## Introduction

Social Security schemes provide financial support to individuals and families for certain needs and in cases of hardship. The National Insurance Fund provides insurance against loss of income in the event of unemployment, sickness and invalidity, widowhood or retirement and for the expenses of birth and death. These, together with Industrial Injury benefits, are generally known as contributory benefits. Non-contributory benefits include means-tested support to people or families with low income (Income Support and Family Credit) and also non means-tested support through Child Benefit and, for the long term sick or disabled, through Invalidity Pensions, Attendance Allowance and Mobility Allowances.

This is the twentieth issue of "SOCIAL SECURITY STATISTICS" which is published annually by Her Majesty's Stationery Office on behalf of the Department of Social Security. It provides tables covering each of the social security benefits, National Insurance contributions and appeals. This issue does not contain information on prices and earnings, take-up of benefits or finance, deatils of which can be found in other publications listed in Appendix 3.

Tables showing trends are included for a run of years - generally 1977, 1982 and 1987 to 1991 and detailed analyses are provided for 1991 or the most recent year available.

The tables are grouped in sections according to benefit or subject. A brief description of the main features of the relevant benefit, as they currently apply, appears as a prologue to each section. These notes do not purport to cover all the conditions for entitlement to benefit or payment of contributions, nor do they give a history of the various changes which have occurred over the years. More information can be obtained from the explanatory leaflets listed in Appendix 1.

The tables are, in general, derived from data produced within the Department of Social Security for the purposes of administration. Where tables include statistics produced by other Departments this is shown in the prologue at the front of each section.

All the tables in this publication relate to Great Britain (and where indicated, recipients living overseas). Analyses for the English regions and for Wales and Scotland are presented in some tables, based on the Standard Regions described in Appendix 4.

The following symbols and abbreviations are used in the tables:

| .. Not available | HB Housing Benefit |
| :--- | :--- |
| . Not applicable | IVB Invalidity Benefit |
| - Nil or negligible | NI National Insurance |
| £pw Pounds per week | No Number |
| AP Additional Pension | PD Prescribed disease |
| CCB Community Charge Benefit | SMP Statutory Maternity Pay |
| COD Contracted out deduction | SSP Statutory Sick Pay |
| EC European Community | UB Unemployment Benefit |

Where figures are rounded, component parts may not sum to totals.

## Claims for Social Security Benefits

Notes: 1. Family Income Supplement was replaced by Family Credit from April 1988.
2. The Family Credit figures for 1989 refer to 1989/90 and April 1989 respectively.
3. Supplementary Benefit was replaced by Income Support from April 1988.
4. Figures at 31 March
5. With the introduction of SSP from 6 April 1983 most people working for an employer could claim SSP from them for a maximum of 8 weeks instead of Sickness Benefit. From 6 April 1986 SSP is payable for up to a maximum of 28 weeks.
6. Claims figures for Invalidity Benefit and NCIP claims are included with Sickness Benefit
7. NCIP and HNCIP were replaced by a broadly similar benefit Severe Disablement Allowance from 29 November 1984.
8. From December 1977 figures for Mobility Allowance include Special Mobility Allowance.
9. Special Hardship Allowance was renamed Reduced Earnings Allowance fromOctober 1986. Claims to Reduced Earnings Allowance are not counted separately but are included in Claims to Industrial Injuries Disablement Benefit as IIDB has to be awarded at 1 per cent or more in order that REA can be paid. A person claiming both IIDB and REA would be counted as only one claim.
10.From 22 December 1984 Invalid Care Allowance was extended to married women.
11.Number of recipients relates to Maternity Allowance only, number of claims also relates to Maternity Grant.
12.Death grant was abolished from April 1987 and replaced by payments in the Social Fund.
13.Number of recipients relates to number of awards in the year.

## Family Credit

Family Credit is a tax-free non-contributory benefit payable to working people who are responsible for at least one child under the age of 16 (or under 19 if in full-time education up to A -level or equivalent standard). It is payable to two-parent and one-parent families, to the employed or self-employed.

The claimant or her partner (if she has one) must be in full-time work. This is defined as at least 16 hours a week on average. The work may be done in more than one job but the hours worked by a couple cannot be added together to achieve the minimum requirement of 16 hours.

The method of calculating the weekly rate of Family Credit is shown in table A1.07. Net earnings (that is, gross earnings, less tax, national insurance contributions and half of any contributions to an occupational or personal pension scheme) are taken into account in calculating the total family income. Most other forms of income are taken into account in full although some are totally disregarded, for example, Child Benefit, One-Parent Benefit, Attendance Allowance, Disability Living Allowance, Housing Benefit and Community Charge Benefit.

Family Credit is not payable to people with savings or capital above $£ 8,000$. Savings between $£ 3,000$ and $£ 8,000$ are taken into account by assuming a weekly income of $£ 1$ for each $£ 250$, of savings over the $£ 3,000$ level. The first $£ 3,000$ of savings is ignored.

Awards of Family Credit are made for a fixed period of 26 weeks and normally the amount of the award will not change during this time even though family circumstances, number of children, earnings or savings, may change. The minimum amount of Family Credit payable is 50 p per week.

Entitlement to Family Credit carries with it automatic entitlement to certain other benefits:-

Free NHS prescriptions
Free NHS dental treatment
Free NHS sight tests
NHS vouchers to help with the cost of glasses Refunds of travel costs to and from hospital for NHS treatment
Free NHS wigs and fabric supports
Dried milk for babies under a year old at specially reduced prices at maternity and child health clinics.

Family Credit replaced Family Income Supplement (FIS) in April 1988.

The tables in this section have been extracted from the Family Credit statistical system. For further details please contact DSS, ASD4D, Room 11/19, Adelphi, 1-11 John Adam Street, London WC2N 6HT.

Source: Statistics are based on a 5 per cent sample of all awards.

|  | £pw | £pw | £pw | £pw | £pw |  | £pw |
| 1988/89 | $32 \cdot 10$ | 6.05 | 11.40 | 14.70 | 21.35 | 0.7 |  |
| 1989/90 | 33.60 | 7.30 | 12.90 | 16.35 | 23.30 | 0.7 | 54.80 |
| 1990/91 | 36.35 | 8.25 | 14.15 | 17.80 | 25.10 | 0.7 | 57.80 |
| 1991/92 | 38.30 | 9.70 | 16.10 | 20.05 | 27.95 | 0.7 | 62.25 |
| 1992/93 | 41.00 | 10.40 | 17.25 | 21.45 | 29.90 | 0.7 | $62 \cdot 60$ |

## Notes: 1. Family Credit is calculated using the following formula:

Family Credit $=($ Adult Credit + Child Credits) $-($ taper x (excess [if any] of Net Income over Applicable Amount $)$ ).
2. The Adult Credit rate is the same for both Lone Parents and Couples.

## Income Support

Income Support replaced Supplementary Benefit from 11 April 1988.

Income Support can be paid to a person who is in Great Britain and is aged 18 or over and is not working 16 hours or more a week, if his resources, if any, are less than his applicable amounts. Income Support is non-contributory. The basis for entitlement is set out in regulations. If a claimant is under 60 and able to work he will normally be required to be available for work as a condition of receiving Income Support. Lone parents do not have to be available for work.

In September 1988 there were changes in the rules governing Income Support for 16 and 17 year olds. These mean that the majority are not now able to get benefit, except in certain prescribed circumstances. Some groups retain entitlement to Income Support and do not have to be available for work (for further information see leaflet IS26).

The applicable amounts and resources of a couple in the same household, and any dependent children living with them, are counted together with the exception of any children's capital which is taken into account separately. Unmarried couples who are living together as husband and wife are treated in the same way as a married couple. Either partner may claim Income Support.

Benefit cannot normally be awarded to a person working 16 hours or more a week, nor can it be given to a person undergoing full-time education of a non-advanced nature, but a young person still at school can be treated as a dependent in the calculation of his parent's Income Support. Benefit is not payable for a person affected by a trade dispute, although it can be paid for his dependents. Provision is made for payment to be made outside the normal rules in certain urgent cases. Receipt of Income Support automatically entitles the claimant and his dependents to certain other welfare benefits.

Rate of Benefit. Broadly, the amount of benefit payable is the amount needed to bring a claimant's resources up to his applicable amount.

Applicable Amounts. These are specified by regulation and generally consist of personal allowances together with premiums for certain groups with special needs. These are shown in tables A2.36.

Housing Costs. Amounts will be included in the assessment of a person's applicable amount for certain housing costs. In particular the following will be included if appropriate:

- an amount for mortgage interest (but not capital repayments)
- ground rent
- other miscellaneous outgoings which are not met by Housing Benefit, such as certain service charges.

The housing costs applicable for the above items may be reduced to take account of

- contributions from non-dependents (but non-dependents are not always expected to make a contribution)
- any amount by which the housing costs are excessive.

Housing costs are not applicable for water charges or rent or community charge. Housing Benefits and Community Charge Benefit are payable by local authorities in respect of rent and up to $80 \%$ of community charge; Income Support qualifies the claimant for Housing Benefit and Community Charge benefit but he has to pay at least $20 \%$ of his community charge and all of his water charges himself.

The applicable amounts of a person in a local authority home are the total amount prescribed for the minimum charge for the accommodation and personal requirements.

The applicable amount for a person in hospital for more than 6 weeks consists of a hospital personal allowance rate plus any continuing housing costs. For couples, when one partner enters hospital benefit normally remains unaltered for six weeks and is then reduced.

Resources. The resources of a claimant consist of his total income, and capital, subject to any appropriate disregard as outlined in the following paragraphs. If a claimant does some work his net weekly earnings are calculated and then a specified amount of his earnings is disregarded. The remainder is counted as a resource. A similar rule applies to the earnings of a partner. The earnings of children are fully disregarded, but if the child has left school some earnings may be taken into account.

The main National Insurance pensions and benefits and Child Benefit are taken into account in full as resources. War Disablement Pension and War Widow's Pension are subject to a partial disregard. Mobility Allowance and Attendance Allowance are normally disregarded in full.

Maintenance payments are counted in full as a resource. Other income is also counted subject in some cases to a disregard, eg certain payments received from charities. The annuity paid to a holder of the Victoria Cross is wholly disregarded.

If a person, including any partner, has capital assets (eg savings, investments or property. other than his home) totalling more than $£ 8000$, he will not be entitled to Income Support. However, some assets may be disregarded eg property occupied by an aged relative. Savings between $£ 3000$ and $£ 8000$ are treated as if each $£ 250$ or part of $£ 250$ brings in an income of $£ 1$ per week.

Duration of Benefit. Supplementary Benefit claimants transferred automatically to Income Support. Tables A2.29 to A2.31 (Duration of benefit) therefore include a period in receipt of Supplementary Benefit prior to 11 April 1988.

Liability to maintain. A husband is liable to maintain his wife and a wife is liable to maintain her husband. Parents are liable to maintain their children. From October 1989 liability for children has been extended to include young people up to their nineteenth birthday where the young person is still
treated as a dependent child and Income Support is in payment in respect of him. From October 1990 legislation allows maintenance to be pursued in divorced or never married lone parent cases to cover not only benefit being paid for children but also benefit being paid to the person looking after those children, reflecting the cost of such care. A person who has given a written undertaking in pursuance of immigration rules within the meaning of the Immigration Act 1971. to be responsible for the maintenance and accommodation of another is liable to maintain that person if Income Support is paid. The Secretary of State may enforce these responsibilities where necessary by applying for a Court Order against the liable relative or sponsor.

Exceptional Expenses. Income Support is intended to meet regular weekly needs. If people have exceptional expenses which are difficult for them to pay from their regular income, they may be able to get help from the Social Fund.

The above notes give a very brief outline of Income Support. Full information is given in leaflet IS20 "A Guide to Income Support" (see Appendix 1 for how to obtain).

More detailed statistics on Income Support are contained in the Income Support Annual Statistical Enquiry - May 1991.

Source: Statistics are derived from 3 main sources. Most statistics are from the Annual Statistical Enquiry (ASE), a one per cent sample of beneficiaries. Some statistics are also taken from Quarterly Statistical Enquiries which are also one per cent samples of beneficiaries, and from Management Information Statistics, which are based on a 100 per cent collection.

## Housing Benefit

Housing Benefit (HB) is administered by local authorities. People are eligible only if they are liable to pay rent (or are treated as if they were so liable) in respect of the dwelling they occupy as their home.Couples are treated as a single benefit unit. The amount of benefit depends on eligible rent, income and the applicable amount.
'Eligible rent' is the amount of a tenant's rental liability which can be met by Housing Benefit. Payments made by owner occupiers do not count but payments such as mooring charges for houseboats, site fees for mobile homes, rental purchase payments, mesne profits and payments for compulsory housing - related services all count for Housing Benefit. Deductions are made for service charges in the rent which relate to personal needs, such as the supply of food or meals.

Income for Housing Benefit is assessed after deductions for Tax and National Insurance. Some forms of income, such as Attendance Allowance and Disability Living Allowance,are disregarded in full. Others such as War Disablement or War Widow's Pension are disregarded in part. Earnings are also disregarded in part; the disregard varies according to the claimant's circumstances. From April 1992 the first $£ 15$ of any maintenance received by people entitled to the family premium is disregarded.

A notional tariff income is assumed of $£ 1$ per week for every $£ 250$ of capital between $£ 3,000$ and an upper limit, currently $£ 16,000$. Capital above the upper limit removes entitlement to benefit.

The 'applicable amount' consists of a personal allowance depending on family circumstances, together with premiums for disability, pensioners, lone parents, disabled children and carers (see Table A3.33). The disability premium applies to people under 60 who receive Attendance Allowance, Mobility Allowance, Invalidity Pension or Severe Disablement Allowance, or who are registered blind, who have an invalid vehicle or have been incapable of work for 28 weeks or more.

The amount of Housing Benefit for a claimant not on Income Support, and whose income less disregards exceeds the applicable amount, is:
$100 \%$ of eligible rent, less any non-dependent deductions, less $65 \%$ of net income above the applicable amount.

For all other claimants the amount of Housing Benefit is:
$100 \%$ of eligible rent, less any non-dependent deductions.

The minimum payment is $£ 0-50$ per week.
Local authorities can increase the amount of Housing Benefit under a local scheme for War Widow and War Disablement Pension cases. Authorities may also grant additional amounts of benefit to individual claimants whose circumstances are considered to be exceptional. The extent to which they can exercise this discretion is limited to $0.1 \%$ of their total Housing Benefit expenditure.

Community Charge Benefit (CCB) was introduced from 1 April 1990 to provide help for people on low incomes to pay the community charge. Community Charge Benefit follows closely the previous Housing Benefit arrangements for rebating rates, and continues to mirror the rules which operate under the Housing Benefit scheme. However, there are no non-dependent deductions in the Community Charge Benefit scheme, and since 1 April 1991 no minimum benefit rule.

Community Charge Benefit can be awarded to any person who is liable for a full personal community charge or for collective community charge contributions. It is normally paid by means of a rebate to a person's community charge bill. Those receiving Income Support are entitled to maximum benefit of $80 \%$ of their community charge liability. People not receiving Income Support have their benefit assessed in a similar way to Housing Benefit, but the maximum Community Charge Benefit is reduced by $15 \%$ of any net income above the applicable amount.

Source: A $100 \%$ count of recipients is carried out in May, August, November and February from the Housing Benefit Management Information System. A range of information about a sample of recipients is collected in May. The selection of this sample is as follows:
(a) For those receiving Housing Benefit and Income Support - a sample of $1 \%$ of those receiving Income Support;
(b) For those receiving Housing Benefit but not Income Support - approximately a 1\% sample consisting of claimants with birthdays on four specified days of the year.
Quarterly caseload counts are shown in Tables A3.01, A3.02 and A3.21. The remaining tables in this section are analyses of the annual sample survey for May 1991.

Where recipients are analysed by social security status, the following rules apply: 'Aged 60 and over' consists of benefit units where either claimant or partner is aged 60 or over.
'Aged under 60' consists of benefit units where both claimant and partner are under 60.
'Retirement pensioners' consist of benefit units where a State retirement pension is payable.
'In receipt of other NI benefits' consists of benefit units where State retirement pension is not in payment, but the claimant or partner is entitled to a disability premium.

Each case falls in the first applicable category.
Claimants with partners are counted as one recipient.

## Earnings Disregards:

[^6]
## Social Fund

The Social Fund was introduced in three phases between April 1987 and November 1988. It consists of regulated and discretionary payments.

The regulation based part of the fund provides help with the cost of maternity and funeral expenses, and of higher heating costs due to a period of very cold weather, for people who have been awarded certain social security benefits. All decisions relating to Maternity, Funeral and Cold Weather Payments are governed by regulations. Payments are entitlements and are awarded to those who satisfy the relevant criteria.

The discretionary part of the Social Fund provides help in the form of interest-free loans and non-repayable grants for any item or service not excluded by the Secretary of State's Directions. Discretionary payments can be made as Community Care Grants, Budgeting Loans or Crisis Loans. The discretionary part of Social Fund is subject to a fixed annual budget. The budgetary year runs from 1 April to 31 March. Districts must manage their budgets so that, so far as is possible, similar levels of need can be met throughout the year. The budget must not be exceeded.

All decisions on loans and grants are taken by Social Fund Officers (SFOs). To assist SFOs in their decision making, each district manager sets out a list of local priorities for Social Fund awards. Priorities broadly fall into 1 of three categories of high, medium or low priority. In exercising judgement on individual cases each SFO is required to use their discretion, subject to the Secretary of State's directions and guidance, to reach decisions by taking account of the individual circumstances and needs of each case set against national and district priorities, and the broad policy objectives of the scheme.

Maternity Payments (from 6 April 1987). A Maternity Payment can be made if the claimant or partner are in receipt of Income Support, Family Credit or Disability Working Allowance. A payment up to $£ 100$ can be made to help with expenses associated with the arrival of a new baby. Payments are subject to a capital rule of $£ 500$ ( $£ 1,000$ for people aged 60 or over). Any savings above
this amount are taken into account on a pound for pound basis. Maternity Payments are not repayable.

Funeral Payments (from 6 April 1987). To qualify for a funeral payment the claimant or partner must be responsible for the funeral costs and must be in receipt of Income Support, Family Credit, Housing Benefit, Community Charge Benefit or Disability Working Allowance. The grant covers the cost of a simple funeral in the United Kingdom and an application can be made up to three months after the date of the funeral. Any capital possessed by the claimant or partner in excess of $£ 500$ ( $£ 1,000$ for those aged 60 or over) is taken into account. Once payment has been made, repayment is required out of any estate left by the deceased person. Personal possessions and the value of a home occupied by a surviving partner are disregarded.

Cold Weather Payments (from 1 November 1991). A payment of $£ 6$ is made for any period of 7 consecutive days when the temperature averages 0 degrees celsius or below. To be eligible for a payment, a person must be in receipt of Income Support and receiving a pensioner or disability premium or have a child under 5 years. All eligible people are paid automatically: there is no longer any need to claim. Periods of cold weather are forecast by the Meteorological Office as well as recorded, and local publicity reassures people that a payment will be made. The abolition of the capital rule has enabled 400,000 more people to become eligible for a payment and the weather station linkages have been improved as part of a change to postcode areas.

Community Care Grants (from 11 April 1988). The main purpose of Community Care Grants (CCGs) is to help vulnerable groups in receipt of Income Support to re-establish themselves in the community following a period of institutional or residential care; to help them lead an independent life in the community rather than go into institutional care; to help ease exceptional pressure on families or to help with certain urgent travelling costs. CCGs do not have to be repaid.

Budgeting Loans (from 11 April 1988). Budgeting loans are interest-free loans available to people who have been in receipt of Income Support for at least 26 weeks, to help them cope with large or intermittent expenditure associated with the purchase of major items or services.

Crisis Loans (from 11 April 1988). Crisis loans are also interest-free loans which are primarily intended as a means of relieving a
serious risk to health or safety of applicants and their dependents.

These notes provide a brief outline of the Social Fund. More detailed information is given in leaflet SFL 2 "How the Social Fund can help you".

## Extresed

## Retirement Pension

The categories of contributory retirement pension are:

Category A - dependent on a person's own contributions
Category B - dependent on contributions paid by a spouse

The two main conditions for payment are:
the person has reached State pension age ( 65 for men, 60 for women), and the contribution conditions are satisfied.

For people who do not meet the contribution conditions, there are two categories of non-contributory retirement pensions.

A flat-rate basic pension at the standard rate is paid to people who satisfy the contribution conditions in full. The basic pension is reduced if the conditions are only partly met. The contribution record can be safeguarded for periods after April 1978 when the person was not working because of responsibilities at home, such as bringing up a family or looking after a sick relative or disabled person. There are also special provisions to help widows and widowers qualify for a retirement pension.

Increases for dependent children can be paid with Category A or B pensions. Increases for a dependent spouse or person having care of children can also be paid with Category A pension.

A married woman can receive a Category A pension on her own insurance, if qualified. Otherwise she can claim a Category B pension on her husband's insurance when he qualifies for his own pension and she has reached State pension age. She can also claim a Category B pension if her own pension would be less than the standard rate payable to a married woman on her husband's insurance.

Additional Pension is the earnings-related element of the state retirement pension, known as SERPS. The amount depends on the earnings on which the pensioner has paid National Insurance contributions as an
employee since April 1978. The earnings are revalued up to the tax year before the one in which State pension age is reached, by the increase in average earnings.

Contracted Out Deduction: The Additional Pension is reduced when someone has been a member of a contracted-out scheme or personal pension scheme used in place of SERPS. Contracted out salary-related schemes provide a Guaranteed Minimum Pension (GMP) worth about the same as the Additional Pension payable under the state scheme. The Additional Pension is reduced by the GMP. With contracted-out money purchase schemes and personal pensions there is no guaranteed minimum but the Additional Pension is reduced in a similar way.

Notional Additional Pension is the entitlement to Additional Pension before reduction for Contracted Out Deduction.

Net Additional Pension is the entitlement to Additional Pension after reduction for Contracted Out Deduction.

Increments are earned where the retirement pension is not taken until after State pension age, or where the claim is cancelled. The increments are payable with pension on the person's own insurance, either from the eventual date of claim or five years after State pension age. The amount of increment is about $7 \%$ per year of deferred retirement on the basic rate, including invalidity allowance, with a minimum of 42 days deferment. A married woman can earn increments whether her pension is based on her own or her husband's insurance or both, but increments on her husband's insurance can only be earned if the couple are both over State pension age. A widow can have any increments earned by her husband added to her own.

Graduated retirement benefit is paid to contributors to the graduated pension scheme which ended on 5 April 1975, whether or not they are entitled to a retirement pension. For each "unit of graduated contributions" paid ( $£ 7-50$ for a man, $£ 9$ for a woman), the
entitlement is 7.09 pence per week. This amount is increased annually in line with prices. A person who defers claiming can earn increments in the same way as for other parts of the pension. A widow can receive half of any graduated retirement benefit for which her husband had qualified.

Invalidity addition is paid to a person who was entitled to invalidity allowance as an increase of invalidity pension at any time during the 57 days before reaching State pension age. The amount is the rate of invalidity allowance to which there was title at State pension age. From 16 September 1985 the rate of invalidity allowance has been reduced by the notional rate of additional pension.

## Non-contributory retirement pensions are

 as follows:Category C pensions apply to people who were over State pension age on 5 July 1948, and hence were excluded from the National Insurance scheme. A pension is also provided to a wife or widow of a man who was over 65 on 5 July 1948.

Category D pensions are awarded to people reaching the age of 80 who satisfy certain residence conditions and who either failed to qualify for a Category A or B pension, or who would have received less than the non-contributory rate.

An Age Addition of 25 p per week is paid to all pensioners over 80 years old.

A Christmas Bonus, currently $£ 10$, is paid in December to retirement pensioners, widows and people receiving certain other benefits.

Source: Since 1979, statistics have been based on a $10 \%$ sample from the computer file. For 1977, the sample was a combination of:
$10 \%$ of retirement pensioners whose payment order books were issued by computer (about $3 / 4$ of the total);
1 in 160 of retirement pensioners in receipt of supplementary pension and retirement pension, whose combined order books were issued by local offices;
$1 \%$ of the remaining retirement pensioners whose payments were issued by other methods.

Notes: 1. Formerly known as old person's pension.
2. An addition of $25 p$ is made to the standard rate when the beneficiary is aged 80 or over.

## Unemployment Benefit

To establish entitlement to National Insurance unemployment benefit, a claimant must be unemployed, available for and actively seeking employment as an employed person and free from certain grounds for disallowance or disqualification. For example, benefit is not payable for a day for which the claimant receives a payment in lieu of notice; or he may be disqualified for benefit for up to 26 weeks if he left his former employment voluntarily without just cause, or if he lost it through his misconduct, or if he refuses employment without good cause.

A claimant must also satisfy the contribution conditions for unemployment benefit which depend on Class 1 contributions paid as an employed earner. Claims for unemployment benefit are dealt with by the Department of Employment as agents for the Department of Social Security.

If the contribution conditions are satisfied in full, flat-rate unemployment benefit is normally payable at the standard rate shown in table C1.10 and an increase of benefit can be paid for an adult dependent. The payment of reduced rates of unemployment benefit, where the contribution condition was partially satisfied, was abolished on 5 October 1986. For people over 55, the rate is reduced by the amount of any occupational pension in excess of $£ 35$ a week (prior to 1 January 1989 the age limit was 60).

Unemployment benefit is not payable for any day on which $£ 2$ or more is earned, nor in any benefit week in which $£ 54$ (the Lower Earnings Limit) or more is earned.

Flat-rate unemployment benefit is payable after 3 waiting days for up to 312 days (excluding Sundays) in any period of interruption of employment. After benefit has been paid for 312 days, it cannot be
drawn again until the claimant has requalified.

Increases of benefit for dependent children in fresh claims for unemployment benefit ceased in November 1984 (except for claimants over pension age).

Earnings-related Supplement was abolished from 3 January 1982. It was payable after that date only on claims where the relevant tax year was 1979/80 or earlier (that is, only in respect of periods of interruption of employment that began before 3 January 1982) and ceased altogether on 30 June 1982. The Supplement was payable to claimants below State pension age ( 65 for a man, 60 for a woman) who were entitled to flat-rate unemployment benefit and had reckonable earnings of sufficient amount. The Supplement was payable after 12 waiting days for up to 156 days in a period of interruption of employment. The Supplement was based on the rate of the claimant's reckonable weekly earnings.

Source: Statistics are based on 100 per cent counts taken on certain dates, and on detailed returns for 5 per cent samples of current claimants for benefit or credits. The samples cover claimants whose National Insurance number ends in the digits 14,24 , $44,64,84$. Prior to November 1978, both counts were of the registered unemployed and included persons not claiming benefit or credits. Details of the percentage samples in respect of each table are as follows:

C1.01, C1.02, C1.04, C1.05, C1.08-100 per cent count.
C1.03, C1.06, C1.07-5 per cent sample.
The Standard Statistical Regions used in tables C1.02, C1.04 and C1.08 are defined in Appendix 4.

| 9 April 1992 | $43 \cdot 10$ |  |  | 26.60 |  |  |  |

Notes: 1. Further information on qualifying conditions and determination of the amount of benefit payable are contained in leaflet NI12 (unemployment benefit).
2. Child dependency addition abolished from 26 November 1984.
3. Payment of half and three-quarter rate benefit abolished from 5 October 1987.

## Sickness Benefit

Flat-rate Sickness Benefit. The main conditions for entitlement to National Insurance flat-rate sickness benefit are that the claimant is incapable of work because of illness or disablement and that he satisfies the contribution conditions, which depend on contributions paid as an employed person (Class 1) or a self-employed person (Class 2).

Since 6 April 1983, most people working for an employer and paying National Insurance contributions as employed persons have not got sickness benefit for the early weeks of sickness. Instead, they were entitled to Statutory Sick Pay (SSP) from their employer(s) for a maximum of 8 weeks of sickness absence in a tax year. But from 6 April 1986 SSP is payable for up to 28 weeks in any one period of incapacity for work. Liability to pay SSP is no longer limited by the tax year. People who do not work for an employer, and employees who are excluded from the SSP scheme, or who have run out of SSP before reaching the maximum of 28 weeks and are still sick, can claim sickness benefit.

The standard rates of flat-rate sickness benefit are shown in tables D1.16 and D1.17. An increase of benefit can be paid for an adult dependent, and for each dependent child if the claimant is over State pension age ( 65 for a man, 60 for a woman).

From 5 October 1986 the half and three-quarter rates of benefit payable because the contribution conditions were only partially satisfied were abolished. Those in receipt of a reduced rate at that time could continue to receive benefit until 3 October 1987 if they were still sick.

Where a person is incapable of work because of an industrial accident or prescribed disease the contribution conditions for standard rate sickness benefit are treated as satisfied.

From 14 September 1980, spells of incapacity of 3 days or less do not count as periods of interruption of employment. Exceptions are for people being treated weekly by dialysis, radio- or chemotherapy or plasmapheresis where 2 days in any 6 consecutive days make up a period of interruption of employment, and those whose incapacity for work ends within 3 days of reaching maximum SSP entitlement.

At the beginning of a period of interruption of employment flat-rate sickness benefit is subject to three waiting days. It is normally replaced by invalidity benefit after 28 weeks (168 days) in any period of interruption of employment. Employees entitled to SSP for less than 28 weeks and who are still sick can get sickness benefit until they reach a total of 28 weeks SSP and sickness benefit, provided they satisfy the contribution conditions for sickness benefit. As Sickness Benefit has much in common with Invalidity Benefit, with the exception of the rates tables, the tables in this section deal with them together.

Source: Detailed analyses are based on a one per cent sample consisting of claimants whose National Insurance number ends in the digit 14 .

Notes: 1. A "new claim" means a claim submitted at the beginning of a spell of incapacity for work. If a person has several separate spells of incapacity for work during the year, each spell is counted as a "new claim". The figures include a relatively small number of claims which did not result in the payment of benefit.
2. Non-contributory invalidity benefit new claims figures are included from 20 November 1975 until 31 March 1984. Housewives non-contributory invalidity benefit new claims figures are included from 17 November 1977 until 31 March 1984.
3. From 6 April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks sickness absence in a tax year. From 6 April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work.

2. At 31 May up to 1981/82; 31 March thereafter.

## D1.12 Spells of certified incapacity due to sickness and invalidity terminating in the period 2 April 1990 to 30 March 1991: by age and duration

Notes: 1. A benefit week is classed as being 6 days long (Sundays not counting for benefit). The benefit year therefore lasts 312
days.

## D1.16 Weekly rates of sickness benefit prior to 6 April 1978

|  | Personal benefit ${ }^{(1)(2)}$ |  |  | Increase for dependent child |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Higher rate | Middle rate | Adult | First | Each other |
| 18 November 1976 | 12.90 | 9.20 | 8.00 | 4.05 | 2.55 |
| 4 April 1977 | 12.90 | 9.20 | 8.00 | $3.05{ }^{(3)}$ | 2.55 |
| 17 November 1977 | 14.70 | 10.50 | 9.10 | 3.50 | 3.00 |
| 3 April 1978 | 14.70 | $10 \cdot 50$ | $9 \cdot 10$ | $2 \cdot 20$ | 2.20 |

Notes: 1. Rates of personal benefit applied as follows from 10 April 1975:

| Man: | Higher rate |
| :--- | :--- |
| Single woman, divorced women and widow: | Higher rate |
| Married woman: |  |
| Entitled to an increase of benefit in respect of her husband | Higher rate |
| Not residing with her husband and he is contributing less than the difference between the higher and |  |
| middle rate of the benefit towards her maintenance. If she is under 18 she must also be entitled to an |  |
| increase of benefit for a child or adult dependent |  |
| Residing with her husband and he is entitled to invalidity or retirement pension or unemployability | Higher rate |
| supplement or allowance | Higher rate |
| Others | Middle rate |
| 2. Earnings-related supplement may also be payable on the same basis as for unemployment benefit - see table C1.09. |  |

3. Adjusted to take account of child benefit.

## D1.17 Weekly rates of sickness benefit from 6 April 1978

Notes: 1. Further information on qualifying conditions and determination of the amount of benefit payable are contained in leaflet NI16 (sickness benefit) and NI196.
2. Child dependency addition abolished.
3. Three-quarter and half rate abolished with effect from October 1986, although transitional provisions applied until October 1987.

## Invalidity Benefit

Invalidity Pension replaces SSP or sickness benefit if incapacity continues after 28 weeks. Employees who have been entitled to SSP can have periods of entitlement treated as periods of sickness benefit in calculating the date from which invalidity benefit is payable provided that they would have been entitled to sickness benefit if SSP had not been paid. An increase of invalidity pension can be paid for an adult dependent and for each dependent child. The rates are shown in table D2.05.

Invalidity Allowance may be paid in addition to invalidity pension. There are three weekly rates of invalidity allowance and the rate payable depends on the claimant's age when his incapacity began (table D2.06).

Claimants who have become entitled to invalidity benefit since 6 April 1979 may also be paid an additional invalidity pension based on the earnings related national insurance contributions they paid as employees from 6 April 1978.

Since 16 September 1985 invalidity allowance has been reduced or extinguished by the amount of any additional invalidity pension and/or guaranteed minimum pension to which the claimant is also entitled.

NOTE: During continuing incapacity invalidity benefit becomes payable, instead of statutory sick pay (SSP) or sickness benefit, after a certain time if the conditions are satisfied (see paragraph 5 in Section D1 and paragraphs 1,2 and 3 in prologue).

As these benefits have much in common, many tables deal with sickness and invalidity together. These combined tables are given in Section D1, Sickness Benefit.

Source: Detailed analyses are based on a one per cent sample consisting of claimants whose National Insurance number ends in the digit 14 .

Before age 35
Before age 45
Before age 60 for men or 55 for women - Lower rate

## Age bands from 6 April 1979

| Before age 40 | - Higher rate |
| :--- | :--- |
| Before age 50 | - Middle rate |
| Before age 60 for men or 55 for women | - Lower Rate |

Before age 60 for men or 55 for women - Lower Rate

## Severe Disablement Allowance

Severe disablement allowance is payable to people who are incapable of work and unable to establish title to a contributory benefit. Claimants must be aged between 16 and pensionable age ( 65 for a man, 60 for a woman), satisfy certain residence/presence conditions, and have been incapable of work for at least 28 weeks, people who become incapable of work before their 20th birthday can qualify on this basis alone, people who become incapable of work later in life must satisfy an additional condition of being $80 \%$ disabled for at least 28 weeks. Increases for dependents are payable in the same way as for invalidity benefit. From 3 December 1990,

Severe disablement allowance was increased to include age additions. The amount of the addition will depend on the claimant's age when incapacity for work began.

Severe disablement allowance replaced non contributory invalidity pension and housewives non contributory invalidity pension from 29 November 1984.

Source: Detailed analyses are based on a one per cent sample consisting of claimants whose National Insurance number ends in the digit 14 .

Notes: 1. Adjusted to take account of child benefit.
2. Non-contributory Invalidity Pension and Housewives Non-contributory Invalidity Pension were replaced by Severe Disablement Allowance from 29 November 1984.
3. Age Related Additions were introduced from 3 December 1990 and depend on the claimant's age when incapacity for work began.

## Attendance Allowance

Attendance Allowance is a non-contributory benefit (table E1.05) which is payable to a person who is severely disabled, physically or mentally, and requires frequent attention or continual supervision or watching over.

From April 1990 the lower age limit for Attendance Allowance was abolished making the allowance available for severely disabled children under 2 years of age.

From October 1990 availability was further extended to those suffering from a terminal illness likely to limit life expectancy to 6 months or less.

From April 1992 Disability Living Allowance replaced Attendance Allowance for those people disabled before the age of 65 .

There are two components to Disability Living Allowance - care and mobility. The care component is paid at one of three rates: Higher, Middle and Lower. The rates from April 1992 are as follows:

Higher: $£ 43.35$
Middle: £28.95
Lower: £11.55
The mobility component is paid at one of two rates: Higher and Lower. The rates from April 1992 are as follows:

Higher: $£ 30.30$
Lower: £11.55
Source: Statistics are based on a 100 per cent count stock. Figures are adjusted by an annual sampling exercise.

## E1.03 (continued)

Notes: 1. 31 December in 1977 and 31 March for 1982 onwards.
2. Estimated from a 100 per cent count of statistical records adjusted to reflect estimates of the extent to which they overstate the number of live cases. Estimates for the older age groups are particularly prone to error.
3. From April 1990 the lower age limit for Attendance Allowance was abolished. From that date Attendance Allowance was available for severely disabled children under 2 years of age.
4. Ages 2-4 before April 1990 and ages 0-4 from April 1990.

| 80 and over |  |  | 126 | 139 | 153 |  |  |

Notes: 1. 31 December in 1977 and 31 March for 1982 onwards.
2. Estimated from a 100 per cent count of statistical records adjusted to reflect estimates of the extent to which they overstate the number of live cases. Estimates for the older age groups are particularly prone to error.
3. From April 1990 the lower age limit for Attendance Allowance was abolished. From that date Attendance Allowance was available for severely disabled children under 2 years of age.
4. Ages 2-4 before April 1990 and ages 0-4 from April 1990.

| 6 April 1992 ${ }^{(4)}$ | $43 \cdot 35$ | 28.95 |

Notes: 1. Attendance allowance is paid in respect of any person (including under age 2 from 2 April 1990 and terminally ill people from 1 October 1990) who is severely disabled physically or mentally that he requires from another person:
By day (i) frequent attention throughout the day in connection with his bodily functions; or
(ii) continual supervision throughout the day in order to avoid substantial danger to himself or others.

At night (iii) prolonged or repeated attention during the night in connection with his bodily functions; or
(iv) continual supervision throughout the night in order to avoid substantial danger to himself or others. In the case of a child under the age of 16, there is an additional condition that the attention and/or supervision which he requires must be substantially in excess of that normally required by a child of the same age and sex.
2. This rate applies if one of the day requirements and one of the night requirements at (1) are satisfied.
3. This rate applies to a person who satisfies any one of the 4 medical conditions at (1).
4. From April 1992 Disability Living Allowance replaced Attendance Allowance for those people disabled before age 65.

## Mobility Allowance

Mobility Allowance is paid to severely disabled people who are unable or virtually unable to walk due to physical disablement; are likely to remain so for at least 12 months and are able from time to time to make use of enhanced facilities for locomotion. It is available to people aged 5 to 80 but only for those who establish entitlement before age 65 (and for this purpose claims can be made up to 12 months after the 65 th birthday). Introduction was phased in by age groups over a period of about 4 years from 1 January 1976. Once awarded the allowance may be retained until age 80 so long as the other conditions continue to be fulfilled.

From April 1990, special provisions were introduced for people who are both deaf and blind. In April 1991 regulations were introduced which put the entitlement of those without legs - mainly double amputees - beyond doubt.

Disability Living Allowance replaced Mobility Allowance from April 1992.

There are two components to Disability Living Allowance - care and mobility. The care component is paid at one of three rates: Higher, Middle and Lower.
The rates from April 1992 are as follows:
Higher: $£ 43.35$
Middle: £28.95
Lower: £11.55

The mobility component is paid at one of two rates: Higher and Lower. The rates from April 1992 are as follows:

Higher: £30.30
Lower: £11.55

## Invalid Care Allowance

## Invalid Care Allowance is a

 non-contributory benefit for men and women under pension age who are not gainfully employed (earning more than $£ 40.00$ per week) or in full-time education and who look after a severely disabled person for at least 35 hours a week. The severely disabled person must be receiving either the highest or middle rate of Disability Living Allowance care component or attendance allowance, ora constant attendance allowance under the War Pensions or Industrial Injuries Scheme.

A person in receipt of ICA can claim an increase for dependants.

Note: 1. Excludes allowances when retrospective awards result from claims decided after the end of the year.

## E3.03 Rates of invalid care allowance

Note: 1. Adjusted to take account of child benefit.

## War Pension

Pensions, allowances or other payments are awarded for disablement or death, due to service in HM Forces. Pensions can also be paid for injury incurred in the course of war service in the Naval Auxiliary Service, or in the Mercantile Marine, or in a fishing fleet, or in the Civil Defence services. In addition, civilians are covered for war injuries.

Disablement Pension is paid to a disabled person and the rate (tables F1.06 and F1.07) varies according to his rank and degree of disablement which is assessed on a percentage basis by the Department's doctors. An education allowance is payable in some cases.

Treatment Allowance equivalent to disablement pension at the $100 \%$ rate are paid in place of pension where a pensioner receives treatment for his war disablement and the treatment prevents him from working.

Unemployability Supplement is an allowance for the pensioner whose disablement is so severe as to make him unemployable or virtually so. Additional allowances may be paid for a spouse and children.

Invalidity Allowance may be paid to a pensioner receiving unemployability supplement and the rate varies according to the age at which unemployability or sickness began.

Constant Attendance Allowance is paid to a pensioner who, although he is not in hospital, needs regular personal attendance mainly because of his pensioned disablement. The amount awarded varies according to the extent of the attendance needed. It may also be paid to those who because of their pensioned disablement have a life expectancy of no more than 6 months, regardless of the need for attendance.

## Severe Disablement Occupational

Allowance is paid to a pensioner who is entitled to constant attendance allowance at one of the higher rates and is severely disabled but nevertheless normally has a gainful occupation.

## Exceptionally Severe Disablement

Allowance is paid to a pensioner who is receiving constant attendance allowance at a high rate, or would be receiving it if he were not in hospital or a home.

Allowance For Lowered Standard of Occupation. A disabled war pensioner whose earning capacity is reduced because his war disablement permanently prevents him from following his regular occupation and other work of equivalent standard may receive this allowance. The allowance and the basic pension together must not exceed the $100 \%$ pension rate.

Age Allowance is paid to a pensioner (man or woman) who is aged 65 or over and has a disablement assessed at $40 \%$ or more.

Clothing Allowance may be paid if the disablement causes exceptional wear and tear on clothing.

Comforts Allowance is payable to a severely disabled pensioner and is intended to help with the extra expenses associated with severe disablement.

War Pensioners' Mobility Supplement is intended to help with the mobility costs of a pensioner who is unable to walk or is virtually unable to walk because of his war disablement. It is also paid to double amputees and to those who need help getting about because they are both deaf and blind.

War Widows Pension. A temporary allowance, irrespective of the cause of death, is paid for the first 26 weeks of widowhood to the widow of a severely disabled war pensioner who when he died was eligible for either unemployability supplement or constant attendance allowance or both. The allowance is equal to the husband's pension and main allowances (except for any wife's additional allowance payable with unemployability supplement) and takes the place of any ordinary war widow's pension during the period for which it is paid.

The standard rate of pension for a war widow whose husband's death was accepted as due to his service is payable if she has a dependent child of the deceased, or is over age 40 , or is incapable of self-support. War widow's pension may also be paid to a widow whose husband was entitled to war pension constant attendance allowance at the time of his death regardless of the cause of death. The rate varies according to the rank of the deceased. Allowances are payable for children, including possibly an education allowance.

Rent Allowance. A war widow with children may be eligible for a rent allowance.

Elderly Widow's Age Allowance . A war widow receives an additional allowance at age 65 which is increased at age 70 and age 80.

Pensioncan be awarded to a parent or other relative of the deceased and is assessed according to need.

War Orphan's Pension is payable for an orphan child.

Funeral Grant. The Department can pay for the cost of a basic funeral for a war pensioner who died as a result of his pensioned disablement, or while having treatment in hospital for it, or while entitled to constant attendance allowance.

Source: Statistics are based on a 100 per cent count.

## Industrial Injuries Disablement Benefit

Industrial Injuries Disablement Benefit (IIDB) may be payable to people who are disabled because of an industrial accident or prescribed industrial disease.

IIDB cannot be paid until 90 days have passed since the date of accident or date of onset of a prescribed disease.

The basic benefit depends on a medical assessment of the degree of disablement due to the injury or disease. This is expressed as a percentage. All degrees of disablement attracted benefit in respect of claims made prior to 1October 1986. At that time, benefit for an assessment of less than $20 \%$ was normally paid in the form of a lump sum gratuity, the amount depending on the degree and the period of assessment. From 1October 1986 benefit for an individual assessment of less than $14 \%$ is not normally payable except where the disablement is due to pneumoconiosis, byssinosis or diffuse mesothelioma. Assessments of disablement in respect of different claims may, however, be added together and benefit awarded on the aggregate total. A weekly disablement pension is now paid for assessments of $14 \%$ or more, the rate of pension varying according to the percentage disablement. Assessments of $14 \%$ to $19 \%$ are payable at the $20 \%$ rate. Assessments over $20 \%$ are rounded up or down to the nearest $10 \%$ ie $34 \%$ rounded to $30 \%, 35 \%$ rounded to $40 \%$.

The assessment of disablement takes no account of the claimant's occupation or any loss of earnings, but allowances can be added to the basic benefit (table F2.11). Where appropriate, other Social Security benefits may be payable in addition to disablement benefit and its increases, except when unemployability supplement or constant attendance allowance are payable.

Unemployability Supplement(US). This supplement is payable to a disablement pensioner who, as a result of his disablement, is incapable of work and likely to remain so permanently. Increases are payable for dependants and also an increase according to beneficiary's age as for Social Security invalidity benefit. The supplement and reduced earnings allowance cannot be paid
together for the same period nor can this supplement be paid for the same period as an unemployability supplement paid with a war pension. If there is concurrent title to sickness or invalidity benefit, severe disablement allowance or retirement pension, these benefits are subject to adjustment. From 8 April 1987 US was withdrawn from the scheme, except for pensioners receiving the allowance on that date.

Constant Attendance Allowance. This allowance is paid to a $100 \%$ disablement pensioner who needs constant care and attention because of the effects of the industrial injury. There are four rates, depending on the amount of care which is needed. If there is concurrent title to attendance allowance the rate of attendance allowance is adjusted.

## Exceptionally Severe Disablement

Allowance. The allowance is payable to an exceptionally severely disabled pensioner who is already entitled to constant attendance allowance at one of the two higher rates, and whose need for attendance at that level is likely to be permanent.

Reduced Earnings Allowance(REA). This benefit can be paid in certain circumstances to a claimant who, as a result of disablement due to the relevant injury or disease, which is assessed at one per cent or more is unable to follow his regular occupation or one of an equivalent standard. The amount payable is the difference between the standard of remuneration in the claimant's regular occupation and that in any suitable occupation which he is capable of following. It cannot exceed a specified maximum rate, nor can the allowance and the disablement benefit together exceed $140 \%$ of the maximum disablement pension rate. This benefit can be paid even if disablement benefit is not in payment because of the $14 \%$ rule, provided there is a current disablement assessment of at least $1 \%$. Reduced Earnings Allowance is not payable for industrial accidents or prescribed diseases occurring on or after 1 October 1990.

Retirement Allowance. This benefit replaces Reduced Earnings Allowance for those who are receiving REA at the rate of $£ 2$ a week or more who reach State pension age and who cannot be regarded as regularly employed. Retirement allowance is paid at $25 \%$ of the rate of REA in payment. If REA is being paid at less than $£ 2$ it is withdrawn and not replaced by Retirement allowance at State pension age.

Source: Statistics are based on a 10 per cent sample consisting of disablement beneficiaries whose National Insurance number ends in the digit 4.

F2.01 and F2.03-100 per cent count. F2.02, F2.04, F2.05, F2.06, F2.08, F2.09 and F2.10-10 per cent sample.
F2.07-20 per cent sample of claimants up to 1969-10 per cent sample from 1970.

[^21]
## Industrial Death Benefit

For death occurring before 11 April 1988 Death Benefit took the form of a pension, allowance or gratuity. Subject to limitations on the type and the amount of benefit payable for any one death, parents, certain dependent relatives and a woman looking after a child or children of the deceased may have qualified for death benefit. The widow of a man who died from an industrial accident or disease receives a pension. For the first 26 weeks a higher rate is payable.
Thereafter the permanent rate of pension depends upon the age and other
circumstances of the widow. Widowers may also have qualified for a weekly pension. Allowances are paid for each qualifying child of the deceased.

Death benefit is not payable in respect of industrial deaths which occur on or after 11 April 1988. The deceased's widow will receive National Insurance widow's benefit.

Source: Statistics are based on a 100 per cent count.

Notes: 1. Payable for the first 26 weeks of widowhood (13 weeks where the husband died before 6 July 1966). Replaced by widows payment where the husband died after 11 April 1988.
2. Lower rate allowance for children ceased to be payable from 28 November 1986.

F3.04 Rates of industrial death benefit

Notes: 1. Payable for the first 26 weeks of widowhood (13 weeks where the husband died before 6 July 1966). Replaced by widows payment where the husband died after 11 April 1988.
2. Adjusted to take account of child benefit.
3. Lower rate ceased to be payable from 28 November 1984.

## Other Industrial Injuries

## Workmens Compensation Supplementation Scheme

This scheme provides for certain allowances to be awarded to a claimant who is currently entitled or has been entitled since the introduction of relevant legislation to weekly payments of compensation under the Workmen's Compensation Acts in respect of an injury or disease incurred before 5 July 1948.

## Pneumoconiosis, Byssinosis and Miscellaneous Diseases Benefit Scheme

This scheme provides benefits for disablement or death caused by one of the diseases specified, if it arose out of employment before 5 July 1948 and if nothing is payable under the Workmen's Compensation Acts or the Industrial Injuries provisions of the Social Security Act.

Source: Statistics are based on a 100 per cent count.

## Medical Boarding Centres (Respiratory Diseases)

Medical Boarding Centres (Respiratory Diseases) are manned by doctors who are specialists in occupational respiratory diseases. If a person claims benefit for one of the respiratory diseases under the Industrial Injuries scheme he is normally sent for a chest x-ray and a clinical examination by a Special Medical Board (SpMB) which consists of two specially qualified doctors. If the SpMB decide that a claimant is suffering from one of the prescribed respiratory diseases they go on to assess the degree of disablement. The assessment is made by comparing the condition of the claimant as a result of the disease with the condition of a normal healthy person of the same age and sex.

If, however, a claim is made for pneumoconiosis a claimant is first sent for a chest x-ray which is scrutinised by a doctor of the centre. If the x-ray together with other evidence suggests any possibility that the claimant is suffering from pneumoconiosis he is sent for a clinical examination by a SpMB. (A claimant who has been exposed to asbestos dust or slate dust is always examined by SpMB ). If claim for pneumoconiosis is disallowed without a clinical examination the claimant has the right of appeal to be examined by a SpMB.

If the SpMB decide that a claimant is suffering from pneumoconiosis they go on to assess the degree of his disablement. The assessment takes account of all the claimant's disabilities which result directly from pneumoconiosis. Also, if he suffers from some other condition (for example chronic bronchitis or emphysema), which does not arise from the pneumoconiosis but which makes it more disabling than it would otherwise be, the SpMB may make an increased assessment to take account of the extent to which the pneumoconiosis is made more disabling. In addition, there are special provisions for people suffering from tuberculosis and people whose disablement from pneumoconiosis is assessed at $50 \%$ or more who are also suffering from emphysema and chronic bronchitis.

If an assessment of disablement for one of the respiratory diseases is for a limited period, towards the end of the period the beneficiary is again examined by a Special Medical Board. The assessment of disablement may be adjusted as a result of re-examination.

Source: Statistics are based on a 100 per cent count.

F5.01 Industrial chest diseases: cases ${ }^{(1)}$ newly diagnosed from 1977

Notes: 1. The figures relate to cases seen in connection with claims for disablement or injury benefit under the industrial injuries scheme (on or after 21 June 1965 for farmer's lung, and on or after 27 November 1974 for beryllium, cadmium and nitrous fumes poisoning and cancer in certain nickel workers). The figures exclude cases diagnosed by Medical Appeal Tribunals (MATs) which are no longer available.
2. Both pleural and peritoneal cases are included. Some cases may be included in the figures for pneumoconiosis: asbestos.
3. Prescribed 29 March 1982.
4. Prescribed 1 April 1985. Full description of disease: Primary carcinoma of the lung where there is accompanying evidence of one or both of the following: - i. asbestosis; ii. bilateral diffuse pleural thickening.
5. Prescribed 1 April 1985.
6. Prescribed 1 April 1987.

Notes: 1. Excludes cases under the Pneumoconiosis, Byssinosis and Miscellaneous Diseases Benefit Scheme 1966.
2. See Table F5.01, footnote 1, for cases diagnosed by Medical Appeal Tribunals.

## Child Benefit

Prior to April 1977, family allowance was payable to a family with two or more children.

From 5 April 1977, Child Benefit was introduced to replace family allowance and this brought all children of a family into the scheme. Child benefit is normally paid up to the age of 16 . Thereafter, benefit may be paid up to age 19 if the child is receiving full-time non-advanced (ie up to A level standard) education by attendance at a recognised educational establishment.

From 12 September 1988 Child Benefit can also continue to be paid for a short period
where a 16 or 17 year old young person has just left school and is registered for work or the youth training scheme.

The rates of child benefit are shown in table G1.10. Child benefit is a non-contributory benefit.

Source: Statistics are based on a 4 per cent sample consisting of beneficiaries whose child benefit number ends in the digits $17,37,67$, or 87 . Statistics include late notifications received up to and including 30 June of the following year.

## One Parent Benefit

Child Interim Benefit was introduced under the Child Benefit Act 1975, one year in advance of the main child benefit scheme. For the year April 1976 to April 1977 it effectively extended Family Allowance to the first child of parents who were single, divorced or separated and not living with someone else as man and wife.

Child Benefit Increase was introduced under the Child Benefit Act 1975 (Section 5), and took effect from April 1977. Child Benefit Increase was renamed One Parent Benefit from 1 April 1981. One Parent Benefit is an extra weekly tax-free payment to a person, whether parent or not, who has the sole responsibility - arising from being single, widowed, divorced or permanently separated - for bringing up a child or children. One Parent Benefit is paid in respect of the eldest dependent child. One Parent Benefit is not payable if the person is:
living with someone as husband or wife; or
living apart because of hospital inpatiency or for any other temporary reason; or
separated and the period of separation is less than 13 weeks, unless legally separated or divorced; or
bringing up a child not the person's own and the child's parent lives at the person's address; or
receiving child's special allowance, guardian's allowance or industrial death benefit for a child at the higher rate in respect of the eldest dependent child; or
receiving an increase for the eldest dependent child with widowed mother's allowance, war widow's pension, retirement pension, industrial disablement pension, which includes unemployability supplement, or invalid care allowance.

The rates of One Parent Benefit are shown in table G2.06.

Source: Statistics are based on a 4 per cent sample consisting of beneficiaries whose child benefit number ends in the digits $17,37,67$ or 87 . Prior to 1987 statistics did not include any late notifications. From that date late notifications received up to and including 30 June of the following year are included.

Note: 1. Child benefit increase replaced child interim benefit from 5 April 1977.

## Widow's Benefit

A woman who is widowed is entitled to National Insurance widow's benefit if her late husband satisfied the contribution conditions. If these conditions are met in full, benefit is payable at the standard rate shown in Tables G3.15 and G3.17; otherwise the rate of benefit is reduced.

Since 11 April 1988, the benefits are:
Widow's Payment: a single tax-free payment of 1,000 paid to a widow under 60 at widowhood or to a widow over 60 whose husband was not then entitled to a Category A retirement pension.

## Widowed Mother's Allowance (WMA): is payable

(a) as long as the widow has at least one qualifying child in respect of whom she is entitled to Child Benefit,
or (b) she is pregnant by her late husband,
or (c) in certain cases of artificial insemination.

Widow's Pension: payable to a widow who is over 45 at widowhood or when her entitlement to WMA ceases. The standard rate applies if the widow was over 55 at that date.
For younger widows the pension is reduced in steps of $7 \%$ per year, so that a $93 \%$ rate is paid at age 54 , falling to $30 \%$ at age 45 (see Table G3.17). This reduction also applies to any additional pension.

Additional pension is the earnings-related element of Widowed Mother's Allowance and Widow's Pension. The amount depends on
the deceased husband's earnings since April 1978 on which he paid National Insurance contributions as an employee. The earnings are revalued up to the year before he died by the increase in average earnings. Where he was in contracted-out employment or had a personal pension used for contracting out, the widow's additional pension is reduced by half the Guaranteed Minimum Pension (or its equivalent) to which the deceased was entitled. This is the Contracted out Deduction (see tables G3.09 and G3.10).

Notional Additional Pension is the entitlement to Additional Pension before reduction for Contracted Out Deduction.
Net Additional Pension is the entitlement to Additional Pension after reduction for Contracted Out Deduction.

## Before 11 April 1988:

A Widow's Allowance was paid in place of Widow's Payment, in the same circumstances. This was an especially high rate of benefit paid for the first 26 weeks of widowhood. An increase was paid for each dependent child.

Widowed Mother's Allowance was also payable if someone aged under 19 was living with the widow in respect of whom she would be entitled to an increase if the young person had been eligible for Child Benefit.

Widow's Pension applied to widows aged over 40 at widowhood or when entitlement to WMA ceased, the standard rate being paid to widows aged over 50 .

Source: Tables G3.01 to G3.14 are based on a $10 \%$ sample of widow beneficiaries.

## Childs Special Allowance and Guardians Allowance

Guardian's Allowance. This is a National Insurance benefit (table G4.04) paid in addition to child benefit for children whose parents are dead. One of the parents must have satisfied a residence condition.
Exceptionally, payment can be made where only one parent is dead, for example where the other parent is missing and cannot be traced.

Child's Special Allowance. This allowance (table G4.04) can be paid under National Insurance to a divorced woman whose former husband has died provided she has not remarried and is not living with a man as his
wife, if she has a qualifying child and he was contributing, or liable to contribute, towards the child's maintenance. The allowance is increased for other qualifying children. There are conditions which apply to the insurance of the former husband.

No new claims can be made for this allowance where a former husband dies on or after 6 April 1987.

Source: Statistics are based on a 100 per cent count.

| 6 April 1992 | 10.85 | 9.75 | 9.75 | 10.85 |

Notes: 1. Adjusted to take account of increased child benefit rate.
2. Adjusted rate taking account of higher rate of Child Benefit for the eldest qualifying child.

## Maternity Benefits

Maternity Grant. For all confinements taking place before 4 July 1982 this was a National Insurance benefit paid as a lump sum (tables G5.02 and G5.03) and the contribution conditions could be satisfied on the insurance of the mother or on the insurance of her husband. For all confinements on or after 4 July 1982 to 5 April 1987 the grant was non-contributory, and was paid to all mothers who could satisfy a simple test of presence in Great Britain.

Maternity Allowance. This allowance (tables G5.02 and G5.03) is payable for 18 weeks, normally starting 11 weeks before the baby is due, to a mother who has worked and paid
full National Insurance contributions in the relevant test period. It is not paid for any period during which paid work is done. From 6 April 1987 most women who work for an employer and who pay National Insurance contributions as an employed person are entitled to Statutory Maternity pay for which their employers are liable to pay.

Source: Statistics are based on a 1 per cent sample of maternity benefit payments. G5.01-2.5 per cent sample to June 1982, 2 per cent sample to June 1987 and 1 per cent thereafter.

Note: 1. Adjusted to take account of increased child benefit rate.

G5.03 Rates of the maternity benefits: standard rate of maternity grant and weekly rates of maternity allowance

Notes: $\quad$ Further information on qualifying conditions and determination of the amount of benefit payable are contained in leaflet NI 17A (Maternity Benefits).

1. From April 1987 payment of maternity grant is based on needs and any payment made is from the Social Fund.
2. After 20 December 1986 3/4 and 1/2 rates of maternity allowance ceased to be payable.

## Contributions

Under the Social Security Scheme introduced in April 1975 there are 4 classes of contribution:
earnings related Class 1 contributions paid by employed earners and their employers;
flat-rate Class 2 contributions paid by self-employed contributors;
flat-rate Class 3 contributions paid voluntarily by non-employed persons and others;

Class 4 contributions paid by certain self-employed people along with Schedule D income tax.

Class 1 Earnings-Related Contributions consist of two elements: primary Class 1 contributions paid by employed earners, and secondary contributions paid by their employers or, in the case of office holders, by the persons paying their remuneration. These contributions are collected along with Schedule E (normally PAYE) income tax. Employed earners are persons gainfully employed in Great Britain
(a) under a contract of service;
(b) in an office, including elective office, with emoluments chargeable to income tax under Schedule E (eg company directors; MPs; High Court Judges); or
(c) who are treated as employed earners by virtue of Regulations made under the Social Security Act, 1975.

Liability for Class 1 contributions depends on whether earnings from the employment reach the current Lower Earnings Limit. Before the tax year beginning in April 1978 (ie the year 1978/79) where earnings reached this level, the contribution was a percentage of all earnings up to the Upper Earnings Limit. From April 1978, with the introduction of the new pension scheme, contributions continued to be a percentage of all earnings up to the Upper Earnings Limit, but the rate payable on earnings between the Lower and Upper Earnings Limits depended on whether or not the employed earner's employment was contracted out of the state scheme's additional pension.

For employed earners who were not contracted out the rate of contribution was the same on all earnings up to the Upper Earnings Limit. For contracted out employed earners the primary and secondary contributions were at the not contracted out rate on earnings up to the Lower Earnings Limit, but the primary contribution on earnings between the Lower and Upper Earnings Limit was reduced by 2.15 percentage points ( 2.5 up to 5 April 1983) and the secondary contributions by 4.1 percentage points ( 4.5 up to 5 April 1983). From 6 April 1988 the rebates are $2 \%$ and 3.8\% respectively.

Also from April 1978, there has been no liability for primary contributions after State pension age ( 65 men, 60 women) is reached, and secondary contributions only are payable at the not contracted out rate regardless of whether the employed earner was contracted-out before reaching pension age.

From 6 October 1985 a graduated scale of contributions was introduced. Lower percentage rates apply to low paid employees and their employers. The rate of contributions depends on the earnings bracket into which the total earnings fall. To finance these changes the employer's Upper Earnings Limit was abolished from the same date, and secondary contributions are due at the not contracted out rate on earnings above the employee's Upper Earnings Limit.

From 5 October 1989 new contribution rates were introduced for employees only. Once the Lower Earnings Limit is reached the employee pays 2 per cent on all earnings up to and including the Lower Earnings Limit. For earnings above the Lower Earnings Limit (up to the Upper Earnings Limit) the employee pays the standard not contracted out or contracted out rate as appropriate. There is no change in the special married women's reduced rate, nor to employers secondary contribution.

Flat-Rate Class 2 Contributions are payable in respect of self-employment by earners who are ordinarily self-employed. Exception from liability for Class 2 contributions can be granted if the earnings from self-employment after certain deductions are expected to be less than a certain annual limit.

Class 3 Contributions are voluntary and can only be paid to help a person qualify for certain benefits if in any tax year his Class 1 or Class 2 contributions are insufficient for that purpose. They can be paid by earners or by non-employed persons. The contributions are flat-rate and the rate of contribution is the same for everyone.

Class 4 Contributions are payable by self-employed earners on profits or gains chargeable to income tax under Cases I and II of Schedule D. The contribution is a percentage of profits or gains between an annual lower and upper limit.

Class 1, Class 2, Class 3 and Class 4
Contributions include amounts collected on behalf of the National Health Service and in the case of the secondary Class 1 contributions, the Redundancy Payments Scheme. From 6 April 1982 primary Class 1 contributions include an element towards the Redundancy Payments Scheme.

From 6 April 1988 contribution to the Redundancy Fund has been suspended. In February 1991 the Redundancy Fund merged with the National Insurance Fund. There is no longer any need to include a separate element for the Redundancy Payments Scheme. From 6 April 1977 to 1 October 1984, secondary Class 1 contributions also included a percentage for the National Insurance Surcharge. The money raised by this surcharge did not go to the National Insurance Fund but formed part of the government's general tax revenue. There is no separate industrial injuries contribution but with the exception of a few special groups all employed earners are covered for industrial injuries benefit.

A person who derives his earnings partly from employment and partly from self-employment is liable for both Class 1 and Class 2 (and possibly Class 4 ) contributions. However, where the total contributions exceed a specified amount the excess will be refunded. In certain circumstances a person may apply for payment of Class 2, Class 4 and primary Class 1 contributions to be deferred.

There are provisions for crediting contributions for weeks of proved incapacity for work or unemployment or where Invalid Care Allowance is payable (and in certain other circumstances where this is necessary to help maintain entitlement to benefits). Such credits are not available to married women who have reduced liability.

For years ending before 6 April 1978, but not thereafter, there were also provisions for crediting Class 3 contributions to widows for a limited period on widowhood and where certain widows benefits were payable.

Under the scheme introduced in April 1975, the standard rate contribution is the same for a woman whether she is married, single or widowed, but married woman and certain widows could choose full or reduced liability. The choice remained effective for a complete tax year and had normally to be made before the tax year began. The Social Security Pensions Act 1975 abolished the right of married woman (and certain widows) to pay reduced contributions but permitted women to have reduced liability if they had an existing right on 5 April 1977, or were a qualifying married woman/widow and chose reduced rate liability before 12 May 1977. This right is lost if the woman's marriage ends by divorce or annulment or if at any time after 5 April 1978 there are two consecutive tax years during which she has no earnings on which Class 1 contributions are payable and she is not self-employed.

Women with reduced liability pay Class 1 contributions at the rate of 3.85 per cent of all earnings up to the upper limits if they are employed and no Class 2 contributions if they are self-employed, and they are not permitted to pay Class 3 contributions. They remain liable to pay Class 4 contributions. Contributions at the reduced rate do not give title to benefit but employment as an employed earner does give cover for Industrial Injury benefits, and Statutory Sick Pay and Statutory Maternity Pay may be available.

From 6 April 1978 Home Responsibilities Protection provides for any year throughout which a person is precluded from regular employment by responsibilities at home to be excluded from the total number of years in the person's working life when calculating retirement pension entitlement, provided that the number of years remaining is not less than 20. It is not available to a woman for a year during any part of which she has retained the right to reduced liability.

From 6 April 1983 men have been automatically credited with contributions for the tax year in which they reach 60 and for the next 4 years. These credits cover any gap
in their record where they were not liable for Class 1 or Class 2 contributions. The credits are not given for any tax year before the 1983/84 year or for any part of a tax year during which the person is abroad for more than 182 days.

Source: Statistics are based on a one per cent sample consisting of contributors whose National Insuance number ends in 14. Prior to 1980 , the statistics were based on a 2 per cent sample of contributors whose National Insurance number ended in 14 or 84 .

Class 1

Notes: 1. Includes those persons with an Appropriate Personal Pension. (Such persons pay contributions at the not contracted-out rate but then receive a rebate).
2. Class 3 only contributors. Persons who paid a mixture of Class 3 and other contribution types are analysed according to the other contribution type(s).

H1.02 Self-employed earners and voluntary contributors

| Date from | Weekly flat rate Class 2 contributions |  |  |  | Small earnings exception limit | Class 4 contribution |  | Flat rate voluntary contribution (Class 3) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| 12 April 1992 | 5.35 | 5.35 | 7.00 | 3.56 | 3,030 | $6 \cdot 3$ | 6,120 and 21,060 | 5.25 |

Note: 1. If earnings from self-employment were expected to be below this limit, a self-employed person could, on application, be excepted from liability to pay Class 2 contributions.

H1.03 Employed earners - Class 1 contributions for 1977 and 1982

Notes: 1. For employees who are under State pension age but excluding those married women or widows who are liable for contributions at the reduced rate.
2. For employees who are married women or widows and liable for contributions at the reduced rate.
3. Prior to 6 April 1978 for employees who had reached pension age and had retired, or were treated as having retired for National Insurance purposes and from 6 April 1978 for all employees over pension age. From 6 April 1978, employers' secondary liability for all employees over pension age is at the not contracted out rate only. Applicable also to employees who had made other arrangements to pay Class 1 contribtions.
4. Includes 3.5 per cent National Insurance surcharge on employer's contribution.

| Over 405.00 | $10 \cdot 4$ | $10 \cdot 4$ | $6 \cdot 6$ |  | $10 \cdot 4$ |

Notes: 1. For employees who are under pension age ( 65 men/60 woman) but excluding those married women or widows who are liable for contributions at the reduced rate.
2. Certain married women or widows who are liable for contributions at the reduced rate.
3. Employers' rates are the same irrespective of whether the employee has full, reduced or nil liability.
4. No contribution liability if earnings below lower earnings limit (LEL).
5. Employees not liable for contributions above upper earnings limit (UEL); there is no UEL for employers' contributions.
6. Percentages apply to all earnings when employee's total earnings fall within ranges shown.
7. Employees pay 2 per cent on the first $£ 43.00$, then $9 \%$ or $7 \%$ on earnings above $£ 43.00$ up to the UEL.
8. There was no change for employers or married women/widows paying at the reduced rate.
9. Employees pay 2 per cent on earnings up to the lower earnings limit and then $9 \%$ or $7 \%$ on the balance up to the UEL.

## Low Income Statistics

This section provides information on those people in the lower parts of the income distribution. Tables H2.01 to H2.04 have been selected from Households below average income: A statistical analysis 1979-1988/89 (see Appendix 3)

Family Expenditure Survey (FES)
The FES is a continuous survey which samples about 11,000 UK private households. Those not living in private households (for example people living in institutional care, hostels and boarding houses) are excluded. Of those selected, each adult household member is asked to provide a detailed breakdown of their income and expenditure. The proportion of co-operating households is around $70 \%$.

Note: Estimates in brackets () are particularly sensitive to the choice of equivalence scales and are therefore more uncertain than the other estimates.

## Appeals and Referrals

In April 1984 a revised system of appeals procedure was introduced. From that date the office of the President of Social Security Appeal Tribunals and Medical Appeal Tribunals, which operate independently from DSS, assumed responsibility for the administration of social security appeals.

In the tables the definitions used are:-
Registrations: Appeals/referrals that are registered with a Social Security Appeal Tribunal for resolution and include appeals/referrals which were registered in the preceding year(s) and were still outstanding at the end of that year.

An Appeal: An appeal to a Social Security Appeal Tribunal against the decision of an Adjudication Officer.

A Referral: A claim or question referred by an Adjudication Officer to a Social Security Appeal Tribunal for their decision.

An Appeal lapsed on review: Review by an Adjudication Officer of his original decision resulting in a revised decision favourable to the appellant.

An Appeal not admitted: Appeal not accepted by the Social Security Appeal Tribunal as proper to them eg because outside their jurisdiction.

Outstanding: An appeal/referral that is registered with a Social Security Appeal Tribunal for resolution but is still unresolved at the end of the period.

Source: Statistics are based on a 100 per cent count.

## Appendix 2

## Sampling Error

Because most of the statistics in this publication are based on sample surveys they are subject to sampling error, which is measured by a statistics known as the standard error. For samples of 30 or more the standard error is approximately the square root of the number of cases in the sample. There is a $95 \%$ probability that the true value falls within two standard errors of the grossed up sample value; this range is known as the $95 \%$ confidence interval.

When there are fewer than 30 observations in the sample, the calculation of confidence limits is slightly more complicated.

In the following table, specimen estimates are shown together with the ranges which represent the $95 \%$ confidence limits for these estimates. Sampling fractions of $1 \%, 5 \%$ and $10 \%$ have been used.

The above method cannot be applied to estimating the sampling error associated with averages, such as average weekly rate of allowances. The standard errors of these figures depend on the variability of the values averaged as well as the sample size.

| Estimated <br> value | $95 \%$ confidence interval <br> $5 \%$ sample |  | $10 \%$ sample |
| :--- | :---: | :---: | :---: |
|  |  |  |  |
| 100 | 2 to 555 | 33 to 230 | 50 to 180 |
| 250 | 46 to 795 | 134 to 438 | 165 to 363 |
| 500 | 163 to 1,164 | 304 to 696 | 361 to 639 |
|  |  |  |  |
| 1,000 | 481 to 1,835 | 690 to 1,310 | 804 to 1,196 |
| 2,500 | 1,520 to 3,480 | 2,062 to 2,938 | 2,190 to 2,810 |
| 5,000 | 3,614 to 6,386 | 4,380 to 5,620 | 4,562 to 5,438 |
|  |  |  |  |
| 10,000 | 8,040 to 11,960 | 9,020 to 10,980 | 9,380 to 10,620 |
| 25,000 | 21,901 to 28,099 | 23,614 to 26,386 | 24,020 to 25,980 |
| 50,000 | 45,617 to 54,383 | 48,040 to 51,960 | 48,614 to 51,386 |
|  |  |  |  |
| 100,000 | 93,802 to 106,198 | 96,901 to 103,099 | 98,040 to 101,960 |

$\qquad$

## Appendix 3

## Useful Publications

The publications listed below contain statistical tables on social security benefits. They are obtainable for HMSO unless otherwise stated.

## General

Monthly Digest of Statistics updates the numbers of recipients for the principal social security benefits each month.

The Annual Abstract of Statistics includes tables on the National Insurance Fund, National Insurance contributors and contributions, rates of social security benefits and numbers in receipt of social security benefits.

Social Trends shows public expenditure on social security, numbers of recipients of benefits and redistribution of income through taxes and benefits.

Family Spending, a report on the annual Family Expenditure Survey, shows income from social security benefits by type of household and by region

## Country and Regional data

Regional Trends includes a table showing expenditure on the main cash benefits by region.
The Digest of Welsh Statistics, Scottish Abstract of Statistics and Northern Ireland Annual Abstract of Statistics are annual publications which include some details of social security benefits for the individual countries.

## Income Support

Income Support Statistics Annual Enquiry (3 volumes) gives detailed analyses of Income Support recipients based on a $1 \%$ sample. The most recent publication, for May 1991, is obtainable from DSS, ASD1C, Room B2705, Benton Park Road, Newcastle upon Tyne NE98 1YX.

## Social Fund

The Annual Report by the Secretary of State for Social Security on the Social Fund contains annexes detailing expenditure on each type of payment and reasons for refusals of grants and loans. The Annual Report of the Social Fund Commissioner dealing with the work of Social Fund Inspectors, has several statistical appendices.

## Sickness and Disability

On the State of the Public Health, the annual report of the Chief Medical Officer of the Department of Health, includes some statistics about Sickness Benefit and causes of incapacity; Attendance Allowance; Disablement Benefit and Prescribed diseases.

## War Pensions

War Pensioners' Annual Report has tables on the number of war pensions in payment and other information.

## National Insurance Contributions

Accounts of the National Insurance Fund, together with the report of the Comptroller and Auditor General is published for each financial year.

## Prices and earnings

The Abstract of Statistics for indices of Retail Prices, Average Earnings, Social Security Benefits and Contributions shows changes in rates of contributions and benefits since July 1948 compared with other benefits and with average earnings. The 1992 edition is obtainable from DSS, ASD1C, Room B2705, Benton Park Road, Newcastle upon Tyne NE98 1YX.

## Low Income Statistics

Households below Average Income: A statistical analysis 1979-1988/89 provides estimates of the pattern of disposable income in the United Kingdom by family type and economic status and over time, based on Family expenditure Survey data.

## Take-up of Benefits

Income related benefits: Estimates of Take-up 1989 shows the amount of benefit claimed and unclaimed, the number of recipients and eligible non-recipients for income related social security benefits. It is obtainable from DSS, ASD6C, Room 10-19, Adelphi, 1-11 John Adam Street, London WC2N 6HT.

## Adjudications

The Annual Report of the Chief Adjudication Officer on Adjudication Standards contains statistics on comment rates for each type of benefit, based on the examination of a sample of claims and appeals.

## STANDARD REGIONS OF ENGLAND, WALES, SCOTLAND.

Administrative Areas
County in England and Wales at 1-4-74
Region or Islands Area in Scotland at 16-5-75

[^0]:    Notes: 1. Figures represent the number of cases receiving benefit on the last working day of May, August, November and February

[^1]:    Notes: 1. "Eligible Rent" is the average payment per week that a claimant is required to make in order to occupy a dwelling as his/her home.

[^2]:    Notes: 1. Figures represent the number of cases receiving benefit on the last day of May, August, November and February.
    2. Claimants with partners are counted as one recipient

[^3]:    Notes: 1. Claimants with partners are counted as one recipient .

[^4]:    Notes: 1. Claimants with partners are counted as one recipient.

[^5]:    Notes: 1. Each case falls into the first appropriate group.

[^6]:    Notes: From 10 July 1989 the personal allowances for 16 and 17 year old single persons, and lone parents was increased to the 18-24 year old rate. The increase does not apply to 16-17 year old dependents or claimant couples. From 9 October 1989 a new Enhanced Pensioner Premium was introduced for people aged 75-79. The existing Higher Pensioner Premium was also increased from that date.
    From 7 October 1991 the personal allowance for single people under 25, lone parents aged under 18 and all the dependents allowances increased by 25 p. The Family Premium increased by 75 p at the same time.

    1. $£ 27.40$ from 10 July 1989
    2. $£ 31.40$ from 7 October 1991
    3. $£ 13.60$ from 7 October 1991
    4. $£ 20.00$ from 7 October 1991
    5. $£ 23.90$ from 7 October 1991
    6. $£ 8.70$ from 7 October 1991
    7. $£ 16.20$ from 9 October 1989
    8. $£ 23.00$ from 9 October 1989
    9. From October 1990.
    10. $£ 6,000$ until 29 May 1988.
    11. $£ 8.00$ where weekly income is $£ 65-£ 99.99, ~ £ 12.00$ where weekly income is $£ 100.00-£ 129.99, £ 18.00$ where income is $£ 130.00$ or more.
[^7]:    Note: 1. The difference between applications received and decisions is due partly to applications being withdrawn and partly to applications not decided at the time the count was made.

[^8]:    Note: 1. Including graduated pension, additional pension, increments, age addition, invalidity addition and attendance allowance but excluding increase for dependents
    2. Including persons resident overseas
    3. Including age-related

[^9]:    Notes: 1. Including persons resident overseas.
    2. Amounts of 5.00 and over not analysed before 1983.
    3. Amounts of 15.00 and over not analysed before 1990.

[^10]:    Notes: 1. Excluding non-contributory retirement pension but including recipients residing overseas.

[^11]:    Notes: 1. Excluding non-contributory retirement pension (formerly old person's pensions) but including recipients residing overseas

[^12]:    Notes: 1. Excluding non-contributory retirement pension (formerly old person's pension) but including recipients residing overseas.

[^13]:    Note: 1. Includes some cases where evidence of recovery was received too late for examination appointment to be cancelled.

[^14]:    Notes: 1. Starting on first Monday in June up to 1979/80; first Monday in April thereafter.

[^15]:    Note: 1. Beneficiaries entitled to Invalidity Addition but extinguished due to Additional Pension/Guaranteed minimum pension overlap.

[^16]:    Notes: 1. Starting on first Monday in June up to 1979/80; first Monday in April thereafter.
    2. According to International Classification of Diseases 1965 up to 1978/79; from 1979/80 according to International classification of Diseases 1975.

[^17]:    Note: 1. Disability Living Allowance replaced Mobility Allowance from April 1992

[^18]:    Note: 1. In addition there are some war pensioners living outside the British Isles and having their pension paid in the United Kingdom. In 1988 there were 1725 such cases.

[^19]:    Note: 1. For widows who have children, or who are aged 40 or over, or who are incapable of self support.
    2. Adjusted to take account of increased rate of child benefit.
    3. Adjusted to take account of increased rate of child benefit from April 1991.
    4. Adjusted to take account of increased rate of child benefit from April 1992, but not from October 1991.

[^20]:    Notes: 1. Excluding pneumoconiosis and byssinosis cases up to 1989/90.
    2. Covers the period 16 December 1987 to 5 April 1988.
    3. See Table F5.01 footnote(1) for cases diagnosed by Medical Appeal Tribunals.

[^21]:    Notes: 1. An increase corresponding to invalidity allowance is payable for dependents.
    2. Prior to 1 October 1986 Reduced Earnings Allowance was known as Special Hardship Allowance. Rates shown are maximum amounts payable.
    3. Introduced from 10 April 1989.

[^22]:    Notes: 1. All figures may be subject to revision as further late notifications are received. Figures in previous publications are also subject to revision.
    2. Includes revision for late notifications notified up to end of June 1992.
    3. Industrial Death Benefit is only payable for deaths up to 10 April 1988.

[^23]:    Note: 1. Includes overseas cases

[^24]:    Notes: 1. A family receives one parent benefit in respect of one child only. The above figures include such children and any other children in the family for whom child benefit is payable.

[^25]:    Note: 1. Includes 1.2 thousand widowed mother's allowance payable to widows residing overseas.

[^26]:    G3

[^27]:    Note: 1. Includes widows residing overseas.

[^28]:    Note: 1. A widows supplementary allowance may have been payable up to 3 January 1982 depending on the earnings of her late husband. From 3 January 1982 the allowance was abolished.
    2. Additions for 2 or more children are the same as for widow's allowance.
    3. Adjusted to take account of increased child benefit rate.

[^29]:    Note: 1. From 1991 the figures show those PAT decisions which have subsequently been actioned by the Directorate
