen months, transferred from Advances to Customers and Other Accounts.
    (e) Excluding items in transit and, from February 1961, re-financeable export credits (see note (d)).
    (f) Figures supplied by H.M. Treasury. Nationalised industries are defined in the Additional Notes to Table 1, page 62.
    (g) Including Treasury Deposit Receipts amounting to 102 (1•6\% of Gross Deposits).
    (h) Before January 1961 figures included business of Lloyds Bank's Eastern branches.

[^2]:    (a) Redemption yields (for $2 \frac{1}{2} \%$ Consols, the flat yield), allowing for accrued interest but ignoring income tax. Where there is more than one maturity date redemption is assumed at the latest date when the price is below par and at the earliest date when the price is above par.
    (b) Taken from the Actuaries' Investment Index; relating to the last Tuesday of each month. From 1951 to 1957 the index for ordinary shares is based on the 29th December $1950=100$; thereafter on the 31st December $1957=100$. Yields and prices for ordinary shares from January 1958 are not strictly comparable with those for earlier years.
    Yields are based on gross market prices; those for debentures are calculated after deduction of accrued interest but without allowance for redemption. Income tax is ignored.
    (c) Representative securities changed from time to time; see Additional Notes, page 64.
