(Increase +/decrease -)
£ millions

(a) For definitions see Additional Notes, page 308.
(b) The quarters and years are those between the London clearing banks' make-up dates; see Additional Notes, page 308. The quarters ended December 1961 and March 1962 contained twelve and fourteen weeks respectively; the remainder contained thirteen weeks.
(c) Overseas central banks, currency boards, Crown Agents for Oversea Governments and Administrations and certain other official bodies.
(d) A residual, which includes the holdings of banks other than the London clearing banks and Scottish banks, unidentified overseas holdings and any error resulting from differences of valuation, or from differences of timing in the figures for some of the overseas official holders and, before March 1961, for the Scottish banks.
(e) Changes in the discount market's holdings of marketable government debt are treated as changes in the "indirect holdings" of those from whom the market has borrowed; see Additional Notes, page 309.
(f) Discount market's borrowings from lenders outside the banking system, net of changes in the market's holdings of commercial and other bills and cther assets and liabilities.
(g) Including some coin; see Additional Notes, page 309.
(h) Including Banking Department's holding of notes; see note (c) to Table 1.
(i) Other home and overseas (official and non-official) holders; see notes (c) and (d).
(j) The London clearing banks' and Scottish banks' holdings of non-marketable government debt are not reported separately and are included under "Other holders ".

(a) The figures are aggregates for the members of the London Discount Market Association, and for 1954 and 1955 are partly estimated; those for "Assets" in these years are mainly at the 31st December, but partly at other dates in December.
(b) Excluding capital and reserves.
(c) At nominal value.
(d) Those banks whose main business is conducted outside the British Isles. Figures after 1958 differ slightly in coverage from those for earlier years; this difference is also reflected in the figures for "Other sources".

(g) From 1961 includes re-financeable export credits due for repayment within eighteen months, transferred from "Advances and other accounts".
(h) See Additional Notes to Table 3, page 309.
(i) At the 31 st December, 1954 to 1958; subsequently at the same dates as the other items in the table (see note (a)).
(j) Figures are the differences between "Total investments" and "British government and government guaranteed securities"; because of timing differences between these two series (see notes (a) and (i)) the figures for "Other investments" before 1959 are not exact.
(k) Excluding, from 1961, re-financeable export credits (see note (g)).
(l) Figures, which are supplied by H.M. Treasury, relate to the 31 st December, 1954 to 1958, and thereafter to the third Wednesday in the month (second Wednesday in December 1960 and 1961). Nationalised industries are defined in the Additional Notes to Table 1, page 309.
$(m)$ Before 1961 these residual figures reflect the inconsistencies of date between "Total advances and other accounts" (see note (a)) and "Advances to nationalised industries" (see note $(l)$ ).

(a) In general the figures, which relate mainly to the 30th June and the 31st December and dates in the middle of other months, represent the actual liabilities and assets of banking offices in Northern Ireland other than those of The National Bank (a London clearing bank, see Table 7); but the figures of balances with Bank of England, money at call and short notice, Treasury Bills and investments represent a proportion of the banks' total holdings of such assets equal to the proportion of their total current and deposit accounts which was held at each date by offices in Northern Ireland.
(b) Averages of notes outstanding on Saturdays in periods of four consecutive weeks, including notes issued by The National Bank ( $0 \cdot 6$ in October 1962). The "authorised" circulation was approximately 2 at all dates shown, the remainder being covered by Bank of England notes and coin.
(c) The total includes cover for Northern Irish bank notes in excess of the "authorised" circulation.
(d) Balances with, and cheques in course of collection on, other banks in the United Kingdom and, for three banks, balances with banking offices outside the United Kingdom; also includes items in transit between banks and between offices of the same bank.
(e) See note (a). British government and government guaranteed securities held by the offices of the Northern Irish banks, both in Northern Ireland and in the Republic of Ireland, are shown in the Additional Notes, page 310 .

## ANALYSIS OF BANK ADVANCES ${ }^{(a)}$

(a) See Additional Notes, page 310.
(b) These figures, which are included partly in "Transport and communications" and partly in "Public utilities (excluding transport)", relate to the London clearing banks and Scottish banks and are supplied by H.M. Treasury. Nationalised industries are defined in the Additional Notes to Table 1, page 309.

TABLE 13

SHORT-TERM MONEY RATES

Per cent. per annum

${ }^{(a)}$ Average rate of discount on allotment for 91-day Bills at the weekly tender.
(b) Minimum rate of interest charged for loans to the discount market.
c) Spread of fluctuating rates quoted for new deposits by some of the main hire purchase finance houses. (Fluctuating rates are quoted as a fixed premium or discount on Bank Rate and therefore move with Bank Rate during the currency of the deposit.) Rates are to some extent subject to negotiation and different rates may be paid on large amounts.
(d) For a minimum term of three months and thereafter at seven days' notice.

(f) Some 130 of sterling was purchased by the Ford Motor Company of America in the fourth quarter of 1960 and used in the first quarter of 1961 for long-term investment in the United Kingdom.
$(g)$ This is the figure as published in Cmnd. 1837 and in quarterly press announcements; it has since been revised (see Table 19).
(h) The reserves benefited in the third quarter of 1961 from the U.K. drawing of 536 in various currencies from the I.M.F., which in turn increased the I.M.F.'s holditig of sterling by a corresponding amount. Repayment of 150 during the fourth quarter of 1961, 75 during the first quarter and 50 during the second quarter of 1962 reduced the reserves and decreased the I.M.F.'s holcing of sterling.

## EXCHANGE RATES AND RELATED ITEMS ${ }^{(a)}$

(a) Rates for security sterling and security dollars (as at the close of business) and interest rates on deposits are as reported to the Bank of England.
${ }^{(b)}$ Sterling held by residents outside the Scheduled Territories, available only for the purchase of sterling securities with not less than five years to run.
(c) Foreign currency (in U.S. dollar terms) held by U.K. residents and available for the purchase of foreign currency securities. Prior to the 18th May 1962, when the distinction between 'hard' and 'soft' security dollars was abolished. 'hard' were available only for the purchase of dollar securities whereas 'soft' were available for the purchase of any foreign currency securities.
(d) The maximum interest rate payable on 3 months' deposits in New York is $2 \frac{1}{2} \%$ except on deposits by certain foreign official institutions, on which the rates are no longer subject to statutory restriction and have been $3 \%$ (for 3 months' deposits) since the 22nd October 1962.

Table 1: Exchequer

## Table 2: Holdings of Government Debt and of Bank of England Notes

These tables present an analysis of the net sterling requirements of the Exchequer Group
and show, with such statistics as are available quarterly, the changes in holdings of government debt and of Bank of England notes associated with the financing of these requirements. The Exchequer Group comprises the Exchequer, the Paymaster General, the National Debt Commissioners, the Exchange Equalisation Account and the Issue Department of the Bank of England. The quarters shown are 'banking quarters' ending on the make-up dates of the London clearing banks, i.e., the third Wednesdays of the months indicated (except in December 1961, when the make-up date was the second Wednesday); the "Year 1960/61" runs from the 17th March 1960 to the 15th March 1961 inclusive and the "Year 1961/62" from the 16th March 1961 to the 21st March 1962. The figures for the Scottish banks in Table 2 for the year 1960/61 relate to dates which approximate to those for the London clearing banks; thereafter they relate to the same dates.

Table 1 records the Exchequer Group's cash deficit or surplus on budgetary, extra-budgetary and external items, and shows what changes have occurred in the total of Bank of England notes in circulation with the public, and in the Group's indebtedness to the Banking Department of the Bank of England and on government debt held by the public.

The item " Government debt held by the public" comprises changes in the Exchequer Group's direct indebtedness to all others, outside the Group itself and the Banking Department of the Bank of England, on National Savings (National Savings Certificates, Defence Bonds, Premium Savings Bonds and deposits in the Post Office Savings Bank and the Ordinary Departments of the Trustee Savings Banks); on Tax Reserve Certificates; on government stocks (including the Group's net sales to the public of government guaranteed securities); and on Treasury Bills (including those acquired by the public which were originally issued otherwise than by tender).

The government guaranteed securities dealt in by the Group are principally the government guaranteed stocks of the nationalised industries, which throughout this Annex are defined as those public corporations to which advances have been made by the Exchequer under the Finance Acts, 1956, 1958, 1959 and 1960.

The figures of National Savings differ from those published by the National Savings Committee in that they cover the net receipt or disbursement during the period only in so far as it has been received, or paid, by the Exchequer Group. The figures shown under " Financing " comprise capital only-payments of interest and Premium Savings Bond prizes being budgetary items; they include for the Savings Banks the changes in the Savings Banks' Funds held by the National Debt Commissioners.

Table 2 analyses and rearranges the figures in the "Financing" part of Table 1 in various ways, to fit in with the Commentary and to distinguish between the banking system and other holders. The " banking system" is here defined as the London clearing banks, the Scottish banks and the Banking Department of the Bank of England.

Part $\mathbf{A}$ of the table is concerned with changes in government debt held directly by the public, the total of which appears as a financing item in Table 1. It analyses by type of holder the net changes in the public's holdings of marketable government debt (stocks and Treasury Bills); and includes, as a single item, the net change in non-marketable debt, which, because the banking system's holdings of such debt are not known, is treated in Part C as if it related entirely to other holdings.

In Part B of the table the change in the discount market's total holdings of government debt is shown as the sum of changes in " indirect holdings" of those from whom the market has borrowed. "Indirect holdings" of government debt means, for the London clearing banks and for the Scottish banks, their call money with the discount market; for the Bank of England, Banking Department, advances to the discount market; and for other holders, their net provision of funds to the discount market. In practice, the discount market does
not necessarily use all funds lent to it by the banking system to hold government debt; nor are its "Commercial and other bills" necessarily lodged as security for, or otherwise related to, its borrowings from "Other sources". The figures are arranged in this way, however, for convenience in analysis, because it permits a simple division of the total change in holdings of government debt between the banking system and other holders.

In Part C changes in holdings of government debt and of Bank of England notes by the banking system and others outside the Exchequer Group are summarised from Part A (direct holdings), Part B (indirect holdings), and Table 1 (government indebtedness to the Banking Department and the public's holding of notes). The total of these items is necessarily the same as the total financing shown in Table 1, residual errors falling into "Other holders".

The figures of notes held by the banking system include some coin and Scottish bank notes not separately identifiable; and this also affects the residual figures of notes held outside the banking system.

## Table 3: Bank of England

Special Deposits are called by the Bank of England, under the scheme announced in July 1958, from the London clearing banks and the Scottish banks and are not at their free disposal; a full description of the scheme is given in Volume I, No. 1, of this Bulletin. Amounts are calculated as percentages of the latest monthly figure for the total deposits of each bank (excluding deposits with branches outside Great Britain) and the resulting amounts are then rounded to the nearest multiple of $£ 100,000$. As the banks' total deposits vary, in the ordinary course of business, the amount of Special Deposits from each bank is adjusted monthly to maintain the relevant percentage of its total deposits.
Interest is paid on Special Deposits at a rate which is adjusted each week to the nearest $\frac{1}{10} \%$ to the average Treasury Bill rate at the preceding week's tender.
The dates and percentages of the calls and releases of Special Deposits are shown in the following table:

Per cent. of total deposits in Great Britain

Table 7: London Clearing Banks
The ratio of total liquid assets to gross deposits (the liquidity ratio) is the clearing banks' conventional measure of their liquidity; it does not take account of the extent to which they may hold other assets of comparable liquidity (see the article on page 248).

## Table 9 : Northern Irish Banks

The Northern Irish banks to which this table relates are the members of the Northern Ireland Bankers' Association other than The National Bank Limited. This bank is also a London clearing bank and its figures are included in Table 7. The Association's members are the only commercial banks operating in Northern Ireland.

British government and government guaranteed securities held by the offices of the Northern Irish banks (excluding The National Bank Limited, whose holdings are included in Table 7), both in Northern Ireland and in the Republic of Ireland, over the period covered by the table were :

|  |  | $£$ millions |

Table 10: Analysis of Bank Advances
The figures relate to all advances made by member banks of the British Bankers' Association through offices located within Great Britain, irrespective of the borrower's country of residence. The figures for the London clearing banks and, from November 1960, for the Scottish banks relate to the third Wednesday in the month; those for other member banks (and for the Scottish banks before November 1960) relate to various dates, mostly about the middle of the month. The definition of advances excludes bills discounted, foreign bills negotiated or bought, and "impersonal" or "internal" accounts. Except for the "personal" advances included in the "Personal and professional" category, the classification is based on the business of the borrower and no account is taken of the object of the advance or the nature of the security held.

## Table 11: Overseas Banks in London

## Table 12: Accepting Houses

These tables continue, respectively, the series for the three groups of overseas banks in London and for the accepting houses published in the Memoranda of Evidence to the Radcliffe Committee (Volume 2, Statistical Appendix, Tables 6-9). The contributing institutions to the tables are those which, at the dates shown, were members of the following groups :

Table 11A: The British Overseas Banks Association (but excluding British and French Bank Limited which is a contributor to Table 11C)

Table 11B: The American Banks in London
Table 11C : The Foreign Banks and Affiliates Association
Table 12 : The Accepting Houses Committee.
The figures cover the business of all offices in the United Kingdom.

As from the 30th September 1962 certain revisions have been made to these tables. Details are given in an article on page 267. Before that date, the following definitions applied:
(a) Overseas residents :
(i) Overseas banking offices: all banking offices located outside the United Kingdom, irrespective of the locations of the registered (or head) offices;
(ii) Other overseas residents: governments, companies, persons, etc., whose registered address or permanent domicile is outside the United Kingdom.
(b) Current and deposit accounts: bank customers' funds whether transferable or withdrawable on demand (current accounts) or lodged for a definite period or subject to agreed notice of withdrawal (deposit accounts). Sterling equivalents of foreign currency deposits are included.
(c) Advances and other accounts : amounts outstanding on loan and overdrawn accounts, banks' deposits with overseas banking offices and other accounts of the banks themselves.
Figures of advances and other accounts and some figures of current and deposit accounts of the American banks between December 1954 and December 1958 have been revised since they were published by the Radcliffe Committee.

## Table 15: Capital Issues on the United Kingdom Market

The estimates relate to new money raised by issues of ordinary, preference and loan capital (public issues, offers for sale, issues by tender, placings, and issues to shareholders and employees) by quoted public companies and local authorities in the United Kingdom and by overseas public companies and public, authorities (including local authorities and
international organisations). Mortgages, bank advances and any other loans redeemable in twelve months or less are excluded, as also are loans from U.K. government funds. Issues to shareholders are included only if the sole or principal share register is maintained in the United Kingdom. Estimates of the amounts raised are based on the prices at which securities are offered to the market. Subscriptions are recorded under the periods in which they are due to be paid. Redemptions relate to fixed interest securities of the kinds included as issues; conversions are included in the gross figures of both issues and redemptions.

The division between U.K. and overseas company borrowers is determined by the location of the registered office. U.K. "Local authorities" include, in addition to local governments, such public bodies as water, dock and harbour boards. "Special finance agencies" are quoted public companies engaged in the provision of medium and longterm finance to industry (e.g., I.C.F.C.). The industrial classification in Part $C$ of the table is according to the primary occupation of the borrowing company or group and is based on the Standard Industrial Classification (H.M.S.O., revised 1958).

Volume I, No. 5, of this Bulletin contains a fuller description of the estimates, which supersede the old series published in earlier issues.

## Table 16: Investment Trusts

The investment trusts contributing returns are members of the Association of Investment Trusts and other companies listed as investment trusts by the London Stock Exchange. The figures are provisional.

Net current assets do not take account of contingent assets and liabilities such as claims on, or sums due to, the Inland Revenue, or the accrued liability for loan interest. They do include, however, (in "Other short-term assets in the United Kingdom" or "Other short-term borrowing in the United Kingdom ") sums due from or to stockbrokers on account of securities sold or purchased and still awaiting settlement.

## Table 17: Unit Trusts

The returns cover all unit trusts authorised by the Board of Trade under the Prevention of Fraud (Investments) Act, 1958. They are collected in the main through the Association
of Unit Trust Managers, but include also those of trusts whose managers are not members of the Association.

Table 18: United Kingdom Balance of Payments
All assistance received in 1961 under the Basle arrangements was repaid during that year, and the transactions involved were selfbalancing within monetary movements. The effect on the components, namely, overseas sterling holdings (assistance provided in sterling), gold and convertible currency reserves and other monetary movements (assistance provided in other currencies) was as follows:
$\left.\begin{array}{llrrr}\text { £ millions } & \begin{array}{c}\text { Gold and } \\ \text { con- }\end{array} & \begin{array}{c}\text { Other } \\ \text { (includ- } \\ \text { ing }\end{array} \\ \text { Onerseas } \\ \text { vertible } \\ \text { miscel- }\end{array}\right)$

Table 19: Overseas Sterling Holdings by Area and Class of Holder
These comprise :
(i) The net holdings in sterling or sterling area currencies of overseas banks
(including overseas offices of U.K. banks) and other account holders abroad with banks in the United Kingdom (including accepting houses, discount houses and the U.K. offices of Commonwealth and foreign banks); British government securities held for account of overseas banks are included, at nominal values;
(ii) Sterling funds held with the Crown Agents for Oversea Governments and Administrations and by currency boards, excluding Commonwealth and South African sterling securities;
(iii) So far as known, the nominal value of British government securities held by other official bodies but not those held by private individuals or firms.
The table shows total holdings classified by area and by the two principal classes of holder, central bank and other official funds on the one hand and non-official funds on the other. The latter include some funds held by overseas official bodies.

Table 19 does not include acceptances given by banks in the United Kingdom for account of residents abroad which, since 1954, have been as follows :

[^0]:    (a) Current and deposit accounts less (i) balances with, and cheques in course of collection on, other banks in the United Kingdom and the Republic of Ireland; and (ii) items in transit between offices of the same bank.
    (b) Coin, notes and balances with Bank of England (excluding Special Deposits), money at call and short notice and bills discounted. See also Additional Notes, page 310.
    (c) Before 1961 the total included Lloyds Bank's balances with Eastern reserve banks (see also note (h)), which before 1958 were included in " balances with Bank of England ".
    (d) From 1961 includes re-financeable export credits due for repayment within eighteen months, transferred from " Advances to customers and other accounts ".

[^1]:    (a) Before December 1960 the figures generally relate to dates, varying from bank to bank, between the middle and end of each month; thereafter the figures are all at the common dates shown.
    (b) Of which the "authorised" circulation was 2.7 at all dates shown, the remainder being covered by Bank of England notes and coin.
    (c) Current and deposit accounts less items in transit between offices of the same bank.
    (d) Coin, notes and balances with Bank of England (excluding Special Deposits), balances with other banks, money at call and short notice and bills discounted.
    (e) The total includes cover for Scottish bank notes in excess of the "authorised" circulation, and also banks' holdings of each other's notes.
    (f) Balances with, and cheques in course of collection on, other banks in the United Kingdom (and, before October 1961, the Republic of Ireland); includes items in transit before December 1960.

[^2]:    (a) For details of the changes in definition from the 30th September 1962, which apply particularly to "Current and deposit accounts", "Balances with other U.K. banks" and "Advances and other accounts", see the article on page 267. Before 1959, some of the figures, in particular the subdivisions of "Current and deposit accounts" and of "Advances and other accounts ", are partly estimated.

[^3]:    (a) See Additional Notes, page 311. The numbers of investment trusts making returns were: December 1960, 294; September 1961, 275; December 1961, transactions, 267; assets, 292; March 1962, 295; June 1962, 296; September 1962, 293.
    (b) Quoted securities are valued at market prices (except in the maturity classification at the foot of the table, where values are nominal), unquoted securities at current values and bills and mortgages at maturity values.
    (c) Positive figures indicate, in the different classes of securities and bills, the amounts by which payments for assets acquired exceeded receipts from assets sold or repaid; or, in other current assets, a net rise; or, in current liabilities, a net fall. A rise in current liabilities is shown -.
