A National Statistics publication

National Statistics are produced to high professional standards as set out in the National Statistics Code of Practice. They are produced free from political influence.

About the Office for National Statistics

The Office for National Statistics (ONS) is the government agency responsible for compiling, analysing and disseminating economic, social and demographic statistics about the United Kingdom. It also administers the statutory registration of births, marriages and deaths in England and Wales.

The Director of ONS is also the National Statistician and the Registrar General for England and Wales.

Units of measurement		**vi**
Introduction		**1**
Tables		
1	**National accounts**	
1.1	Gross domestic product and gross national income	**3**
1.2	Gross domestic product: by category of expenditure	**5**
1.3	Gross domestic product: by category of income	**7**
1.4	Index numbers: gross domestic product, chained volume indices at basic prices: by industry of output	**8**
1.5	Households sector: allocation of primary income account	**9**
1.6	Households sector: secondary distribution of income account	**10**
1.7	Households sector: use of disposable income account	**11**
1.8	Household final consumption expenditure	**12**
1.9	Change in inventories at chained volume measures	**14**
1.10	Gross fixed capital formation by sector and type of asset	**15**
1.11	Business investment by industry, chained volume measures	**17**
1.12	Business investment by industry at current prices	**18**
1.13	Private sector manufacturing business investment by industry, chained volume measures	**19**
1.14	Private sector manufacturing business investment by industry at current prices	**20**
1.15	Private sector manufacturing business investment by asset	**21**
2	**Population and vital statistics**	
2.1	Mid-year estimates of resident population	**22**
2.2	Age distribution of estimated resident population at June 2002	**22**
2.3	Births and marriages	**23**
2.4	Deaths registered	**23**
3	**Labour market**	
3.1	Labour market activity	**24**
3.2	Distribution of the workforce	**24**
3.3	Employee jobs: all industries	**25**
3.4	Civil Service staff: analysis by ministerial responsibilities	**27**
3.5	Intake and outflow of UK Regular Armed Forces Personnel	**27**
3.6	UK armed forces full: time strengths	**28**
3.7	Local authority staffing	**29**
3.8	Number of workers employed in agriculture	**30**
3.9	Unemployment in United Kingdom	**30**
3.10	Claimant count in United Kingdom: by duration	**31**
3.11	Claimant count: United Kingdom and Great Britain	**32**
3.12	Unemployed: by Government Office Regions	**33**
3.13	Claimant count: by Government Office Regions	**34**
3.14	Vacancies at Jobcentres and career offices: by Government Office Regions	**35**
3.15	Labour disputes	**36**
4	**Social services**	
4.1	National Insurance and Child Benefit	**37**
4.2	Child and Working Tax Credit	**37**
4.3	Income Support/Jobseeker's Allowance (income based)	**38**
4.4	Family health services	**38**
5	**Law enforcement**	
5.1	Recorded crime statistics: England and Wales	**39**
5.2	Crimes and offences recorded by the police: Scotland	**39**
6	**Agriculture, food, drinks and tobacco**	
6.1	Land use and crop areas	**40**
6.2	Crops: yields and production	**40**
6.3	Livestock	**41**

		Page
6.4	Animals slaughtered and meat produced	**41**
6.5	Cereals and cereal products	**42**
6.6	Production of compound feedingstuffs	**42**
6.7	Potatoes and Sugar	**43**
6.8	Production of bacon, ham and canned meat and meat stocks in cold storage	**43**
6.9	Fish, oils and fats	**44**
6.10	Milk, milk products and eggs	**44**
6.11	Beverages and confectionery	**45**
6.12	Tobacco products released for home consumption	**45**
6.13	Alcoholic drink	**46**
7	**Production, output and costs**	
7.1	Output of the production industries	**47**
7.2	Productivity jobs and output per filled job	**52**
7.3	Key Productivity Measures	**53**
8	**Energy**	
8.1	Inland energy consumption: primary fuel input basis	**54**
8.2	Supply and use of fuels	**55**
8.3	Coal supply	**57**
8.4	Inland use and stocks of coal	**57**
8.5	Natural gas production and supply	**58**
8.6	Fuel used by and electricity production and availability from the electricity supply industry	**58**
8.7	Sales by the gas and public electricity and supply systems	**59**
8.8	Indigenous production, refinery receipts, arrivals and shipments of oil	**59**
8.9	Deliveries of petroleum products for inland consumption	**60**
9	**Chemicals**	
9.1	Fertilisers	**61**
9.2	Sulphur and sulphuric acid	**62**
9.3	Basic chemicals, pesticides and other agro-chemical products	**63**
9.4	Pharmaceutical products, soaps and other cleaning preparations and perfumes	**63**
9.5	Other chemical products	**64**
10	**Metals, engineering and vehicles**	
10.1	Iron and steel	**65**
10.2	Supplies and deliveries of steel	**65**
10.3	Aluminium	**66**
10.4	Total engineering: total turnover of UK based manufacturers	**67**
10.5	Mechanical, instrument and electrical engineering industries: volume index of turnover	**68**
10.6	Mechanical, instrument and electrical engineering industries: volume index of orders on hand	**68**
10.7	Mechanical, instrument and electrical engineering industries: volume index of net new orders	**69**
10.8	Passenger cars	**70**
10.9	Commercial motor vehicles	**70**
11	**Textiles and other manufactures**	
11.1	Index numbers of textiles and clothing industries	**71**
11.2	Household textiles, non-woven products, canvas and ropes	**72**
11.3	Knitted and crocheted products, lace and narrow fabrics	**72**
11.4	Wearing apparel, dressing and dying of fur, leather clothes	**73**
11.5	Miscellaneous products: goods not classified elsewhere	**73**
12	**Construction**	
12.1	Volume of construction output by all agencies by type of work at constant 2000 prices	**74**
12.2	Value of new orders obtained by contractors for new work at current prices	**74**
12.3	Building materials and components	**75**
12.4	Permanent dwellings started and completed	**76**
13	**Transport**	
13.1	Motor vehicles: new registrations in Great Britain	**78**
13.2	Motor vehicles currently licensed as at 31 December	**78**
13.3	Index numbers of road traffic and goods transport by road	**79**
13.4	Road casualties in Great Britain	**79**
13.5	Local bus services: vehicle kilometres and passenger journeys	**80**
13.6	Local bus services: fare indices	**80**

		Page
13.7	National Rail and London Underground	**81**
13.8	National Rail: freight traffic	**81**
13.9	UK airlines: aircraft kilometres flown, passengers and cargo uplifted	**82**
13.10	Merchant vessels registered in the United Kingdom	**84**
13.11	UK passenger movement by sea and air	**85**
13.12	UK passenger movement by sea and air: analysis of countries of landing and of embarkation	**86**
14	**Retailing**	
14.1	Index numbers of retail sales: volume and values, seasonally adjusted	**87**
14.2	Index numbers of retail sales: values, not seasonally adjusted	**87**
15	**External trade in goods**	
15.1	Values of United Kingdom total trade in goods	**89**
15.2	Volume and Price index numbers	**90**
15.3	United Kingdom trade in goods, by commodity group	**91**
15.4	Volume index numbers, by commodity group	**92**
15.5	Price index numbers, by commodity group	**93**
15.6	United Kingdom exports, by commodity	**94**
15.7	United Kingdom imports, by commodity	**95**
15.8	United Kingdom exports, by area	**96**
15.9	United Kingdom imports, by area	**97**
15.10	Import penetration and export sales ratios for products of manufacturing industry	**98**
16	**UK Balance of payments**	
16.1	Balance of payments: summary	**99**
16.2	Balance of payments: current account balances	**100**
16.3	Balance of payments: summary of financial account	**101**
17	**Government finance**	
17.1	Public sector finances	**102**
17.2	Central government transactions and fiscal balances	**103**
17.3	Public sector aggregates	**104**
17.4	Selected financial statistics	**105**
17.5	Monetary aggregates	**106**
17.6	Selected interest rates, exchange rates and security prices	**106**
18	**Prices and wages**	
18.1	Consumer Prices Index: by divsion	**107**
18.2	Consumer Prices Index: by divsion, group and classes	**108**
18.3	Retail Prices Index	**110**
18.4	Retail Prices Index: groups, sub-groups and sections	**111**
18.5	Retail Prices Index (All items)	**113**
18.6	Harmonised Indicies of Consumer Prices (HICPs): international comparisons: EU countries	**114**
18.7	Internal purchasing power of the pound	**114**
18.8	Tax and price index	**115**
18.9	Index numbers of producer prices	**116**
18.10	House Price Index, by Government Office Regions	**120**
18.11	Index of purchase prices of the means of agricultural production and of producer prices of agricultural products	**121**
18.12	Average weekly and hourly earnings and hours of full-time employees on adult rates	**122**
18.13	Average weekly and hourly earnings of full-time employees on adult rates by industry division	**123**
18.14	Average weekly and hourly earnings of full-time employees by age group	**124**
18.15	Average earnings index: all employee jobs: by industries	**125**
18.16	Average earnings index: all eployees: main industrial sectors	**129**
19	**Leisure**	
19.1	Television licences	**131**
19.2	UK cinema statistics	**131**
19.3	Average issue readership of national daily newspapers	**132**
19.4	Overseas travel and tourism	**132**
20	**Weather**	
20.1	District summary	**133**
20.2	UK annual summary	**133**
	Index	**134**

Introduction

This publication has been prepared by the Office for National Statistics (ONS) in collaboration with a number of government departments and other organisations. The assistance provided by them is gratefully acknowledged.

The name of the department or organisation providing the statistics is shown under each table, additionally, on some tables this is followed by a contact telephone number.

All the data series published in the *Monthly Digest* are contained on an ONS database, and nearly all are stored with a four letter identification code (e.g. ABMZ). These codes appear at the start of columns or rows so that they can be quoted if you contact us requiring any further information.

The latest Annual Supplement to *Monthly Digest* is published in the January 2005 edition. This gives detailed definitions and explanatory notes and includes an index of sources.

Definitions and classifications

The following general definitions should be noted in using the *Digest*:

Area covered. Except where otherwise stated, all statistics relate to the United Kingdom of Great Britain and Northern Ireland.

Seasonality. Except where otherwise stated, all statistics are not adjusted to take account of seasonal factors.

The UK Standard Industrial Classification 1992 is used in a number of tables in this digest to split economic activity. Full details are available from *UK Standard Industrial Classification of Economic Activities 1992*, and *Indexes to the UK Standard Industrial Classification of Economic Activities 1992*, both published by The Stationery Office.

Regional classification is based on the Government Office Regions.

Symbols and conventions used

Change of basis. Where consecutive figures have been compiled on different bases and are not strictly comparable, a footnote is added indicating the nature of the difference. Also, a line may be drawn across a column between two consecutive figures indicating that the figures above and below the line have been compiled on different bases.

Units of measurement. The various units of measurement used in this digest are listed on the opposite page.

Symbols. The following symbols have been used throughout:

.. = not available (also information suppressed to avoid disclosure)

- = nil or less than half the final digit shown

† = indicates that the data have been revised

since the last edition: the period marked is the earliest in the table to have been revised

Also, some tables have symbols specific to them. These will be explained in the footnotes to those tables.

Rounding of figures. In tables where figures have been rounded to the nearest final digit, there may be a slight discrepancy between the sum of the constituent items and the total as shown.

Provisional data

Some figures are provisional and may be subject to revision in later editions. This applies par ticularly to data for the most recent time periods. Where data has been revised a dagger symbol, as previously mentioned, will appear.

National Statistics Online: www.statistics.gov.uk

Web-based access to time series, cross sectional data and metadata from across the Government Statistical Service (GSS), available using the site search and index functions from the homepage. Download many datasets, in whole or in part, or consult directory information for all GSS statistical resources, including censuses, surveys, periodicals and enquiry services. Information is posted as PDF electronic documents or in XLS and CSV formats, compatible with most spreadsheet packages.

Time Series Data

Access to around 40,000 time series, of primarily macro-economic data, drawn from the main tables in a range of our major economic and labour market publications. Download complete releases, or view and download your own customised selection of individual time series.

Complete copies of this publication are available to download free of charge on the following web page.

Acknowledgements

The Editor would like to thank Jonathan Elphick and Sunita Dedi for their help in producing this book, without which this publication would not be possible.

Contributors

The Editor also wishes to thank all his colleagues in ONS, the rest of the Government Statistical Service and all contributors in other organisations for their generous support and helpful comments.

Units of Measurement

Length

1 millimetre (mm)		= 0.03937 inch
1 centimetre (cm)	= 10 millimetres	= 0.3937 inch
1 metre (m)	= 1,000 millimetres	= 1.094 yards
1 kilometre (km)	= 1,000 metres	= 0.6214 mile
1 inch (in.)		= 25.40 millimetres or 2.540 centimetres
1 foot (ft.)	= 12 inches	= 0.3048 metre
1 yard (yd.)	= 3 feet	= 0.9144 metre
1 mile	= 1,760 yards	= 1.609 kilometres

Area

1 square millimetre (mm^2)		= 0.001550 square inch
1 square metre (m^2)		= 1.196 square yards
1 hectare (ha)	= 10,000 square metres	= 2.471 acres
1 square kilometre (km^2)		= 247.1 acres
1 square inch (sq. in.)		= 645.2 square millimetres or 6.452 square centimetres
1 square foot (sq. ft.)	= 144 square inches	= 0.09290 square metre or 929.0 square centimetres
1 square yard (sq. yd.)	= 9 square feet	= 0.8361 square metre
1 acre	= 4,840 square yards	= 4,046 square metres or 0.4047 hectare
1 square mile (sq. mile)	= 640 acres	= 2.590 square kilometres or 259.0 hectares

Volume

1 cubic centimetre (cm^3)		= 0.06102 cubic inch
1 cubic decimetre (dm^3)	= 1,000 cubic centimetres	= 0.03531 cubic foot
1 cubic metre (m^3)		= 1.308 cubic yards
1 cubic inch (cu.in.)		=16.39 cubic centimetres
1 cubic foot (cu. ft.)	= 1,728 cubic inches	= 0.02832 cubic metre or 28.32 cubic decimetres
1 cubic yard (cu. yd.)	= 27 cubic feet	= 0.7646 cubic metre

Capacity

1 litre (l)	= 1 cubic decimetre	= 0.2200 gallon
1 hectolitre (hl)	= 100 litres	= 22.00 gallons
1 pint		= 0.5682 litre
1 quart	= 2 pints	= 1.137 litres
1 gallon	= 8 pints	= 4.546 litres
1 bulk barrel	= 36 gallons (gal.)	= 1.637 hectolitres

Weight

1 gram (g)		= 0.03527 ounce avoirdupois
1 hectogram (hg)	= 100 grams	= 3.527 ounces or 0.2205 pound
1 kilogram (kg)	= 1,000 grams or 10 hectograms	= 2.205 pounds
1 tonne (t)	= 1,000 kilograms	= 1.102 short tons or 0.9842 long ton
1 ounce avoirdupois (oz.)	= 437.5 grains	= 28.35 grams
1 pound avoirdupois (lb.)	= 16 ounces	= 0.4536 kilogram
1 hundredweight (cwt.)	= 112 pounds	= 50.80 kilograms
1 short ton	= 2,000 pounds	= 907.2 kilograms or 0.9072 tonne
1 long ton (referred to as ton)	= 2,240 pounds	= 1,016 kilograms or 1.016 tonnes
1 ounce troy	= 480 grains	= 31.10 grams

Energy

British thermal unit (Btu)	= 0.2520 kilocalorie	(kcal) = 1.055 kilojoule (kj)
Therm	= 10^5 British thermal	units = 25,200 kcal = 105,506 kj
Megawatt hour (MWh)	= 10^6 watt hours (Wh)	
Gigawatt hour (GWh)	= 10^6 kilowatt hours = 34,121 therms	

Food and drink

Butter	23,310 litres milk	= 1 tonne butter (average)
Cheese	10,070 litres milk	= 1 tonne cheese
Condensed milk	2,550 litres milk	= 1 tonne full cream condensed milk
	2,953 litres skimmed milk	= 1 tonne skimmed condensed milk
Milk	1 million litres	= 1,030 tonnes
Milk powder	8,054 litres milk	= 1 tonne full cream milk powder
	10,740 litres skimmed milk	= 1 tonne skimmed milk powder
Eggs	17,126 eggs	= 1 tonne (approximate)
Sugar	100 tonnes sugar beet	= 92 tonnes refined sugar
	100 tonnes cane sugar	= 96 tonnes refined sugar

Shipping

Gross tonnage	= total volume of all the enclosed spaces of a vessel, the unit of measurement being a 'ton' of 100 cubic feet.
Deadweight tonnage	= Deadweighttonnage is the total weight in tons of 2,240 lb. that a ship can legally carry, that is the total weight of cargo, bunkers, stores and crew.

1 National accounts

1.1 Gross domestic product and gross national income

£ million

	At current prices					Chained volume measures			
	Gross national income at market prices	Net income from abroad[1]	Gross domestic product at market prices	*less* Basic price adjust-ment[2]	Gross value added at basic prices	Gross domestic product at market prices	*less* Basic price adjust-ment[1]	Gross value added at basic prices	Gross value added at factor cost

1 Components of output are valued at basic prices, which excludes taxes *less* subsidies on products, whereas GDP is valued at market prices.

2 The latest data for the index of production (series CKYW) are presented in Table 7.1. The figures given in this table are consistent with the figures for gross value added .

3 Includes an implicit discrepancy compared with the sum of the previous columns because the GDP aggregate takes account of other information based on incomes and expenditures.

4 The weights shown are in proportion to total gross value added (GVA) in 2001 and are used to combine the industry output indices to calculate the totals for 2002 and 2003. For 2001 and earlier, totals are calculated using the equivalent weights for the previous year (eg total for 2001 use 2000 weights).

1 Until September 2001, Household Expenditure was published and broken down into 13 main headings according to existing UK National Accounts convention. From September 2001 it has been reclassified so as to conform to the European System of Accounts 1995 (ESA 95) COICOP (Classification Of Individual Consumption by Purpose).

2 Final consumption expenditure by UK households in the UK and abroad.

3 Final expenditure consumption in the UK by UK and foreign households.

4 Following reclassification to COICOP, alcohol consumed on the premises has been transferred from the "alcohol and tobacco" heading to "restaurants and hotels". Similarly, under reclassification, transport now includes purchase of bicycles.

1 Excluding stillbirths.
2 Figures for England and Wales relate to date of occurrence of birth. Figures for Scotland and Northern Ireland relate to date of registration of birth.
3 Figures may not add exactly due to rounding.
4 Births to non-resident mothers in Northern Ireland are excluded from the figures for Northern Ireland and for the United Kingdom.
5 Marriage figures for 2002 are provisional.
6 Provisional.

1 The data in this table include revised figures for self-employment to reflect the results of the 2001 Census.
2 Estimates for employee jobs and workforce jobs for Great Britain now use the Annual Business Inquiry as a benchmark on which the quarterly movements are based. For further information see Labour Market Statistics First Release, April 2001 which is held on the National Statistics website www.statistics.gov.uk.
3 Estimates of the self-employed are based on the results of the Labour Force Survey. The estimates given in the table are unadjusted.
4 HM Forces figures, provided by the Ministry of Defence, represent the total number of UK service personnel, male and female, in HM Regular Forces wherever serving and including those on release leave. The numbers are not subject to seasonal adjustment.

1 The figures include non-industrial and industrial staff but exclude casual or seasonal staff and employees of the Northern Ireland Civil Service.
2 A comprehensive list of Machinery of Government changes is listed on the Cabinet Office's web site at: www.civil-service.gov.uk/statistics
3 Since a Cabinet Office review of data collections in April 1999, data is now collected on a six monthly basis.
4 Figures included are measured as 'full-time equivalent' staff. Part-time staff are recorded as a proportion of full-time employees according to the proportion of a full week that they work.

1 The differences between strengths at successive dates may not match the intake and outflow figures for corresponding periods in table 3.5 because of delays in recording data, transfers between the Services and commissionings from the ranks.

2 All figures are rounded to the nearest 10. Due to the rounding methods used totals may not always equal the sum of the parts.

3 Naval Service comprises Royal Navy, Royal Marines and Queen Alexandra's Royal Naval Nursing Service (QARNNS).

1 Figures for England and Wales come from two sources. ONS business surveys provide data for most of the service groups, but the figures for Law and Order come from the Home Office.

2 Including central service departments (eg engineers and treasurers) and all services not shown separately.

3 Figures for Scotland are from the Joint Staffing Watch issued jointly by Scottish Executive and the Confederation of Scottish Local Authorities (COSLA).

4 Due to the timeliness of the Joint Staffing Watch survey, data for Scotland for the latest quarters may be absent.

5 The breakdown of the Police Service figures for Scotland into "Police" and "Others" is generated by ONS. The methodology is under review.

Sources: ONS; Home Office; Scottish Executive

1 Figures exclude farmers, partners, directors and their spouses, salaried managers, school children and most trainees. Includes estimates for minor holdings.

2 In 1998, fundamental changes were introduced to the labour questions on the June Agricultural and Horticultural Census in England, Wales and Scotland. It appears that this change in questions may have led to the recording of additional Labour who were not previously included in the returns. The change in questions has also led to a redistribution of labour between the various categories. We therefore advise caution when comparing the results from 1998 onwards with previous years.

3 Due to an English register improvement only the top figure for 2001 is directly comparable with June 2000, while the bottom figure for 2001 is only comparable with data from June 2002.

1 The seasonally adjusted series relate only to claimants aged 18 or over in order to maintain the consistent series, available back to 1971 (1974 for the regions - see p.608 of the December 1990 *Employment Gazette* and pS16 of the April 1994 issue for the list of discontinuities taken into account). It also takes into account the effect of the change in benefit eligibility rules introduced with Jobseeker's Allowance (see p.219-24, Labour Market Trends, May 2000). The latest national and regional seasonally adjusted claimant count figures are provisional and are subject to revision mainly in the following month.

2 Percentage rates have been calculated by expressing the number of claimants as a percentage of the estimated total workforce (the sum of claimants, employees jobs, self-employed, HM Forces and participants on work related government training programmes) at mid-2002 estimates for 2002 and 2003 figures and at the corresponding mid-year estimates for earlier years.

1 Due to slight methodological differences between the way the national and regional LFS estimates have been interim adjusted for the 2001 Census, there may be small differences between the UK totals and the sum of the regional components.

2 Unemployed as a percentage of total economically active (the sum of unemployed and those in employment).

1 Only a proportion of all vacancies are notified to Jobcentres. These could include some that are suitable for young persons and similarly vacancies notified to careers offices could include some for adults. Because of possible duplication the two series should not be added together. The figures represent only the number of vacancies notified by employers and remaining unfilled on the day of the count.

2 The publication of the vacancy figures for Northern Ireland has been suspended since March 1999 as a result of a difficulty caused by the introduction of a new computer system for processing vacancies to Training and Employment Agency offices. For the purpose of the seasonally adjusted United Kingdom figures it has been assumed provisionally that the Northern Ireland figures have remained constant since February 1999.

3 Publication of the Jobcentre vacancy statistics has been deferred. Figures from May 2001 are affected by the introduction of Employer Direct. This major change involves transferring the vacancy taking process from local Jobcentres to regional Customer Service Centres, as part of Modernising the Employment Service. ONS and the Department of Work and Pensions will continue to monitor and review the data with the aim of publishing the series as soon it is possible to produce a consistent measure.

1 Excludes stoppages involving fewer than 10 workers or lasting less than one day except any in which the total number of working days lost are 100 or more. There may be some under-recording of small or short stoppages; this would have much more effect on the total stoppages than on working days lost.

2 The working days lost figures relate to the total working days lost within each of the periods shown as a result of stoppages *in progress* in that period, whether the stoppages began in that period or earlier.

1 Child Benefit figures are taken from the Child Benefit Computer System 5% scan in the months shown. Figures exclude overseas cases.
2 Jobseeker's Allowance figures from Jobseeker's Allowance Quarterly Statistical Enquiries, 5% samples. Excludes recipients of contribution based and income based benefit.
3 Excluding pensioners in receipt of non-contributory State Pension awarded under National Insurance Acts 1970 and 1971. Also excludes overseas and Channel Islands.
4 Includes all Widow's Benefit and Bereavement Benefit except Widow's Payment and Bereavement Payment. Excludes overseas and Channel Island cases.
5 The figures for Incapacity Benefit are calculated from 100% counts but are provisional and therefore subject to amendment.
6 From October 2003, Child Benefit is the responsibility of the Inland Revenue.

1 The counting rules were revised on 1 April 1998 with an expanded coverage of offences and the emphasis more on measurement of one crime per victim. All offences that are triable on indictment and triable-either-way are now included as are some summary offences which are closely linked to more serious offences. The changes mainly impact on the violence against the person, fraud and forgery, drug offences and "other" offence groups.

2 Some forces adopted the principles of the National Crime Recording Standard in advance of its national implementation on 1 April 2002. For 2001/02 as a whole it has been calculated that this in itself has inflated the total number of crimes recorded by 5%, although the impact differs for each offence group.

3 The National Crime Recording Standard was introduced across all police forces from April 2002, and this has increased the recorded crime figures significantly. For 2002/03 it has been estimated that the implementation of the Standard has inflated the total number of recorded crimes by 10%, although the impact differs for each offence group. Violence against the person was particularly affected.

4 Much of the increase in violence against the person in 2003/04 is likely to be due to the continuing impact of changes in recording.

1 Data are available only quarterly.
2 Percentage alcohol by volume.
3 Made wine with alcoholic strength 1.2% to 5.5%, includes alcoholic lemonade of appropriate strength.
4 From 28 April 2002 duty on spirit-based ready-to-drink (RTDs) products is charged at the same rate as spirits per litre of alcohol. Until September 2002, RTDs were recorded under the imported and spirits. Customs and Excise have now been able to estimate the amount of RTDs under the spirits and remove them from the spirits clearances. Spirit-based RTDs were previously dutied at the made wine rate.
5 Includes imported spirits.
6 Due to the effect of the holiday period, these figures are subject to greater uncertainty than usual.

Note: The figures contain, where appropriate, an adjustment for stock changes.

1 Unadjusted data may be obtained from the Office for National Statistics, IOP Branch, Government Buildings, Cardiff Road, Newport, Gwent, NP9 1XG.

2 These sum to the total of 1 000 for the production industries.

3 Includes adjustments to standardise the length of months.

Note: The full productivity and unit wage costs data sets with associated articles can be found on the National Statistics website at: www.statistics.gov.uk/productivity.

1 Output per filled job is the ratio of the output index numbers published in Table 7.1 and productivity jobs. A monthly series for total manufacturing industries is presented in Table 7.3.

2 Whole economy output per job is based on Gross Value Added at Basic Prices.

Note: The full productivity and unit wage costs data sets with associated articles can be found on the National Statistics website at: www.statistics.gov.uk/productivity.

1 Based on the sum of expenditure components of GDP at current and constant market prices.

2 Whole Economy output per worker is the ratio of Gross Value Added (GVA) at Basic Prices and Labour Force Survey (LFS) total employment.

1 Not temperature corrected.
2 Coal, petroleum and natural gas are temperature corrected.
3 For details of temperature correction see DTI energy statistics website at www.dti.gov.uk/energy/inform/dukes/dukes2004/01longterm.pdf.
4 Includes solid renewable sources (wood, straw, waste, geothermal and active solar heat) net foreign trade and stock changes in other solid fuels.
5 Excludes non-energy use.
6 Includes gas used during production, colliery methane, landfill gas and sewage gas. Excludes gas flared or re-injected and non-energy use of gas.
7 Includes generation at wind stations. Excludes generation from pumped storage stations.

1 Layout comparable with annual balances published in Table 1.1 of DUKES 2003.
2 Stock fall (+), stock rise (-).
3 Primary supply minus primary demand.
4 Annual transfers should ideally be zero. For manufactured fuels differences occur in the rescreening of coke to breeze. For oil and petroleum products differences arise due to small variations in the calorific values used.
5 Generation of heat for sale under the provision of a contract; data are not available before 1999 and for 1998 coal used for generating heat for sale will have been included as final use by the sector generating the heat.
6 Includes all manufactured solid fuels, benzole, tars, coke oven gas and blast furnace gas.
7 Includes colliery methane.
8 Includes heat sold.
9 Includes geothermal and solar heat. Latest quarter is estimated from the previous year and adjusted according to average annual rate of change over the last three years.
10 Includes public administration, commercial, agriculture and miscellaneous use.

1 Includes an estimate for slurry.
2 To December 1992, as recorded in the Overseas Trade Statistics of the United Kingdom (OTS). From January 1993 import figures include an additional estimate for unrecorded trade. From March 1994 import figures are being estimated on the basis of information available for extra-EC trade until monthly statistics for intra-EC trade become available from the Central Statistical Office.

1 Disposals by collieries and opencast sites.
2 Coal-fired power stations belonging to major electricity generating companies.
3 Generation of heat for sale under the provision of a contract; data are not available before 1999 and for 1998 coal used for generating heat for sale will have been included as final use by the sector generating the heat.
4 Low temperature carbonisation and patent fuel plants.
5 Includes estimates of imports.
6 Including miners' coal.
7 Includes public administration and commerce.
8 Excluding distributed stocks held in merchant's yards, etc, mainly for the domestic market, and stocks held by the industrial sector.

1 Includes waste and own use but excludes gas flared.
2 Gas used for drilling, production and pumping operations.
3 Includes exports direct from the UKCS as well as others carried out by the downstream gas industry from the national transmission system.
4 Gas available at terminals for consumption in the UK as recorded by the terminal operators.
5 Gas input into inland transmission systems. It includes public gas supply, direct supply by North Sea producers, third party supplies, and stock changes. Figures differ from gas available for consumption in the UK mainly because of additional stock changes at local distribution zones. The figures also differ from total consumption (expressed in oil equivalent in Table 8.1) because they exclude producers' and operators' own use and losses.
6 Including public gas supply, direct supplies by North Sea producers, third party supplies and stock changes.

1 Fuel used and electricity generated by major power producers and electricity available through the grid in England and Wales and from distribution companies in Scotland and Northern Ireland. For further information regarding major power producers please refer to Section 8 of the *Annual Supplement* in the January edition of *Monthly Digest*.
2 Including quantities used in the production of steam for sale.
3 Including oil, windpower and refuse-derived fuel.
4 Used in works and for pumping at pumped storage stations.
5 Including gas turbines, oil engines and plants producing electricity from renewable sources other than hydro.
6 Includes wastes and renewable sources.
7 Including net imports and purchases from outside sources mainly UKAEA and British Nuclear Fuels plc, and net of supplies direct from generators to final consumers.

1 Power stations belonging to major generating companies, industrial establishments and transport undertakings generating 1 gigawatt or more a year.
2 Generation of heat for sale under the provision of a contract; data are not available before 1999 and for 1998 coal used for generating heat for sale will have been included as final use by the sector generating the heat.
3 Public administration, commerce and agriculture.
4 Manufacturing industry, construction, energy and water supply industries.
5 Commercial premises, transport, and other service sector customers. Agriculture, public lighting and combined domestic/commercial premises.

1 The term indigenous is used in this table for convenience to include oil from the UK Continental Shelf as well as the small amounts produced on the mainland.
2 Foreign trade is as recorded by the petroleum industry and may differ from figures published in the *Overseas Trade Statistics*.
3 Crude oil *plus* condensates and petroleum gases derived at onshore treatment plants.
4 Crude oil *plus* NGLs.
5 Mainly recycled products (backflows to refineries).
6 Total arrivals *less* refinery shipments of crude oil, NGLs and process oils (ie partly refined products).
7 From January 2000 arrivals of petroleum products and marine bunkers contain estimated additions to allow for (temporarily) missing imports data.

1 Includes taxis for years up to 1994. Taxation group now restricted to only vehicles with 9 or more seats.
2 Includes agricultural vans and lorries and showman's goods vehicles licensed to draw trailers.
3 Includes combine harvesters, mowing machines, digging machines, mobile cranes and works trucks. Taxation group subject to revision from 1st July 1995, formerly termed the "agricultural and special machines" group.
4 Includes three-wheelers, pedestrian controlled vehicles and showman's haulage.
5 Vehicles in this taxation class are exempt from duty and form part of the "Crown and Exempt" taxation class with effect from January 2002.

1 Not exceeding 3.5 tonnes gross vehicle weight. Includes all car based vans and those of the next larger capacity such as transit vans.
2 Goods vehicles up to 3.5 tonnes gross vehicle weight.
3 The figures for road goods transport are estimated from a continuing sample enquiry; excluding estimates of work done by vehicles under 3.5 tonnes gross vehicle weight. The quarterly figures relate to 13-week periods and not three calendar months.
4 Figures affected by September 2000 fuel protest.
5 Provisional.

Note: Sea and Air passenger numbers are seasonal, which should be taken into account when comparing figures within a year.

1 Excluding movement by land across the frontier between the Irish Republic and Northern Ireland, passengers travelling between the Channel Islands and Great Britain, passengers carried in aircraft chartered by British government departments and as far as possible, passengers travelling by sea on day trips and HM and other Armed Forces travelling in the course of their duties.

2 Passengers on pleasure cruises beginning and/or ending at UK seaports (excluding QE2 passengers between Southampton and New York which are included in rest of world).

3 The figures do not include oil rigs.

1 Great Britain only. The motor trades are excluded. Information for periods earlier than those shown is available from ONS Newport (tel. 01633 812713).

2 The ONS has decided to review the production of estimates of retail sales indices for individual industry sectors. In the meantime the ONS has suspended the publication of the detailed industry series which have appeared in this table previously. The review will report in early 2005.

Note: Further information on the consumer prices index is available from the National Statistics website: www.statistics.gov.uk/cpi

1 Prior to 10 December 2003, the consumer prices index (CPI) was published in the UK as the harmonised index of consumer prices (HICP).

2 Inflation rates prior to 1997 and index levels prior to 1996 are estimated. Further details are given in *Economic Trends No. 541 December 1998.* These details are also available on the National Statistics website: http://www.statistics.gov.uk/cci/article.asp?ID=31&Pos=3&ColRank=2&Rank=720

3 The coverage of these categories was extended in January 2000; further extensions to coverage came into effect in January 2001 for health and miscellaneous goods and services; the coverage of miscellaneous goods and services was further extended with effect from January 2002 (details are given in a series of Economic Trends articles available on the National Statistics website:www.statistics.gov.uk/cpi)

Note: Further information on the RPI is available from the National Statistics Website: www.statistics.gov.uk/rpi.

1 This series has been constructed using the index for all items excluding mortgage interest payments prior to February 1995.

2 Seasonal food is defined as items of food the prices of which show significant seasonal variations. These are fresh fruit and vegetables, fresh fish, eggs and home-killed lamb.

3 There are no weights available for RPIY.

Note: Indices are given to one decimal place to provide as much information as is available but precision is greater at higher levels of aggregation, ie at sub-group and group levels. Further information on the RPI is available from the National Statistics Website: www.statistics.gov.uk/rpi.

1 *Retail Prices Index 1914-1990* contains group and sub-group indices and weights back to 1956, group indices back to 1947, together with cost of living indices as far back as 1914.

2 The taxes excluded are council tax, VAT, duties, vehicle excise duty, insurance tax and airport tax. There are no weights available for RPIY.

1 To find the purchasing power of the pound in 2000, given that it was 100 pence in 1990, select the column headed 1990 and look at the 2000 row. The result is 74 pence. These figures are calculated by taking the inverse ratio of the respective annual averages of the Retail Prices Index (RPI).

18.8 Tax and Price Index

1 This month's edition contains data rebased onto 2000=100. For information, the rebased back data for the headline PPI series is available under related links at www.statistics.gov.uk/ppi

2 A base weighted (1995=100) combination of the separate price indices for contractors' output in the six new work sectors. For a fuller description see *Economic Trends* No 297.

3 From February 2002, data are based on a significantly enlarged return from the Survey of Mortgage Lenders, and are calculated through improved methodology. Annual and quarterly data prior to February 2002 are from the 5% Survey of Mortgage Lenders, and have been rebased to Q1 2002=100.

4 Indicates values which are considered less reliable than the remainder currently published mainly due to the lack of market coverage.

5 The Climate Change Levy was introduced in April 2001. Further information on PPI is available from the National Statistics Website: www.statistics.gov.uk/ppi.

1 Series based on prices at the mortgage completion stage collected through the Survey of Mortgage Lenders. The index takes into account the mix of properties sold.

2 The series starts at February 2002 rather than January 2002 because the required volume of completions was achieved from that date only.

1 Index numbers for the years 1983 to 2003 on 1995 = 100 base and also at a more detailed level are available from the Department for Environment Food and Rural Affairs, Room 133a, Kings Pool, 1-2 Peasholme Green, YO1 7PX. Tel 01904 455253.

2 The sum of the percentages of categories included in "Goods & Services consumed" and "All Products" do not add to 100% due to the exclusion of some minor categories.

3 All data and weights have been revised to be in line with Eurostat policy that the *Agricultural Account* and the *API* should be the same.

4 A revised feedstuffs index has been calculated and incorporated in this edition. Further details are available on request.

5 Formerly *General expenses*.

6 Primerily including Oilseeds, Linseed and Protein crops.

1 Users should note that the data contained in this table are not comparable with those previously published in Table 18.11 of Monthly Digest.

2 The ONS has withdrawn the old set of 26 industry sectors and has a new set of 20 industries, that better reflect the current state of the economy. The new series are available in the format of excluding bonus index, including bonus index, and an annual percentage change for including and excluding bonuses. An article covering the reasons for the change can be found on our website www.statistics.gov.uk/labour

England & Wales	29.6	2.9	-0.1	0.1	0.0	0.2	4	110	91	166.0

Anomalies are with respect to the 1961-90 averaging period.

1 District values for each element are computed using all available climate stations, excluding rooftop sites for minimum air temperature. The values in the table may not be compatible with other time series (eg. Central England Temperature, England and Wales Rainfall).

2 Highest maximum and lowest minimum air temperatures for each district are determined by calculating 95 percentiles.

3 Raindays are the number of days during which the total precipitation is at least 0.2mm.

Working population, 3.2

Zinc, 9.2

Monthly Digest Navigation Instructions

Overview

This PDF file of Monthly Digest has been created from the pages of the book. These brief instructions will help you find your way around the electronic publication.

Navigation

The PDF file has a 'bookmarks' panel down the left hand side, which allows you to jump from one section to another. The main chapters have lower levels of bookmarks enabling you to jump to the tables contained in each chapter. You can show and hide the bookmarks panel using the show/hide navigation buttons on the Acrobat Reader toolbar at the top of the screen. Thumbnails (small replicas of the pages) are also available in the navigation pane. Clicking on a thumbnail of a page will allow you to jump to that page. Similarly, clicking on the Contents table will permit you to skip to any chapter or individual table.

Searching

The first large binoculars (find) button at the top of the screen will do a simple search on a word in the current document. To see if the word appears again in the publication click again on the binoculars button.

Spreadsheets

Clicking anywhere on a table number, table title or the main body of a table will launch an Excel file. A number of the tables in this pdf document are spread over more than page. Efforts have been made to combine these into a single worksheet in each of the corresponding Excel files. Where this has not been possible, as where units or periodicity differ from page to page, each page has been accorded its own separate worksheet within the same Excel file. The worksheet tabs and the instructions appearing in red at the top of the affected tables indicate how each has been treated. To permit the data in the Excel spreadsheets to be used in calculations, it has also been necessary to remove "flags" and footnote indicators from the numbers in the files.

In the event of differences between the data appearing in the Excel files and those presented in the corresponding pdf tables, the pdf versions are to be regarded as definitive.

Index

Clicking on an index entry will take you automatically to the relevant table.

Screen Resolution

Adobe Acrobat works with any screen resolution. For this product 800x600 is acceptable, but 1024x768 works better if the monitor and graphics card will support it. To change the view type to one which best suits your screen, use the View menu.

Other

If the text looks blurry on screen, this may be improved by visiting File Menu, Preferences, General and switching 'Smooth Text and Monochrome images' off.
