## Introduction

Social Security schemes provide financial support to individuals and families for certain needs and in cases of hardship. The National Insurance Fund provides insurance against loss of income in the event of unemployment, sickness and invalidity, widowhood or retirement and for the expenses of birth and death. These, together with Industrial Injury benefits, are generally known as contributory benefits. Non-contributory benefits include means-tested support to people or families with low income (Income Support and Family Credit) and also non means-tested support through Child Benefit and, for the long term sick or disabled, through Invalidity Pensions, Attendance Allowance and Mobility Allowances.

This is the twenty first issue of Social Security Statistics which is published annually by Her Majesty's Stationery Office on behalf of the Department of Social Security. It provides tables covering each of the social security benefits, National Insurance contributions and appeals. There are new sections on Disability Living Allowance and Disability Working Allowance, Pensioners Income and Personal Pensions. This issue does not contain information on prices and earnings, take-up of benefits or finance, details of which can be found in other publications listed in Appendix 3.

Tables showing trends are included for a run of years - generally 1978, 1983 and 1988 to 1992 and detailed analyses are provided for 1992 or the most recent year available.

The tables are grouped in sections according to benefit or subject. A brief description of the main features of the relevant benefit, as they currently apply, appears as a prologue to each section. These notes do not purport to cover all the conditions for entitlement to benefit or payment of contributions, nor do they give a history of the various changes which have occurred over the years. More information can be obtained from the explanatory leaflets listed in Appendix 1.

The tables are, in general, derived from data produced within the Department of Social Security for the purposes of administration. Where tables include statistics produced by other Departments this is shown in the prologue at the front of each section.

Unless otherwise stated, the tables in this publication relate to Great Britain (and where indicated, recipients living overseas). Analyses for the English regions and for Wales and Scotland are presented in some tables, based on the Standard Regions described in Appendix 4.

The following symbols and abbreviations are used in the tables:

```
.. Not available
    Not applicable
- Nil or negligible
£pw Pounds per week
AP Additional Pension
CCB Community Charge Benefit

Notes: Number of recipients relates to number of awards in the year. Claims for Housing Benefit are not yet available.

1. With the introduction of SSP from 6 April 1983 most people working for an employer could claim SSP from them for a maximum of 8 weeks instead of Sickness Benefit. From 6 April 1986 SSP is payable for up to a maximum of 28 weeks.
2. Information is based on a $100 \%$ clerical count and is subject to amendment.
3. Claims figures for Invalidity Benefit and NCIP claims are included with Sickness Benefit
4. NCIP and HNCIP were replaced by a broadly similar benefit Severe Disablement Allowance from 29 November 1984.
5. From 6 April 1992 DLA replaced Mobility Allowance and also Attendance Allowance for those disabled before age 65.
6. From December 1977 figures for Mobility Allowance include Special Mobility Allowance.
7. Special Hardship Allowance was renamed Reduced Earnings Allowance fromOctober 1986. Claims to Reduced Earnings Allowance are not counted separately but are included in Claims to Industrial Injuries Disablement Benefit as IIDB has to be awarded at 1 per cent or more in order that REA can be paid. A person claiming both IIDB and REA would be counted as only one claim.
8. From 22 December 1984 Invalid Care Allowance was extended to married women.
9. Provisional figures.
10. Number of recipients relates to Maternity Allowance only, number of claims also relates to Maternity Grant.
11. Death grant was abolished from April 1987 and replaced by payments in the Social Fund.
12. Community Charge Benefit was known as Community Charge Rebate for the first year of Community Charge in Scotland.

## Family Credit

Family Credit is a benefit payable to working people who are responsible for at least one child under the age of 16 (or under 19 if in full-time education up to A-level or equivalent standard). It is payable to two-parent and one-parent families, to the employed or self-employed.

The claimant or her partner (if she has one) must be in full-time work. This is defined as at least 16 hours a week on average. The work may be done in more than one job but the hours worked by a couple cannot be added together to achieve the minimum requirement of 16 hours.

The method of calculating the weekly rate of Family Credit is shown in table A1.07. Net earnings (that is, gross earnings, less tax, national insurance contributions and half of any contributions to an occupational or personal pension scheme) are taken into account in calculating the total family income. Most other forms of income are taken into account in full although some are totally disregarded, for example, Child Benefit, One-Parent Benefit, Attendance Allowance, Disability Living Allowance, Housing Benefit and Community Charge Benefit.

Family Credit is not payable to people with savings or capital above $£ 8,000$. Savings between $£ 3,000$ and $£ 8,000$ are taken into account by assuming a weekly income of $£ 1$ for each $£ 250$, of savings over the $£ 3,000$ level. The first $£ 3,000$ of savings is ignored. Awards of Family Credit are made for a fixed period of 26 weeks and normally the amount

Introduced 1 April 1988
Non-contributory, Means tested, Non-taxable
of the award will not change during this time even though family circumstances, number of children, earnings or savings, may change. The minimum amount of Family Credit payable is 50 p per week.

Entitlement to Family Credit carries with it automatic entitlement to certain other benefits:-

Free NHS prescriptions
Free NHS dental treatment Free NHS sight tests
NHS vouchers to help with the cost of glasses Refunds of travel costs to and from hospital for NHS treatment
Free NHS wigs and fabric supports Dried milk for babies under a year old at specially reduced prices at maternity and child health clinics.

Family Credit replaced Family Income Supplement (FIS) in April 1988.

The tables in this section have been extracted from the Family Credit statistical system. For further details please contact DSS, ASD4D, 10th floor, Adelphi, 1-11 John
Adam Street, London WC2N 6HT.

| 1992/93 | 41.00 | 10.40 | 17.25 | 21.45 | 29.90 | 0.7 | 62.25 66.60 |
| 1993/94 | $42 \cdot 50$ | 10.75 | 17.85 | 22.20 | 31.00 | 0.7 | 69.00 |

Notes: Family Credit is calculated using the following formula:
Family Credit $=($ Adult Credit + Child Credits) - (taper x (excess [if any] of Net Income over Applicable Amount)). The Adult Credit rate is the same for both Lone Parents and Couples.

## Income Support

Income Support can be paid to a person who:

- is in Great Britain
- is aged 18 or over
- is not working 16 hours or more a week
- has resources which are less than their
- applicable amount.

Income Support is non-contributory. The basis for entitlement is set out in regulations. If a claimant is under 60 and able to work, they will normally be required to be available for work as a condition of receiving Income Support. Lone parents do not have to be available for work.

In September 1988 there were changes in the rules governing Income Support for 16 and 17 year olds. These mean that the majority are not now able to get benefit, except in certain prescribed circumstances. Some groups retain entitlement to Income Support and do not have to be available for work (for further information see leaflet IS26).

The applicable amounts and resources of a couple in the same household, and any dependent children living with them, are counted together with the exception of any children's capital which is taken into account separately. Unmarried couples who are living together as husband and wife are treated in the same way as a married couple. Either partner may claim Income Support.

Benefit cannot normally be awarded to a person working 16 hours or more a week, nor can it be given to a person undergoing full-time education of a non-advanced nature. A young person still at school can be treated as a dependent in the calculation of the parent's Income Support. Benefit is not payable for a person affected by a trade dispute, although it can be paid for his dependents. Provision is made for payment to be made outside the normal rules in certain urgent cases. Receipt of Income Support automatically entitles the claimant and any dependents to certain other welfare benefits.

Rate of Benefit. Broadly, the amount of benefit payable is the amount needed to bring a claimant's resources up to the applicable amount.

Introduced 11 April 1988 Non-contributory, Means tested, Taxable

Applicable Amounts. These are specified by regulation and generally consist of personal allowances together with premiums for certain groups with special needs. These are shown in tables A2.36 and A2.37.

Housing Costs. Amounts will be included in the assessment of a person's applicable amount for certain housing costs, in particular;

- an amount for mortgage interest (but not capital repayments),
- ground rent, and
- other miscellaneous outgoings which are not met by Housing Benefit, such as certain service charges.

The housing costs applicable for the above items may be reduced to take account of contributions from non-dependents (but non-dependents are not always expected to make a contribution).

Housing costs are not applicable for water charges or rent or council tax. Housing Benefits and Council Tax Benefit are payable by local authorities in respect of rent and council tax; Income Support qualifies claimants for maximum Housing Benefit and Council Tax benefit, that is 100 per cent of eligible rent and council tax, but they have to pay their own water charges.

The applicable amount for a person in a local authority home is the amount prescribed for the basic rate of Retirement Pension and this includes an amount for personal requirements.

The applicable amount for a person in hospital for more than 6 weeks consists of a hospital personal allowance rate plus any continuing housing costs.

Resources. The resources of a claimant consist of their total income and capital, subject to any appropriate disregard as outlined below.
If a claimant does some work, the net weekly earnings are calculated and then a specified amount of earnings is disregarded. The remainder is counted as a resource. A similar rule applies to the earnings of a partner. The earnings of children are fully disregarded,
but if the child has left school some earnings may be taken into account.

The main National Insurance pensions and benefits and Child Benefit are taken into account in full as resources. War Disablement Pension and War Widow's Pension are subject to a partial disregard. Disability Living Allowance and Attendance Allowance payable to pensioners are normally disregarded in full.

Maintenance payments are counted in full as a resource. Other income is also counted subject in some cases to a disregard, eg certain payments received from charities. The annuity paid to a holder of the Victoria Cross is wholly disregarded.

If a person, including any partner, has capital assets (eg savings, investments or property other than their home) totalling more than $£ 8,000$, he will not be entitled to Income Support. However, some assets may be disregarded eg property occupied by an aged relative. Savings between $£ 3,000$ and $£ 8,000$ are treated as if each $£ 250$ or part of $£ 250$ brings in an income of $£ 1$ per week.

Duration of Benefit. Supplementary Benefit claimants transferred automatically to Income Support. Tables A2.29 to A2.31 (Duration of benefit) therefore include a period in receipt of Supplementary Benefit prior to 11 April 1988.

Liability to maintain. A husband is liable to maintain his wife and a wife is liable to maintain her husband. Parents are liable to maintain their children. From October 1989 liability for children has been extended to include young people up to their 19th birthday where the young person is still treated as a dependent child and Income Support is still in payment. From October 1990 legislation allows maintenance to be pursued in divorced or never married lone parent cases to cover not only benefit being paid for children but also benefit being paid to the person looking after those children, reflecting the cost of such care.

A person who has given a written undertaking to be responsible for the maintenance and accommodation of another
under immigration rules is liable to maintain that person if Income Support is paid. The Secretary of State may enforce these responsibilities by applying for a Court Order against the liable relative or sponsor.

From 5 April 1993 the Child Support Agency took over the assessment, collection, review and enforcement of maintenance for children in many cases. Parents with care of a child for whom maintenance is an issue, receiving Income Support, Family Credit or Disability Working Allowance, may be required to apply for child support maintenance. The Agency will also be available to non-benefit clients. Under the Child Support Act 1991, parents are liable for 'natural' or adopted children only.

Exceptional Expenses. Income Support is intended to meet regular weekly needs. The Social Fund can provide extra help with particular additional needs in certain circumstances.

The above notes give a very brief outline of Income Support. Full information is given in leaflet IS20 "A Guide to Income Support" (see Appendix 1).

## Source:

Statistics are derived from 3 main sources. Most statistics are from the Annual Statistical Enquiry (ASE), a one per cent sample of beneficiaries. Some statistics are also taken from Quarterly Statistical Enquiries which are also one per cent samples of beneficiaries, and from Management Information Statistics, which are based on a 100 per cent collection.

A2.01 - Quarterly Statistical Enquiry A2.02-A2.32 and A2.34 - Annual Statistical Enquiry
A2.33 - Regional Office liable relative sections A2.35-100 per cent

More detailed statistics are contained in the Income Support Annual Statistical Enquiry May 1992, (see Appendix 3).

[^2]2. Enhanced Pensioner Premium commenced in October 1989.

## Housing Benefit

Housing Benefit (HB) is administered by local authorities. People are eligible only if they are liable to pay rent (or are treated as if they were so liable) in respect of the dwelling they occupy as their home. Couples are treated as a single benefit unit. The amount of benefit depends on eligible rent, income, deductions in respect of any non-dependants and the applicable amount.
'Eligible rent' is the amount of a tenant's rental liability which can be met by Housing Benefit. Payments made by owner occupiers do not count but payments such as mooring charges for houseboats, site fees for mobile homes, rental purchase payments, mesne profits and payments for compulsory housing - related services all count for Housing Benefit. Deductions are made for service charges in the rent which relate to personal needs, such as the supply of food or meals.

Income for Housing Benefit is assessed after deductions for Tax and National Insurance. Some forms of income, such as Attendance Allowance and Disability Living Allowance, are disregarded in full. Others such as War Disablement or War Widow's Pension are disregarded in part. Earnings are also disregarded in part; the disregard varies according to the claimant's circumstances. From April 1992 the first $£ 15$ of any maintenance received by people entitled to the family premium is disregarded.

A notional tariff income is assumed of $£ 1$ per week for every $£ 250$ of capital between $£ 3,000$ and an upper limit, currently $£ 16,000$. Capital above the upper limit removes entitlement to benefit.

Introduced 1 April 1983
Non-contributory, Means tested, Non-taxable
The 'applicable amount' consists of a personal allowance depending on family circumstances, together with premiums for disability, pensioners, lone parents, disabled children, carers and families with children (see Table A3.23). For example the disability premium applies to people under 60 who receive Disability Living Allowance, Disability Working Allowance, Invalidity Pension or Severe Disablement Allowance, or who are registered blind, who have an invalid vehicle or who have submitted medical evidence of incapacity for work for 28 weeks or more.

The amount of Housing Benefit for a person not on Income Support, and whose income less disregards exceeds the applicable amount, is:
$100 \%$ of eligible rent, less any non-dependent deductions, less $65 \%$ of net income above the applicable amount.

For all other claimants the amount of Housing Benefit is:
$100 \%$ of eligible rent, less any non-dependent deductions.

The minimum payment is $£ 0-50$ per week.
Local authorities can increase the amount of Housing Benefit under a local scheme for War Widow and War Disablement Pension cases. Authorities may also grant additional amounts of benefit to individual claimants whose circumstances are considered to be exceptional. The extent to which they can exercise this discretion is limited to $0.1 \%$ of their total Housing Benefit expenditure.

## Source:

A $100 \%$ count of recipients is carried out in May, August, November and February from the Housing Benefit Management Information System. This system collects data on both Housing Benefit and Community Charge Benefit (or data on Council Tax Benefit from 1993/94).

Additionally a range of information about a sample of recipients is collected in May. The selection of this sample is as follows:
(a) For those receiving Housing Benefit and Income Support - a sample of $1 \%$ of those receiving Income Support;
(b) For those receiving Housing Benefit but not Income Support - approximately a $1 \%$ sample consisting of claimants with birthdays on four specified days of the year.

Quarterly caseload counts form the basis of tables A3.01 and A3.02. The remaining tables in this section are analyses of the annual sample survey for May 1992.

Where recipients are analysed by social security status, the following rules apply: 'Aged 60 and over' consists of benefit units where either claimant or partner is aged 60 or over.
'Aged under 60' consists of benefit units where both claimant and partner are under 60.
'Retirement pensioners' consist of benefit units where a State retirement pension is payable.
'In receipt of other NI benefits' consists of benefit units where State retirement pension is not in payment, but the claimant or partner is entitled to a disability premium.

Each case falls in the first applicable category.
Claimants with partners are counted as one recipient.

Notes: Age is given as age of claimant only. However, for the social security status breakdown claimants aged under 60 with a partner aged 60 or over are classified in the 'Aged 60 and over' group.
This table includes a small number of cases where a claimant is eligible for Housing Benefit but the amount payable is zero due to non- dependent deductions (for the numbers involved see tables A3.03 and A3.04).

| Status |  |  |  |  |  |  |  |  |  |  |  |

Notes From April 1990, boarders have no longer been classified as non- dependents.

1. Key to status type
2. Non-boarder in remunerative work
3. Non-boarder not in remunerative work
4. Non- boarder not in remunerative work who is in receipt of Income Support
5. Non- boarder in remunerative work who is in receipt of a YTS allowance
6. Other
7. Certain categories of non- dependents do not attract non- dependent deductions from the Housing Benefit calculation, eg. registered blind people, people receiving a YTS allowance.

[^8]Housing Benefit

## Community Charge Benefit

Community Charge Benefit (CCB) is administered by local authorities to provide help for people on low incomes to pay the community charge. CCB follows closely the previous Housing Benefit arrangements for rebating rates, and continues to mirror the rules which operate under the Housing Benefit scheme (see chapter on Housing Benefit). However, unlike Housing Benefit, there are no non-dependent deductions in the Community Charge Benefit scheme, and since 1 April 1991 no minimum benefit rule.

Community Charge Benefit can be awarded to any person who is liable for a full personal community charge or for collective community charge contributions. It is normally paid by means of a rebate to a person's community charge bill. Those receiving Income Support are entitled to maximum benefit of $80 \%$ of their community charge liability. People not receiving Income Support have their benefit assessed in a similar way to Housing Benefit, but the maximum CCB is reduced by $15 \%$ of any net income above the applicable amount.

Council Tax Benefit (CTB) was introduced from 1 April 1993 to provide help for people on low incomes to pay their council tax. Generally, CTB mirrors the rules which operate under the Housing Benefit scheme.

CTB can be awarded to any person who is liable to pay the council tax and is paid by means of a rebate to a person's council tax bill. Those people in receipt of Income Support automatically receive $100 \%$ CTB.

The maximum CTB is reduced by $20 \%$ of any net income above the applicable amount.

Rates for Community Charge Benefit can be found in table A3.23 (Housing Benefit
Section).

## Source:

A $100 \%$ count of recipients is carried out in May, August, November and February from the Housing Benefit Management Information System. This system collects

Introduced 1 April 1990
Non-contributory, Means tested, Non-taxable
data on both Housing Benefit and Community Charge Benefit (or data on Council Tax Benefit from 1993/94).

Additionally a range of information about a sample of recipients is collected in May. The selection of this sample is as follows:
(a) For those receiving Housing Benefit and Income Support - a sample of $1 \%$ of those receiving Income Support.
(b) For those receiving Housing Benefit but not Income Support - approximately a $1 \%$ sample consisting of claimants with birthdays on four specified days of the year

Quarterly caseload counts form the basis of table A4.01. The remaining tables in this section are analyses of the annual sample survey for May 1992.

Where recipients are analysed by social security status, the following rules apply:
'Aged 60 and over' consists of benefit units where either claimant or partner is aged 60 or over.
'Aged under $60^{\prime}$ consists of benefit units where both claimant and partner are under 60.
'Retirement pensioners' consist of benefit units where a State retirement pension is payable.
'In receipt of other NI benefits' consists of benefit units where State retirement pension is not in payment, but the claimant or partner is entitled to a disability premium.

Each case falls in the first applicable category.
Claimants with partners are counted as one recipient.

## Social Fund

The Social Fund consists of regulated and discretionary payments.

The regulation based part of the Social Fund provides help with the cost of maternity and funeral expenses, and of higher heating costs due to a period of exceptionally cold weather, for people who have been awarded certain social security benefits. All decisions relating to Maternity, Funeral and Cold Weather Payments are governed by regulations. Payments are entitlements and are awarded to those who satisfy the relevant criteria.

The discretionary part of the Social Fund provides help in the form of interest-free loans and non-repayable grants for any item or service not excluded by directions issued by the Secretary of State. Discretionary payments can be made as Community Care Grants, Budgeting Loans or Crisis Loans. The discretionary part of Social Fund is subject to a fixed annual budget. The budgetary year runs from 1 April to 31 March. Districts must manage their budgets so that, so far as is possible, similar levels of need can be met throughout the year. The budget must not be exceeded.

All decisions on loans and grants are taken by Social Fund Officers (SFOs). To assist SFOs in their decision making, each district manager sets out a list of local priorities for Social Fund awards. Priorities broadly fall into three categories of high, medium or low priority. In exercising judgement on individual cases each SFO is required to use their discretion, subject to the Secretary of State's directions and guidance, to reach decisions by taking account of the individual circumstances and needs of each case set against national and district priorities, and the broad policy objectives of the scheme.

Maternity Payments (from April 1987) can be made if the claimant or partner are in receipt of Income Support, Family Credit or Disability Working Allowance. A payment up to $£ 100$ can be made to help with expenses associated with the arrival of a new baby. Payments are subject to a capital rule of $£ 500$ ( $£ 1,000$ for people aged 60 or over). Any savings above this amount are taken into account on a pound for pound basis.

Introduced 6 April 1987 Non-contributory, Means tested, Non-taxable

A5
Maternity Payments are not repayable.
Funeral Payments (from April 1987) may be paid where the claimant or partner is responsible for the funeral costs and is in receipt of Income Support, Family Credit, Housing Benefit, Council Tax Benefit or Disability Working Allowance. The payment covers the cost of a simple funeral in the United Kingdom and an application can be made up to three months after the date of the funeral. Any capital possessed by the claimant or partner in excess of $£ 500$ ( $£ 1,000$ for those aged 60 or over) is taken into account. Once payment has been made, repayment is required out of any estate left by the deceased person. Personal possessions and the value of a home occupied by a surviving partner are disregarded.

Cold Weather Payments ( from November 1991) of $£ 6$ are made for any period of 7 consecutive days when the temperature averages $0^{\circ} \mathrm{C}$ or below. To be eligible for a payment, a person must be in receipt of Income Support and receiving a pensioner or disability premium or have a child under 5 years. All eligible people are paid automatically; there is no longer any need to claim. Periods of cold weather are forecast by the Meteorological Office as well as recorded, and local publicity reassures people that a payment will be made. The abolition of the capital rule enabled 400,000 more people to become eligible for a payment and the weather station linkages have been improved as part of a change to postcode areas.

Community Care Grants (from April 1988) are mainly intended to help certain vulnerable groups in receipt of Income Support to re-establish themselves in the community following a period of institutional or residential care; to help them lead an independent life in the community rather than go into institutional care; to help ease exceptional pressure on families; to assist with certain urgent travelling costs and to help people caring for prisoners who are on home leave. They do not have to be repaid.

Budgeting Loans (from April 1988) are interest-free loans available to people who have been in receipt of Income Support for at least 26 weeks, to help them cope with large or intermittent expenditure associated with the purchase of major items or services.

Crisis Loans (from April 1988) are also interest-free loans which are primarily intended as a means of relieving a serious risk to health or safety of applicants and their dependents.

These notes provide a brief outline of the Social Fund. More detailed information is given in leaflet SFL 2 "How the Social Fund can help you"- see Appendix 1.

## Source:

Statistics are obtained from the Secretary of State's Annual Report on the Social Fund 1992/93(Cm 2274)- see Appendix 3.

The following notes apply to tables A5.01-A5.05:

1. Differences between applications and decisions are due to applications being carried forward from one year to the next.
2. Differences between decisions and the sum of awards and refusals are due partly to cases where no response is received from the applicant, and partly to cases where an award is declined.
3. 1992/93 data include awards made on review or appeal. Such awards were excluded from the 1990/91 and 1991/92 data.

## Retirement Pension

The categories of contributory retirement pension are:

Category A - dependent on a person's own contributions
Category B - dependent on contributions
paid by a spouse
The two main conditions for payment are:
the person has reached State pension age ( 65 for men, 60 for women), and the contribution conditions are satisfied.

For people who do not meet the contribution conditions, there are two categories of non-contributory retirement pensions.

A flat-rate basic pension at the standard rate is paid to people who satisfy the contribution conditions in full. The basic pension is reduced if the conditions are only partly met. The contribution record can be safeguarded for periods after April 1978 when the person was not working because of responsibilities at home, such as bringing up a family or looking after a sick relative or disabled person. There are also special provisions to help widows and widowers qualify for a retirement pension.

Increases for dependent children can be paid with Category A or B pensions. Increases for a dependent spouse or person having care of children can also be paid with Category A pension.

A married woman can receive a Category A pension on her own insurance, if qualified. Otherwise she can claim a Category B pension on her husband's insurance when he qualifies for his own pension and she has reached State pension age. She can also claim a Category B pension if her own pension would be less than the standard rate payable to a married woman on her husband's insurance.

From 1979, 'wives on husband's insurance ' includes wives whose basic pension would be paid at a reduced rate because of deficiencies in their contribution record, but where it is topped up to the full rate on their husband's insurance.

Introduced 1 January 1909 Contributory, Not means tested, Taxable

Additional Pension is the earnings-related element of the state retirement pension, known as SERPS. The amount depends on the earnings on which the pensioner has paid National Insurance contributions as an employee since April 1978. The earnings are which State pension age is reached, by the increase in average earnings.

Contracted Out Deduction: The Additional Pension is reduced when someone has been a member of a contracted-out scheme or personal pension scheme used in place of SERPS. Contracted out salary-related schemes provide a Guaranteed Minimum Pension (GMP) worth about the same as the Additional Pension payable under the state scheme. The Additional Pension is reduced by the GMP. With contracted-out money purchase schemes and personal pensions there is no guaranteed minimum but the Additional Pension is reduced in a similar way.

Notional Additional Pension is the entitlement to Additional Pension before reduction for Contracted Out Deduction.

Net Additional Pension is the entitlement to Additional Pension after reduction for Contracted Out Deduction.

Increments are earned where the retirement pension is not taken until after State pension age, or where the claim is cancelled. The increments are payable with pension on the person's own insurance, either from the eventual date of claim or five years after State pension age. The amount of increment is about $7.5 \%$ per year of deferred retirement on the basic rate, including invalidity allowance, with a minimum of 42 days deferment. A married woman can earn increments whether her pension is based on her own or her husband's insurance or both, but increments on her husband's insurance can only be earned if the couple are both over State pension age. A widow can have any increments earned by her husband added to her own.

Graduated retirement benefit is paid to contributors to the graduated pension scheme which ended on 5 April 1975, whether or not they are entitled to a retirement pension. For each "unit of graduated contributions" paid ( $£ 7-50$ for a man, $£ 9$ for a woman), the entitlement is 7.35 pence per week. This amount is increased annually in line with prices. A person who defers claiming can earn increments in the same way as for other parts of the pension. A widow can receive half of any graduated retirement benefit for which her husband had qualified.

Invalidity addition is paid to a person who was entitled to invalidity allowance as an increase of invalidity pension at any time during the 57 days before reaching State pension age. The amount is the rate of invalidity allowance to which there was title at State pension age. From 16 September 1985 the rate of invalidity allowance has been reduced by the notional rate of additional pension.

## Non-contributory retirement pensions are as follows:

Category C pensions apply to people who were over State pension age on 5 July 1948, and hence were excluded from the National Insurance scheme. A pension is also provided to a wife or widow of a man who was over 65 on 5 July 1948.

Category D pensions are awarded to people reaching the age of 80 who satisfy certain residence conditions and who either failed to qualify for a Category A or B pension, or who would have received less than the non-contributory rate.

An Age Addition of 25 p per week is paid to all pensioners over 80 years old.

A Christmas Bonus, currently $£ 10$, is paid in December to retirement pensioners, widows and people receiving certain other benefits.

## Frozen and non- frozen rate countries.

Retirement pension is payable to people living abroad, but upratings of pension are not paid to people resident in countries with which the UK has no reciprocal agreement. These are shown in Table B1.03 as 'frozen rate countries'. In 'non-frozen rate countries', which include the members of the European Community, upratings are payable.

## Source:

Since 1979, statistics have been based on a $10 \%$ sample from the computer file. For 1977, the sample was a combination of:
$10 \%$ of retirement pensioners whose payment order books were issued by computer (about $3 / 4$ of the total); 1 in 160 of retirement pensioners in receipt of supplementary pension and retirement pension, whose combined order books were issued by local offices;

Note: Excluding non-contributory retirement pension but including recipients residing overseas.

## B1.22 Graduated retirement benefit in payment at 30 September 1992: by category, age and proportion of all retirement pensioners, with average amount

| Women |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Unit | Men and women | Men | $\begin{array}{r} \text { All } \\ \text { women } \end{array}$ | Women on own insurance | Wives on husband's insurance |  |

Notes: Excluding non- contributory retirement pension (formerly old person's pensions) but including recipients residing overseas and graduated retirement benefit only cases.
Average amount of graduated retirement benefit relates only to those pensioners with entitlement to graduated retirement benefit and not to all pensioners.

If you are over pension age you can claim a supplementary pension if your weekly income after you have paid your rent is less than: * £10-40 for a single househoider * £16.35 fora husband and wife

| 12 April 1993 | 33.70 | 33.95 | 20.40 | 20.15 |

Notes: Formerly known as old person's pension.
An addition of $25 p$ is made to the standard rate when the beneficiary is aged 80 or over.

## Pensioners' Income

The Pensioner Income series is derived from the Family Expenditure Survey and shows trends and sources of pensioners' total incomes in various years since 1979.
"1990 and 1991" denotes estimates from the combined sample for the two years. One quarter of the 1991 Family Expenditure Survey sample has been omitted because of problems in the collection of information on Community Charge Benefit receipt following the delayed issue of bills in April 1991. As a result the sample size in that year is too small to provide reliable estimates of pensioners' incomes. For this reason the remaining data for 1991 has been combined with that for 1990.

## Pensioner units are

single women aged 60 or above, single men aged 65 or above, and couples in which the husband is aged 65 or above.

Recently retired pensioner units are single women aged 60 to 64 , single men aged 65 to 69 , and couples in which the husband is aged 65 to 69 .

All amounts are in terms of January 1991 prices.

Estimates of the percentage of pensioner units in receipt of occupational pension income are based on data from the Family Expenditure Survey and the Government Actuary's Department Survey of Occupational Pension Schemes. It is not possible to derive the overall average occupational pension in receipt from the estimates in Table B2.06.

Figures in Tables B2.03 and B2.04 relate to individual pensioners and assume that all members of a household share the same standard of living.

The average incomes in Table B2.03 for each quintile of the income distribution are medians.

## Unemployment Benefit

To establish entitlement to Unemployment Benefit(UB), a claimant must be unemployed, available for and actively seeking employment as an employed person and free from certain grounds for disallowance or disqualification. For example, Benefit is not payable for a day for which the claimant receives a payment in lieu of notice. He may be disqualified for up to 26 weeks if he left his former employment voluntarily without just cause, or if he lost it through misconduct, or if he refuses employment without good cause.

A claimant must also satisfy the contribution conditions for UB which depend on Class 1 contributions paid as an employed earner. Claims are dealt with by the Department of Employment as agents for the Department of Social Security.

If the contribution conditions are satisfied in full, UB is normally payable at the standard rate shown in table C1.10 and an increase of benefit can be paid for an adult dependent. The payment of reduced rates, where the contribution condition was partially satisfied, was abolished on 5 October 1986. For people over 55 , the rate is reduced by the amount of any occupational pension over $£ 35$ a week ( before January 1989 the age limit was 60).

UB is not payable for any day on which $£ 2$ or more is earned, nor in any benefit week in which $£ 56$ (the Lower Earnings Limit) or more is earned.

UB is payable after 3 waiting days for up to 312 days (excluding Sundays) in any period of interruption of employment. After benefit has been paid for 312 days, it cannot be drawn again until the claimant has requalified.
Increases of benefit for dependent children in fresh claims for UB ceased in November 1984 (except for claimants over pension age).

## Source:

Statistics are based on 100 per cent counts taken on certain dates, and on detailed returns for 5 per cent samples of current claimants for benefit or credits. The samples cover claimants whose National Insurance number ends in the digits $14,24,44,64,84$. Prior to November 1978, both counts were of the registered unemployed and included persons not claiming benefit or credits.

Details of the samples for each table are as follows:

C1.01, C1.02, C1.04, C1.05, C1.08-100 per cent count.
C1.03, C1.06, C1.07-5 per cent sample.
The Standard Statistical Regions used in tables C1.02, C1.04 and C1.08 are defined in Appendix 4.

| 9 April 1992 | $43 \cdot 10$ |  |  | 26.60 |  |  |  |
| 15 April 1993 | 44.65 |  |  | 27.55 |  |  |  |

Notes Further information on qualifying conditions and determination of the amount of benefit payable are contained in leaflet NI12 (unemployment benefit).

1. Child dependency addition abolished from 26 November 1984.
2. Payment of half and three-quarter rate benefit abolished from 5 October 1986.

## Sickness Benefit

The main conditions for entitlement to National Insurance flat-rate Sickness Benefit are that the claimant is incapable of work because of illness or disablement and that they satisfy the contribution conditions, which depend on contributions paid as an employed person (Class 1) or a self-employed person (Class 2).

Since 6 April 1983, most people working for an employer and paying National Insurance contributions as employed persons from their employer when they are off work sick receive Statutory Sick Pay SSP. SSP is payable for up to 28 weeks in any one period of incapacity for work. When the scheme was introduced in April 1983 employers were liable to pay SSP for a maximum of 8 weeks in any one tax year. This was increased to 28 weeks from 6 April 1986 and the tax year limitation was removed. People who do not work for an employer, and employees who are excluded from the SSP scheme, or those who have run out of SSP before reaching the maximum of 28 weeks and are still sick, can claim Sickness Benefit.

The standard rates of flat-rate Sickness Benefit are shown in tables D1.26 and D1.27. An increase of benefit can be paid for an adult dependent, and for each dependent child if the claimant is over State pension age ( 65 for a man, 60 for a woman).

From 5 October 1986 the half and three-quarter rates of benefit payable because

Introduced 5 July 1948
Contributory, Not means tested, Non-taxable
the contribution conditions were only partially satisfied were abolished. Those in receipt of a reduced rate at that time could continue to receive benefit until 3 October 1987 if they were still sick.

Where a person is incapable of work because of an industrial accident or prescribed disease the contribution conditions for standard rate Sickness Benefit are treated as satisfied.

From 14 September 1980, spells of incapacity of 3 days or less do not count as periods of interruption of employment. Exceptions are for people receiving regular weekly treatment by dialysis, or treatment by radiotherapy, chemotherapy or plasmapheresis where 2 days in any 6 consecutive days make up a period of interruption of employment, and those whose incapacity for work ends within 3 days of the end of SSP entitlement.

At the beginning of a period of interruption of employment flat-rate Sickness Benefit is subject to three waiting days. It is normally replaced by Invalidity Benefit after 28 weeks in any period of interruption of employment. Employees entitled to SSP for less than 28 weeks and who are still sick can get sickness benefit until they reach a total of 28 weeks SSP and Sickness Benefit, provided they satisfy the contribution conditions.

## Invalidity Benefit

Invalidity Pension replaces SSP or Sickness Benefit if incapacity continues after 28 weeks. Employees who have been entitled to SSP can have periods of entitlement treated as periods of Sickness Benefit in calculating the date from which Invalidity Benefit is payable provided that they would have been entitled to Sickness Benefit if SSP had not been paid. An increase of Invalidity Pension can be paid for an adult dependent and for each dependent child. The rates are shown in table D1.27.

Invalidity Allowance may be paid in addition to Invalidity Pension. The rate payable depends on the claimant's age when his incapacity began (table D1.27).

Claimants who have become entitled to Invalidity Benefit since 6 April 1979 may also be paid an additional Invalidity Pension based on earnings on which they paid national insurance contributions as employees from 6 April 1978. However, from 6 April 1992 new claimants will have their additional Invalidity Pension calculated on only their earnings in the tax years 1978/79 to 1990/91.

Introduced 23 September 1971
Contributory, Not means tested, Non-taxable
Since 6 April 1985 Invalidity Allowance has been reduced or extinguished by the amount of any additional Invalidity Pension and/or Guaranteed Minimum Pension to which the claimant is also entitled.

Since 16 September 1985 Invalidity Allowance has been reduced or extinguished by the amount of any additional Invalidity Pension and/or Guaranteed Minimum Pension to which the claimant is also entitled.

NOTE: During continuing incapacity Invalidity Benefit becomes payable, instead of Statutory Sick Pay (SSP) or Sickness Benefit, after a certain time if the conditions are satisfied.

As Sickness Benefits and Invalidity Benefit have much in common, many of the tables within this section deal with them together.

## Source:

Tables D1.02 to D1.04 are based on a 100\% clerical count of claims. Tables D1.05 to D1. are based on a $2 \%$ sample of claimants for $1977 / 78$ and a $1 \%$ sample thereafter which consists of claimants whose National Insurance number ends in the digit 14.

Notes: A "new claim" means a claim submitted at the beginning of a spell of incapacity for work. If a person has several separate spells of incapacity for work during the year, each spell is counted as a "new claim". The figures include a number of claims which did not result in the payment of benefit. The figures are based on a $100 \%$ clerical count and are therefore subject to amendment.
Non-contributory Invalidity Benefit new claims figures are included from 20 November 1975 until 31 March 1984. Housewives Non-contributory Invalidity Benefit new claims figures are included from 17 November 1977 until 31 March 1984.

1. From 6 April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks sickness absence in a tax year. From 6 April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work.

Notes: From 6 April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks sickness absence in a tax year.
From 6 April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work. Spells of incapacity of 3 days or less do not count as periods of interruption of employment for benefit purposes. Starting on first Monday in June up to 1979/80; first Monday in April thereafter. Causes of incapacity are based on the International Classification of Diseases, shown in Table D1.01. The shaded Causes of Incapacity are subgroups of the unshaded Causation group above and are therefore included in that figure.

1. From 1979/80 includes all tuberculosis.
2. From 1979/80 includes emphysema and asthma.
3. From 1979/80 also excludes the back.
4. From 1983/84 includes prescribed diseases.

| 65 and over |  | - | - | - | - | - | - | - | - | 4 |

Notes: Excludes spells of incapacity of less than 4 days for which there is no entitlement to benefit unless it occurs within 8 weeks of a previous period of incapacity of 4 days or more.

1. A benefit week is classed as being 6 days long (Sundays not counting for benefit). The benefit year therefore lasts 312 days in a 52 week year and 318 days in a 53 week year. The 1991/92 statistical period is a 53 week year.
2. Duration of benefit excludes any preceding SSP.

Notes: From 6 April 1983, Statutory Sick Pay was introduced for a maximum of 8 weeks sickness absence in a tax year. From 6 April 1986 statutory sick pay is payable for up to 28 weeks in any one period of incapacity for week. Spells of incapacity of 3 days or less do not count as periods of interruption of employment for benefit purposes. Starting on first Monday in June up to 1979/80; first Monday in April thereafter.
All causes of incapacity are based on the International Classification of Diseases, shown in Table D1.01.
The shaded areas are subgroups of the unshaded group above, and are therefore included in that figure.

1. From 1979/80 includes all tuberculosis.
2. From 1979/80 includes emphysema and asthma.
3. From 1979/80 also excludes the back.
4. From 1983/84 includes prescribed diseases.

D1.16 Days of certified incapacity due to sickness and invalidity in the period 1 April 1991 to 4 April 1992: by cause of incapacity and age

| Age at 31 March 1992 |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

Note: According to International Classification of Diseases 1975.
From 6 April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks sickness absence in a tax year.
From 6 April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work.
Excludes spells of incapacity of less than 4 days for which there is no entitlement to benefit unless it occurs within 8 weeks of a previous period of incapacity of 4 days or more.
All causes of incapacity are based on the International Classification of Diseases, shown in Table D1.01. The shaded Causes of Incapacity are subgroups of the unshaded Causation group above and are therefore included in that figure.

1. From 1979/80 includes all tuberculosis.
2. From 1979/80 includes emphysema and asthma.
3. From 1979/80 also excludes the back.
4. From 1983/84 includes prescribed diseases.

| 60 and over | 10 | 12 | 13 | 19 | 23 | 26 | 30 |

Notes: From 6 April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks sickness absence in a tax year. From 6 April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work. A "new claim" means a claim submitted at the beginning of a spell of incapacity for work. If a person has several separate spells of incapacity for work during the year, each spell is counted as a "new claim". The figures include a number of claims which did not result in the payment of benefit. The figures are based on a100\% clerical count and are therefore subject to amendment.
Spells of incapacity of 3 days or less do not count as periods of interruption of employment for benefit purposes.
The end of the statistical year is the Saturday prior to the first Monday in June up to 1979/80; the Saturday prior to the first Monday in April thereafter.
Age at 31 May up to 1979/80; 31 March thereafter.

Notes: Excludes spells of incapacity of less than 4 days for which there is no entitlement to benefit unless it occurs within 8 weeks of a previous period of incapacity of 4 days or more

1. A benefit week is classed as being 6 days long (Sundays not counting for benefit). The benefit year therefore lasts 312 days in a 52 week year and 318 days in a 53 week year. The 1991/92 statistical period is a 53 week year.
2. Duration of benefit excludes any preceding SSP.

D1.20 Invalidity Benefit Pensions current at 4 April 1992: by age and rate of Invalidity Allowance

| Age at 31 March 1992 | All pensions | Nil | Weekly Invalidity Allowance |  |  |  |

Notes: Starting on first Monday in June up to 1979/80; first Monday in April thereafter.
Causes of incapacity are based on the International Classification of Diseases, shown in Table D1.01.
The shaded Causes of Incapacity are subgroups of the unshaded Causation group above and are therefore included in that figure.

1. From 1979/80 includes all tuberculosis.
2. From 1979/80 includes emphysema and asthma.
3. From 1979/80 also excludes the back.
4. From 1983/84 includes prescribed diseases.

Notes: 1. Rates of personal benefit applied as follows from 10 April 1975:

| Man: | Higher rate |
| :--- | :--- |
| Single woman, divorced women and widow: | Higher rate |
| Married woman: | Higher rate |
| Entitled to an increase of benefit in respect of her husband |  |
| Not residing with her husband and he is contributing less than the difference between the higher and |  |
| middle rate of the benefit towards her maintenance. If she is under 18 she must also be entitled to an |  |
| increase of benefit for a child or adult dependent | Higher rate |
| Residing with her husband and he is entitled to invalidity or retirement pension or unemployability | Higher rate |
| supplement or allowance | Middle rate |

2. Earnings-related supplement may also be payable on the same basis as for unemployment benefit - see table C1.09.
3. $£ 3.50$ for the first child.
4. Child dependency addition abolished.
5. Three-quarter and half rate abolished with effect from October 1986, although transitional provisions applied until October 1987.

D1.27 Standard weekly rates of Invalidity Benefit

|  | Invalidity Benefit |  |  | Invalidity allowance |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Increase for dependent |  |  | Higher | Middle | Lower |

| 17 November 1977 | 17.50 | 10.50 | $6.90{ }^{(1)}$ | 3.70 | $2 \cdot 30$ | $1 \cdot 15$ |
| 3 April 1978 | 17.50 | 10.50 | $6 \cdot 10$ |  |  |  |
| 16 November 1978 | 19.50 | 11.70 | 6.35 | $4 \cdot 15$ | $2 \cdot 60$ | 1.30 |
| 2 April 1979 | 19.50 | 11.70 | $5 \cdot 35{ }^{(2)}$ |  |  |  |
| 15 November 1979 | 23.30 | 14.00 | $7 \cdot 10$ | 4.90 | $3 \cdot 10$ | 1.55 |
| 27 November 1980 | 26.00 | 15.60 | 7.50 | 5.45 | $3 \cdot 45$ | 1.75 |
| 26 November 1981 | 28.35 | 17.00 | 7.70 | 6.20 | 4.00 | 2.00 |
| 25 November 1982 | 31.45 | 18.85 | 7.95 | 6.90 | $4 \cdot 40$ | $2 \cdot 20$ |
| 24 November 1983 | 32.60 | 19.55 | 7.60 | 7.15 | 4.60 | $2 \cdot 30$ |
| 29 November 1984 | 34.25 | 20.55 | 7.65 | 7.50 | 4.80 | $2 \cdot 40$ |
| 28 November 1985 | 38.30 | 23.00 | 8.05 | 8.05 | $5 \cdot 10$ | 2.55 |
| 31 July 1986 | 38.70 | 23.25 | 8.05 | 8.15 | 5.20 | $2 \cdot 60$ |
| 9 April 1987 | 39.50 | 23.75 | 8.05 | 8.30 | $5 \cdot 30$ | 2.65 |
| 14 April 1988 | $41 \cdot 15$ | 24.75 | 8.40 | 8.65 | 5.50 | 2.75 |
| 13 April 1989 | 43.60 | 26.20 | 8.95 | 9.20 | 5.80 | 2.90 |
| 12 April 1990 | 46.90 | 28.20 | 9.65 | 10.00 | $6 \cdot 20$ | $3 \cdot 10$ |
| 11 April 1991 | 52.00 | 31.25 | $10.70{ }^{(2)}$ | 11.10 | 6.90 | 3.45 |
| 9 April 1992 | 54.15 | 32.55 | $10.85{ }^{(2)}$ | 11.55 | 7.20 | 3.60 |
| 15 April 1993 | $56 \cdot 10$ | 33.70 | 10.95 | 11.95 | 7.50 | 3.75 |

Notes: Invalidity Allowance is payable with Invalidity Pension and the rates depend on age when incapacity began:

| Age bands up to 5 April 1979 |  | Age bands from 6 April 1979 |  |
| :--- | :--- | :--- | :--- |
| Before age 35 | -Higher rate | Before age 40 | -Higher rate |
| Before age 45 | -Middle rate | Before age 50 | -Middle rate |
| Before age 60 for men or 55 for women | -Lower rate | Before age 60 for men or 55 for women | -Lower rate |

1. $£ 7.40$ for the first child.
2. The amount of benefit actually paid is adjusted to take account of Child Benefit.

## Severe Disablement Allowance

Severe Disablement Allowance is payable to people who are incapable of work and do not satisfy the contribution conditions for Invalidity Benefit. Claimants must be aged between 16 and state pension age and have been incapable of work for at least 28 weeks.

From 6 April 1992, the residence and presence conditions for Severe Disablement Allowance were substantially reduced. People who became incapable of work before their 20th birthday can qualify on this basis alone, but those who became incapable of work later in life must satisfy an additional condition of being $80 \%$ disabled for at least 28 weeks.

Introduced 29 November 1984
Non-Contributory, Not Means Tested, Non-Taxable
Severe Disablement Allowance is also increased by age additions. The amount of the addition depends on the claimant's age when incapacity began. Increases for dependents are payable in the same way as for Invalidity Benefit.

Severe Disablement Allowance replaced Non-Contributory Invalidity Pension and Housewives Non-Contributory Invalidity Pension from 29 November 1984

## Source:

Tables are based on a $2 \%$ sample of claimants for 1977/78 and a $1 \%$ sample thereafter consisting of claimants whose National Insurance number ends in the digit 14.

| 15 April 1993 | 33.70 | 11.95 | 7.50 | 3.75 | $20 \cdot 15$ | $10.95^{(3)}$ |

Notes: 1. Age related additions were introduced from 3 December 1990 and depend on the claimant's age when incapacity for work began.
2. $£ 7.40$ for the first child.
3. The amount of benefit actually paid is adjusted to take account of Child Benefit.
4. Non-contributory Invalidity Pension and Housewives Non-contributory Invalidity Pension were replaced by Severe Disablement Allowance from 29 November 1984.

## Attendance Allowance

Attendance Allowance is payable to a person who is severely disabled, physically or mentally, so that he requires from another person:
By day
(i) frequent attention throughout the day in connection with his bodily functions; or
(ii) continual supervision throughout the day in order to avoid substantial danger to himself or others.
At night
(iii) prolonged or repeated attention during the night in connection with his bodily functions; or
(iv) continual supervision throughout the night in order to avoid substantial danger to himself or others.

In the case of a child under the age of 16 , there is an additional condition that the attention and/or supervision which he requires must be substantially in excess of that normally required by a child of the same age and sex.

The higher rate of Attendance Allowance applies if one of the day requirements and one of the night requirements are met. The lower rate applies to a person who meets any one of the four medical conditions.

From April 1990 the lower age limit for Attendance Allowance was abolished making the allowance available for severely disabled children under 2 years of age.

From October 1990 availability was further extended to those suffering from a terminal illness likely to limit life expectancy to 6 months or less.

From 6 April 1992 Disability Living Allowance replaced Attendance Allowance for those people disabled before the age of 65 .

Notes: Estimated from a 100 per cent count of statistical records adjusted to reflect estimates of the extent to which they overstate the number of live cases. Estimates for the older age groups are particularly prone to error.

1. From April 1990 the lower age limit for Attendance Allowance was abolished. From that date Attendance Allowance was available for severely disabled children under 2 years of age.
2. Ages 2-4 before April 1990 and ages 0-4 from April 1990.

Note: 1. From April 1992 Disability Living Allowance replaced Attendance Allowance for people disabled before age 65.

# An Attendance Allowance of $£ 3-60$ a week 

If you look after a severely disabled person who needs a lot of help by day or at night, and who was born in any of the years from 1908 to 1956, ask for an Attendance Allowance leaflet at any Social Securityoffice.

## Mobility Allowance

This benefit was replaced and extended from 6 April 1992 by Disability Living Allowance

Mobility Allowance was paid up to 5 April 1992 to severely disabled people who were unable or virtually unable to walk due to physical disablement; likely to remain so for at least 12 months and are able from time to time to make use of enhanced facilities for locomotion.

It was available to people aged 5 to 80 but only for those who establish entitlement before age 65 . Once awarded the allowance could be retained until age 80 so long as the other conditions continued to be satisfied.

Introduced 1 January 1976
Non-contributory, Not means tested, Non-taxable
From April 1990, special provisions were introduced for people who were both deaf and blind.

In April 1991 the entitlement of those without legs - mainly double amputees - was clarified

| 11 April 1990 | $26 \cdot 25$ |
| 10 April 1991 | $29 \cdot 10$ |

Note: Disability Living Allowance replaced Mobility Allowance from April 1992.

## Disability Living Allowance

Disability Living Allowance replaced and extended Attendance Allowance and Mobility Allowance for people who became disabled before the age of 65 . People already in receipt of either Attendance Allowance or Mobility Allowance before April 1992 were invited to make a 'top up' claim for the other component.

Disability Living Allowance is payable to people who are disabled and who have personal care needs, mobility needs or both. DLA consists of two components:

The care component: for people who need help with personal care;

The mobility component: for people who need help with getting around (it is not available for children under five).

Introduced 1 April 1992
Non-contributory, Not means tested, Non-taxable
The care component is paid at one of three rates and the mobility component at one of two rates. These are shown in table E3.05.

To qualify for DLA the need for help must have existed for three months (the qualifying period) and be expected to last for at least a further six months (the prospective test). People who are not expected to live longer than six months because because of an illness do not have to satisfy either the qualifying period or the prospective test. Once awarded DLA will continued to be paid as long as long as the conditions of entitlement are met.

## Disability Working Allowance

Disability Working Allowance (DWA) was introduced in April 1992 for people with an illness or disability which limits their earning capacity. Claimants must be over 16 and working for at least 16 hours a week on average. They must be in receipt of Disability Living Allowance or have an invalid three-wheeler vehicle from the DSS, or have been receiving Invalidity Benefit, Severe Disablement Allowance or a disability premium with Income Support, Housing Benefit or Council Tax Benefit for at least one day in the eight weeks before making a claim for DWA. The claimant will need to satisfy a disability test.

The amount of DWA awarded depends on family size and net earnings, which is defined as gross earnings less tax, National Insurance contributions and half of any contributions to an occupational or personal pension scheme. Most other forms of income are taken into account in full although some are disregarded, eg. Child Benefit, Disability Living Allowance, Attendance Allowance, Mobility Allowance, Housing Benefit, Income Support, Council Tax Benefit and Family Credit.

Introduced 1 April 1992
Non- contributory, Means tested, Non- taxable
DWA is not payable to people with capital of 16,000 or more. Capital of up to 3,000 is ignored. Capital between 3,000 and 16,000 is taken into account by assuming an income of 1 per week for each 250 of capital above 3,000.

The method of calculating the rate of DWA is as follows:

DWA = Adult Credits + Child Credits - taper $x$ (excess [if any] of Net Income over Applicable Amount)

The values of credits and applicable amounts are shown in Table E4.05. The taper is 0.7 .

The rate of DWA is subject to a maximum depending on family type. As with Family Credit, DWA is paid at the same rate for 26 weeks even if income or other circumstances change during the period.

## Invalid Care Allowance

Invalid Care Allowance (ICA) is a non-contributory benefit for men and women under state pension age who are not gainfully employed (earning more than $£ 50.00$ per week after certain deductions) or in full-time education and who look after a severely disabled person for at least 35 hours a week. The severely disabled person must be receiving either the highest or middle rate of Disability Living Allowance care component or Attendance Allowance, or a Constant

Introduced 5 July 1976
Non-contributory, Not means tested, Taxable
Attendance Allowance at the maximum rate under the War Pensions or Industrial Injuries Scheme.

A person in receipt of ICA can claim an increase for dependents.

Note: 1. Adjusted to take account of child benefit.

## War Pension

Pensions, allowances or other payments are awarded for disablement or death, due to service in HM Forces. Pensions can also be paid for example for injury incurred in the course of war service in the Naval Auxiliary Service, or in the Mercantile Marine, or in the Civil Defence services. In addition, civilians are covered for war injuries.

Disablement Pension is paid to a disabled person and the rate (tables F1.06 and F1.07) varies according to the degree of disablement which is assessed on a percentage basis by the Department's doctors. Different rates according to rank were abolished in April 1993.

Treatment Allowance equivalent to disablement pension at the $100 \%$ rate may be paid in place of pension where a pensioner receives treatment for his war disablement and incurs a loss of earnings as a result.

## Unemployability Supplement is an

allowance for the pensioner whose disablement is so severe as to make him unemployable or virtually so. Additional allowances may be paid for a spouse and children.

Invalidity Allowance may be paid to a pensioner receiving unemployability supplement; the rate varies according to the age at which unemployability or sickness began.

Constant Attendance Allowance may be paid to a pensioner who, although he is not in hospital, needs regular personal attendance mainly because of his pensioned disablement. The amount awarded varies according to the extent of the attendance needed. It may also be paid to those who because of their pensioned disablement have a life expectancy of no more than 6 months, regardless of the need for attendance.

## Severe Disablement Occupational

Allowance may be paid to a pensioner who is entitled to constant attendance allowance at one of the higher rates and is severely disabled but nevertheless normally has a gainful occupation.

Introduced 1918
Non-contributory, Not means tested, Non-taxable

## Exceptionally Severe Disablement

Allowance may be paid to a pensioner who is receiving constant attendance allowance at a high rate, or would be receiving it if he were not in hospital or a home.

## Allowance For Lowered Standard of

 Occupation. A disabled war pensioner whose earning capacity is reduced because his war disablement permanently prevents him from following his regular occupation and other work of equivalent standard may receive this allowance. The allowance and the basic War Disablement Pension together must not exceed the $100 \%$ pension rate.Age Allowance may be paid to a pensioner (man or woman) who is aged 65 or over and has a disablement assessed at $40 \%$ or more.

Clothing Allowance may be paid if the disablement causes exceptional wear and tear on clothing.

Comforts Allowance may be payable to a severely disabled pensioner and is intended to help with the extra expenses associated with severe disablement.

War Pensioners' Mobility Supplement is intended to help with the mobility costs of a pensioner who is unable to walk or is virtually unable to walk because of his war disablement. It may also be paid to double amputees and to those who need help getting about because they are both deaf and blind.

## Temporary Allowance for Widows. A

 temporary allowance, irrespective of the cause of death, may be paid for the first 26 weeks of widowhood to the widow of a severely disabled war pensioner who when he died was eligible for either unemployability supplement or constant attendance allowance or both. The allowance is equal to the husband's pension and main allowances (except for any wife's additional allowance payable with unemployability supplement) and takes the place of any ordinary war widow's pension during the period for which it is paid.War Widows Pension. The standard rate of pension for a war widow whose husband's death was accepted as due to his service may be payable if she has a dependent child of the deceased, or is over age 40 , or is incapable of self-support. War widow's pension may also be paid to a widow whose husband was entitled to constant attendance allowance at the time of his death regardless of the cause of death. The rate varies according to the rank of the deceased. Allowances may also be payable for children.

Rent Allowance. A war widow with children may be eligible for a rent allowance.

Elderly Widow's Age Allowance . A war widow may receive an additional allowance at age 65 which is increased at age 70 and age 80.
Child's Pension may be payable to a child who has lost both parents

Funeral Grant. The Department can pay for the cost of a basic funeral for a war pensioner who died as a result of his pensioned disablement, or while having treatment in hospital for it, or while entitled to constant attendance allowance.

# Industrial Injuries Disablement Benefit 

Industrial Injuries Disablement Benefit (IIDB) may be payable to people who are disabled because of an industrial accident or prescribed industrial disease.

IIDB cannot be paid until 90 days have passed since the date of accident or date of onset of a prescribed disease.

The basic benefit depends on a medical assessment of the degree of disablement due to the injury or disease. This is expressed as a percentage. All degrees of disablement attracted benefit in respect of claims made prior to 1 October 1986. At that time, benefit for an assessment of less than $20 \%$ was normally paid in the form of a lump sum gratuity, the amount depending on the degree and the period of assessment. From 1 October 1986 benefit for an individual assessment of less than $14 \%$ is not normally payable except where the disablement is due to pneumoconiosis, byssinosis or diffuse mesothelioma. Assessments of disablement in respect of different claims may, however, be added together and benefit awarded on the aggregate total. A weekly disablement pension is now paid for assessments of $14 \%$ or more, the rate of pension varying according to the percentage disablement. Assessments of $14 \%$ to $19 \%$ are payable at the $20 \%$ rate. Assessments over $20 \%$ are rounded up or down to the nearest $10 \%$ ie $34 \%$ rounded to $30 \%, 35 \%$ rounded to $40 \%$.

The assessment of disablement takes no account of the claimant's occupation or any loss of earnings, but allowances can be added to the basic benefit (table F2.11). Where appropriate, other Social Security benefits may be payable in addition to disablement benefit.

Unemployability Supplement(US). This supplement is payable to a disablement pensioner who, as a result of his disablement, is incapable of work and likely to remain so permanently. Increases are payable for dependants and also an increase according to beneficiary's age as for Social Security invalidity benefit. The supplement and reduced earnings allowance cannot be paid together for the same period nor can this supplement be paid for the same period as an
unemployability supplement paid with a war pension. If there is concurrent title to sickness or invalidity benefit, severe disablement allowance or retirement pension, these benefits are subject to adjustment. From 8 April 1987 US was withdrawn from the scheme, except for pensioners receiving the allowance on that date.

Constant Attendance Allowance. This allowance is paid to a $100 \%$ disablement pensioner who needs constant care and attention because of the effects of the industrial injury. There are four rates, depending on the amount of care which is needed. If there is concurrent title to attendance allowance the rate of attendance allowance is adjusted.

## Exceptionally Severe Disablement

Allowance. The allowance is payable to an exceptionally severely disabled pensioner who is already entitled to constant attendance allowance at one of the two higher rates, and whose need for attendance at that level is likely to be permanent.

Reduced Earnings Allowance(REA). This benefit can be paid in certain circumstances to a claimant who, as a result of disablement due to the relevant injury or disease, which is assessed at one per cent or more is unable to follow his regular occupation or one of an equivalent standard. The amount payable is the difference between the standard of remuneration in the claimant's regular occupation and that in any suitable occupation which he is capable of following. It cannot exceed a specified maximum rate, nor can the allowance and the disablement benefit together exceed $140 \%$ of the maximum disablement pension rate. This benefit can be paid even if disablement benefit is not in payment because of the $14 \%$ rule, provided there is a current disablement assessment of at least $1 \%$. Reduced Earnings Allowance is not payable for industrial accidents or prescribed diseases occurring on or after 1 October 1990.

Retirement Allowance. This benefit replaces Reduced Earnings Allowance for those who are receiving REA at the rate of $£ 2$ a week or more who reach State pension age and who cease to be regularly employed. Retirement Allowance is paid at $25 \%$ of the rate of REA in payment. If REA is being paid at less than $£ 2$ it is withdrawn and not replaced by Retirement Allowance at State pension age.

## Source:

Statistics are based on a 10 per cent sample consisting of disablement beneficiaries whose National Insurance number ends in the digit 4.

F2.01 and F2.02-100 per cent count. F2.03- F2.10-10 per cent sample.

| 14 April 1993 | $91 \cdot 60$ | 82.44 | 73.28 | $64 \cdot 12$ | 54.96 | 45.80 | 36.64 | 27.48 | 18.32 | 9.16 |

Notes: Prior to 1 October 1986 for assessments at less than 20 per cent a lump sum gratuity was normally paid. In certain cases a pension was paid, ie assessments for pneumoconiosis and byssinosis, and also in cases where special hardship allowance was payable.
From 1 October 1986 assessments in the 14-20 per cent range are paid as a pension of 20 per cent. No payment is made for assessments of less than 14 per cent, except for pneumoconiosis, byssinosis and diffuse mesothelioma.

Notes: 1. An increase corresponding to invalidity allowance is payable for dependents.
2. Prior to 1 October 1986 Reduced Earnings Allowance was known as Special Hardship Allowance. Rates shown are maximum amounts payable.
3. Introduced from 10 April 1989.

## Industrial Death Benefit

For death occurring before 11 April 1988 Death Benefit took the form of a pension, allowance or gratuity. Subject to limitations on the type and the amount of benefit payable for any one death, parents, certain dependent relatives and a woman looking after a child or children of the deceased may have qualified for death benefit. The widow of a man who died from an industrial accident or disease receives a pension. For the first 26 weeks a higher rate is payable. Thereafter the permanent rate of pension depends upon the age and other

Introduced 5 July 1948
Non-contributory, Not means tested, Taxable
circumstances of the widow. Widowers may also have qualified for a weekly pension. Allowances are paid for each qualifying child of the deceased.

Death benefit is not payable in respect of industrial deaths which occur on or after 11 April 1988. The deceased's widow will receive National Insurance widow's benefit.

Notes: 1. Payable for the first 26 weeks of widowhood (13 weeks where the husband died before 6 July 1966). Replaced by widows payment where the husband died after 11 April 1988.
2. Adjusted to take account of child benefit.
3. Lower rate ceased to be payable from 28 November 1984.

## Other Industrial Injuries

## Workmens Compensation Supplementation Scheme

## Introduced 1 January 1924

This scheme provides for certain allowances to be awarded to a claimant who is currently entitled or has been entitled since the introduction of relevant legislation to weekly payments of compensation under the Workmen's Compensation Acts in respect of an injury or disease incurred before 5 July 1948.

Non-contributory, Not means tested, Non-taxable

## Pneumoconiosis, Byssinosis and Miscellaneous Diseases Benefit Scheme

Introduced 29 November 1984
This scheme provides benefits for disablement or death caused by one of the diseases specified, if it arose out of employment before 5 July 1948 and if nothing is payable under the Workmen's Compensation Acts or the Industrial Injuries provisions of the Social Security Act.

## Medical Boarding Centres (Respiratory Diseases)

Medical Boarding Centres (Respiratory Diseases) are staffed by doctors who are specialists in occupational respiratory diseases. If a person claims benefit for one of the respiratory diseases under the Industrial Injuries scheme he is normally sent for a chest x -ray and a clinical examination by a Special Medical Board (SpMB) which consists of two specially qualified doctors. If the SpMB decide that a claimant is suffering from one of the prescribed respiratory diseases they go on to assess the degree of disablement. The assessment is made by comparing the condition of the claimant as a result of the disease with the condition of a normal healthy person of the same age and sex.

If, however a claim is made for pneumoconiosis a claimant is first sent for a chest x-ray which is scrutinised by a doctor of the centre. If the x -ray together with other evidence suggests any possibility that the claimant is suffering from pneumoconiosis he is sent for a clinical examination by a SpMB . (A claimant who has been exposed to asbestos dust or slate dust is always examined by $\mathrm{SpMB})$. If claim for pneumoconiosis is disallowed without a clinical examination the claimant has the right of appeal to be examined by a SpMB.

If the SpMB decide that a claimant is suffering from pneumoconiosis they go on to assess the degree of his disablement. The assessment takes account of all the claimant's disabilities which result directly from pneumoconiosis. Also, if he suffers from some other condition (for example chronic bronchitis or emphysema), which does not arise from the pneumoconiosis but which makes it more disabling than it would otherwise be, the SpMB may make an increased assessment to take account of the extent to which the pneumoconiosis is made more disabling. In addition, there are special provisions for people suffering from tuberculosis and people whose disablement from pneumoconiosis is assessed at $50 \%$ or more who are also suffering from emphysema and chronic bronchitis.

If an assessment of disablement for one of the respiratory diseases is for a limited period, towards the end of the period the beneficiary is again examined by a SpMB. The assessment of disablement may be adjusted as a result of re-examination.

Notes: $\quad$ The figures relate to cases seen in connection with claims for disablement or injury benefit under the industrial injuries scheme (on or after 21 June 1965 for farmer's lung, and on or after 27 November 1974 for beryllium, cadmium and nitrous fumes poisoning and cancer in certain nickel workers). The figures exclude cases diagnosed by Medical Appeal Tribunals (MATs) which are no longer available.

1. Both pleural and peritoneal cases are included. Some cases may be included in the figures for pneumoconiosis: asbestos.
2. Prescribed 29 March 1982.
3. Prescribed 1 April 1985. Full description of disease: Primary carcinoma of the lung where there is accompanying evidence of one or both of the following: i. asbestos; ii. bilateral diffuse pleural thickening.
4. Prescribed 1 April 1985.
5. Prescribed 1 April 1987.

| 1992 | 3,447 | 5,891 | 742 | 1,525 | 27 | 101 | 3,496 |

Notes: Excludes cases under the Pneumoconiosis, Byssinosis and Miscellaneous Diseases Benefit Scheme 1966.
The figures relate to cases seen in connection with claims for disablement or injury benefit under the industrial injuries scheme (on or after 21 June 1965 for farmer's lung, and on or after 27 November 1974 for beryllium, cadmium and nitrous fumes poisoning and cancer in certain nickel workers). The figures exclude cases diagnosed by Medical Appeal Tribunals (MATs) which are no longer available.

## Child Benefit

Before April 1977 family allowance was payable to a family with two or more children. From 5 April 1977, Child Benefit replaced family allowances and this brought all children of a family into the scheme. Child Benefit is normally paid up to the age of 16 . Thereafter, benefit may be paid up to age 19 if the child is receiving full-time non-advanced education (ie up to A level standard) by attendance at a recognised educational establishment.

From 12 September 1988, Child Benefit can also continue to be paid for a short period
where a 16 or 17 year old person has just left school and is registered for work or Youth Training.

## Source:

Statistics are based on a 4 per cent sample consisting of beneficiaries whose child benefit number ends in the digits $17,37,67$, or 87 . Statistics include late notifications received up to 31 March of the following year.

All tables include children and families living overseas.

## One Parent Benefit

Child Interim Benefit was introduced one year in advance of the main Child Benefit scheme. From April 1976 to March 1977 it effectively extended family allowances to the first child of parents who were single, divorced or separated and not living with someone else as man and wife.

One Parent Benefit took effect from April 1977. It was formerly known as Child Benefit Increase. One Parent Benefit is an extra weekly payment to a person, whether parent or not, who has the sole responsibility arising from being single, widowed, divorced or permanently separated - for bringing up a child or children.

One Parent Benefit is paid in respect of the eldest dependent child. One Parent Benefit is not payable if the person is:
living with someone as husband or wife; or
living apart because of hospital inpatiency or for any other temporary reason; or

Introduced 6 April 1976
Non-contributory, Not means tested, Non-taxable
separated and the period of separation is less than 13 weeks, unless legally separated or divorced; or
bringing up a child not the person's own and the child's parent lives at the person's address; or
receiving Child's Special Allowance, Guardians Allowance or Industrial Death Benefit for a child at the higher rate in respect of the eldest dependent child; or
receiving an increase for the eldest dependent child with Widowed Mother's Allowance, War Widow's Pension, Retirement Pension, Industrial Disablement Pension which includes unemployability supplement, or Invalid Care Allowance.

## Source:

Statistics are based on a 4 per cent sample consisting of beneficiaries whose Child Benefit number ends in $17,37,67$ or 87 . Late notifications received up to and including 31 March of the following year are included.

## Widow's Benefit

A woman who is widowed is entitled to National Insurance widow's benefit if her late husband satisfied the contribution conditions. If these conditions are met in full, benefit is payable at the standard rate shown in Tables G3.14 and G3.16; otherwise the rate of benefit is reduced.

Since 11 April 1988, the benefits are:
Widow's Payment: a single tax-free payment of $£ 1,000$ paid to a widow under 60 at widowhood or to a widow over 60 whose husband was not then entitled to a Category A retirement pension.

Widowed Mother's Allowance (WMA): is payable
(a) as long as the widow has at least one qualifying child in respect of whom she is entitled to Child Benefit,
or (b) she is pregnant by her late husband,
or (c) in certain cases of artificial insemination.

Widow's Pension: payable to a widow who is 45 or over at widowhood or when her entitlement to WMA ceases. The standard rate applies if the widow was 55 or over at that date. For younger widows the pension is reduced in steps of $7 \%$ per year, so that a $93 \%$ rate is paid at age 54 , falling to $30 \%$ at age 45 (see Table G3.16). This reduction also applies to any additional pension.

Additional Pension is the earnings-related element of Widowed Mother's Allowance and Widow's Pension. The amount depends on the deceased husband's earnings since April 1978 on which he paid National Insurance contributions as an employee. The earnings are revalued up to the year before he died by the increase in average earnings. Where he was in contracted-out employment or had a personal pension used for contracting out, the
widow's additional pension is reduced by half the Guaranteed Minimum Pension (or its equivalent) to which the deceased was entitled. This is the Contracted out Deduction (see tables G3.09 and G3.10).

Notional Additional Pension is the entitlement to Additional Pension before reduction for Contracted Out Deduction. Net Additional Pension is the entitlement to Additional Pension after reduction for Contracted Out Deduction.

Before 11 April 1988:
A Widow's Allowance was paid in place of Widow's Payment, in the same circumstances. This was an especially high rate of benefit paid for the first 26 weeks of widowhood. An increase was paid for each dependent child.

Widowed Mother's Allowance(at personal rate only) was also payable if someone aged under 19 was living with the widow in respect of whom she would be entitled to an increase if the young person had been eligible for Child Benefit.

Widow's Pension applied to widows aged 40 or over at widowhood or when entitlement to WMA ceased, the standard rate being paid to widows aged 50 or over.

## Frozen and non-frozen rate countries.

Widow's Benefit is payable to people living abroad, but upratings of benefit are not paid to people resident in countries with which the UK has no reciprocal agreement. These are shown in Table G3.03 as 'frozen rate countries'. In 'non-frozen rate countries', which include the members of the European Community, upratings are payable.

## Guardians Allowance

## Childs Special Allowance

Guardian's Allowance. This is a National Insurance benefit paid in addition to child benefit for children whose parents are dead. One of the parents must have satisfied a residence condition. Exceptionally, payment can be made where only one parent is dead, for example where the other parent is missing and cannot be traced.

Child's Special Allowance. This allowance can be paid under National Insurance to a divorced woman whose former husband has died provided she has not remarried and is not living with a man as his wife, if she has a qualifying child and he was contributing, or

Introduced 5 July 1948
Non- contributory, Not means tested, Non- taxable
Introduced 18 November 1957
Contributory, Not means tested, Non- taxable
liable to contribute, towards the child's maintenance. The allowance is increased for other qualifying children. There are conditions which apply to the insurance of the former husband.

No new claims can be made for this allowance where a former husband dies on or after 6 April 1987.

## Maternity Benefits

Maternity Grant. For all confinements taking place before 4 July 1982 this was a National Insurance benefit paid as a lump sum (tables G5.02 and G5.03) and the contribution conditions could be satisfied on the insurance of the mother or on the insurance of her husband. For all confinements on or after 4 July 1982 to 5 April 1987 the grant was non-contributory, and was paid to all mothers who could satisfy a simple test of presence in Great Britain.

Maternity Allowance. This allowance (tables G5.02 and G5.03) is payable for 18 weeks, normally starting 11 weeks before the baby is due, to a mother who has worked and paid
full National Insurance contributions in the relevant test period. It is not paid for any period during which paid work is done. From 6 April 1987 most women who work for an employer and who pay National Insurance contributions as an employed person are entitled to Statutory Maternity pay for which their employers are liable to pay.

## Source:

Statistics are based on a 1 per cent sample of maternity benefit payments.
G5.01-2.5 per cent sample to June 1982, 2 per cent sample to June 1987 and 1 per cent thereafter.

| 6 April 1992 |  | 42.25 |  |  | 25.50 |  |  |  |
| 12 April 1993 |  | 43.75 |  |  | 26.40 |  |  |  |

Notes: Further information on qualifying conditions and determination of the amount of benefit payable are contained in leaflet NI 17A (Maternity Benefits).

1. From April 1987 payment of maternity grant is based on needs and any payment made is from the Social Fund.
2. After 20 December 1986 3/4 and $1 / 2$ rates of maternity allowance ceased to be payable.

## Contributions

There are five classes of contribution:
earnings-related Class 1 contributions paid by employed earners and their employers;

Class 1A contributions paid on the use of company cars;

Class 2 contributions paid by self-employed contributors; flat-rate

Class 3 contributions paid voluntarily by non-employed persons and others;

Class 4 contributions paid by certain self-employed people on profits or gains.

## Class 1 Earnings-related Contributions

 consist of two elements: primary Class 1 contributions paid by employed earners, and secondary contributions paid by their employers or, in the case of office holders, by whoever pays their remuneration.Employed earners are people gainfully employed in Great Britain either:
under a contract of service;
in an office, including elective office, with emoluments chargeable to income tax under Schedule E (eg company directors); or
who are treated as employed earners by virtue of regulations.

Liability for Class 1 contributions depends on whether earnings from the employment reach the current Lower Earnings Limit (LEL). Before April 1978, where earnings reached this level the contribution was a percentage of all earnings up to the Upper Earnings Limit (UEL). From April 1978, the contribution rate depended on whether or not the employed earner was contracted-out of the State earnings-related pension scheme (SERPS). For those who were not contracted-out the rate of contribution was the same on all earnings up to the Upper Earnings Limit. For contracted-out employed earners lower primary and secondary contributions were payable on earnings between the Lower and Upper Earnings Limit.

Since April 1978 there has been no liability for primary contributions after the employee reaches State pension age ( 65 for men, 60 for women) and secondary contributions are payable at the not contracted-out rate.

From 6 October 1985 a graduated scale of contributions was introduced. Lower rates applied to low paid employees and their employers. To finance these changes secondary contributions became payable at the not contracted-out rate on earnings above the Upper Earnings Limit.

From 5 October 1989 new contribution rates were introduced for employees. Once the Lower Earnings Limit is reached the employee pays 2 per cent on earnings up to the Lower Earnings Limit. For earnings between the Lower and Upper Earnings Limits the employee pays the standard not contracted-out or contracted-out rate as appropriate.

Class 1A Contributions were introduced in April 1991. They are payable by employers where an employee has the use of a company car. The rate is 10.4 per cent of the benefit to the employee of the car and any fuel.

Flat-rate Class 2 Contributions are payable in respect of self-employment by earners who are ordinarily self-employed. Exception from liability can be granted if the earnings from self-employment after certain deductions are expected to be less than an annual limit.

Class 3 Contributions are voluntary and can only be paid to help a person qualify for certain benefits if in any tax year his Class 1 or Class 2 contributions are insufficient for that purpose. They can be paid by earners or by non-employed persons. The contributions are flat-rate and the rate of contribution is the same for everyone.

Class 4 Contributions are payable by self-employed earners on profits or gains chargeable to income tax under Cases I and II of Schedule D. The contribution is a percentage of annual profits or gains between a lower and upper limit.
A person who derives his earnings partly from employment and partly from self-employment is liable for both Class 1 and

Class 2 (and possibly Class 4) contributions. However, where the total contributions exceed a specified amount the excess will be refunded.

## Class 1, Class 2, Class 3 and Class 4

Contributions include amounts collected on behalf of the National Health Service and Class 1 contributions originally included an element towards the Redundancy Payments Scheme. From 6 April 1988 contribution to the Redundancy Fund was suspended and in February 1991 the Redundancy Fund merged with the National Insurance Fund. There is no longer any need to include a separate element for the Redundancy Payments Scheme.

From 6 April 1977 to 1 October 1984, secondary Class 1 contributions also included a percentage for the National Insurance Surcharge which formed part of the government's general tax revenue.

Reduced rate. Until 5 April 1977, married women and certain widows could choose to pay a reduced liability. Women could continue to pay the reduced rate if they had an existing right on 5 April 1977, or chose reduced rate liability before 12 May 1977. This right is lost if the woman's marriage ends by divorce or annulment or if she has no earnings on which Class 1 contributions are payable in any two consecutive tax years after 5 April 1978 and she is not self-employed.

Women with reduced liability pay Class 1 contributions at the rate of 3.85 per cent of earnings up to the Upper Earnings Limit if they are employed and they are not permitted to pay Class 3 contributions. They pay no Class 2 contributions if they are self-employed, but remain liable for Class 4 contributions. Contributions at the reduced rate do not give title to benefit but employment as an employed earner does give cover for Industrial Injury benefit, and Statutory Sick Pay and Statutory Maternity Pay may be available.

Credits. There are provisions for crediting contributions for weeks of proved incapacity for work or unemployment or where Invalid Care Allowance is payable, and in certain other circumstances where this is necessary to help maintain entitlement to benefits. Such credits are not available to married women who have reduced liability.

Up to 6 April 1978 there were also provisions for crediting Class 3 contributions to widows for a limited period on widowhood and where certain widows' benefits were payable.

## From 6 April 1978 Home Responsibilities

 Protection (HRP) was introduced for people precluded from regular employment by responsibilities at home. Each complete tax year so affected is excluded from the total number of years in the person's working life when calculating entitlement to Retirement Pension. The number of years remaining cannot be reduced to less than 20. HRP is not available to a woman who has retained the right to reduced liability during any part of the year.From 6 April 1983 men have been automatically credited with contributions for the tax year in which they reach 60 and for the following four years. These credits cover any gap in their record where they were not liable for Class 1 or Class 2 contributions. The credits are not given for any tax year before $1983 / 84$ or for any part of a tax year during which the person is abroad for more than 182 days.

## Source:

Statistics are based on a one per cent sample consisting of contributors whose National Insurance number ends in 14. Before 1980 the statistics were based on a 2 per cent sample of contributors whose National Insurance number ended in 14 or 84 .

## Contributions

Number of contributors paying only class two contributions as a percentage of all contributions in each year ending April

## 

## New Combined Contributions

for National Insurance and National Health Service

These amounts include the N.H.S. contribution of between $\mathrm{I} /-$ and $\mathrm{I} / 8 \mathrm{~d}$. (hitherto between 6d. and rod.) per week.

Part of the increased contribution for employed persons is paid by the employer.
One stamp covers both N.H.S. and N.I. weekly contributions,
which are paid together.

## Personal Pensions

Occupational Pensions. Employers' pension schemes are generally contracted out from the State earnings-related pension scheme (SERPS). These schemes provide an Occupational Pension in place of the Additional Pension element of the state scheme. Both employers and employees pay lower National Insurance contributions than the rate for not contracted-out schemes.

Appropriate personal pensions (APPs). An employee can take out an APP which, if it meets certain conditions, can be used in place of the Additional Pension. An APP scheme provides a pension based on the amount of money paid in and the investment return. National Insurance contributions are paid by the employer and employee at the not contracted-out rate. The DSS pays an amount equivalent to the contracted-out rebate, plus any incentive and basic rate tax relief, to the APP provider.

Appropriate Personal Pensions were introduced in July 1988 but until 5 April 1989 it was possible to backdate the commencement of a scheme to the 1987/88 tax year.

Earnings are the amount of salary on which Class 1 National Insurance contributions are paid. Contributions are paid by employees on amounts up to the Upper Earnings Limit (see Table H1.04).

## Source:

Statistics are based on a one per cent sample consisting of contributors whose National Insurance numbers end in 14.

This table shows earnings on which Class 1 National Insurance contributions are paid.

1. 15,000 and over
2. 16,000 and over
3. 18,000 and over.

## Low Income Statistics

This section provides information on those people in the lower parts of the income distribution. Tables H3.01 to H3.04 have been selected from Households Below Average Income: A statistical analysis 1979-1990/91 (see Appendix 3).

## Family Expenditure Survey (FES)

The FES is a continuous survey which samples about 11,000 UK private households. Those not living in private households (for example people living in institutional care, hostels and boarding houses) are excluded. Of those selected, each adult household member is asked to provide a detailed breakdown of their income and expenditure. The proportion of co-operating households is around 70\%.

## Appeals and Referrals

The Independent Tribunal Service (ITS), which operates independently of DSS, is responsible for the administration of social security and medical appeals.

In the tables the definitions used are:
Registrations: Appeals and referrals that are registered with a Tribunal for resolution. They include appeals and referrals which were registered in preceding years and were still outstanding at the end of that year.

Appeal: An appeal to a Tribunal against the decision of an Adjudication Officer.

Referral: A claim or question referred by an Adjudication Officer to a Tribunal for their decision.

New lodgement: An appeal or referral registered during the year.

Appeal lapsed on review: Review by an Adjudication Officer of his original decision resulting in a revised decision favourable to the appellant.

Appeal not admitted: Appeal not accepted by the Tribunal as proper to them because it is outside their jurisdiction.

Outstanding: An appeal or referral that is registered with a Tribunal for resolution but is still unresolved at the end of the period.

## Source:

Statistics are based on a 100 per cent count from ITS records.

## Appendix 2

## Sampling Error

Because most of the statistics in this publication are based on sample surveys they are subject to sampling error, which is measured by a statistics known as the standard error. For samples of 30 or more the standard error is approximately the square root of the number of cases in the sample. There is a $95 \%$ probability that the true value falls within two standard errors of the grossed up sample value; this range is known as the $95 \%$ confidence interval.

When there are fewer than 30 observations in the sample, the calculation of confidence limits is slightly more complicated.

In the following table, specimen estimates are shown together with the ranges which represent the $95 \%$ confidence limits for these estimates. Sampling fractions of $1 \%, 5 \%$ and $10 \%$ have been used.

The above method cannot be applied to estimating the sampling error associated with averages, such as average weekly rate of allowances. The standard errors of these figures depend on the variability of the values averaged as well as the sample size.

| Estimated <br> value | 1\% sample | $95 \%$ confidence interval <br> $5 \%$ sample | $10 \%$ sample |
| :--- | :---: | :---: | :---: |
|  |  |  |  |
| 100 | 2 to 555 | 33 to 230 | 50 to 180 |
| 250 | 46 to 795 | 134 to 438 | 165 to 363 |
| 500 | 163 to 1,164 | 304 to 696 | 361 to 639 |
|  |  |  |  |
| 1,000 | 481 to 1,835 | 690 to 1,310 | 804 to 1,196 |
| 2,500 | 1,520 to 3,480 | 2,062 to 2,938 | 2,190 to 2,810 |
| 5,000 | 3,614 to 6,386 | 4,380 to 5,620 | 4,562 to 5,438 |
|  |  |  |  |
| 10,000 | 8,040 to 11,960 | 9,020 to 10,980 | 9,380 to 10,620 |

## Appendix 3

## Useful Publications

The publications listed below contain statistical tables on social security benefits. They are obtainable for HMSO unless otherwise stated.

## General

Monthly Digest of Statistics updates the numbers of recipients for the principal social security benefits each month.

The Annual Abstract of Statistics includes tables on the National Insurance Fund, National Insurance contributors and contributions, rates of social security benefits and numbers in receipt of social security benefits.

Social Trends shows public expenditure on social security, numbers of recipients of benefits and redistribution of income through taxes and benefits.

Family Spending, a report on the annual Family Expenditure Survey, shows income from social security benefits by type of household and by region

## Country and Regional data

Regional Trends includes a table showing expenditure on the main cash benefits by region.
The Digest of Welsh Statistics, Scottish Abstract of Statistics and Northern Ireland Annual Abstract of Statistics are annual publications which include some details of social security benefits for the individual countries.

Northern Ireland Social Security Statistics 1992 provides tables for each benefit, showing trends for the latest five years and detailed analyses for the most recent year.

## Income Support

Income Support Statistics Annual Enquiry (3 volumes) gives detailed analyses of Income Support recipients based on a $1 \%$ sample. The most recent publication is for May 1992. Similar analyses have been published from the Quarterly Enquiry since November 1992. Copies are available from ASD Secretariat, DSS, 10th Floor, The Adelphi, 1-11 John Adam Street, London WC2N 6HT.

## Social Fund

The Annual Report by the Secretary of State for Social Security on the Social Fund contains annexes detailing expenditure on each type of payment and reasons for refusals of grants and loans. The Annual Report of the Social Fund Commissioner dealing with the work of Social Fund Inspectors, has several statistical appendices.

## Sickness and Disability

On the State of the Public Health, the annual report of the Chief Medical Officer of the Department of Health, includes some statistics about Sickness Benefit and causes of incapacity; Attendance Allowance; Disablement Benefit and Prescribed diseases.

## War Pensions

War Pensioners' Annual Report has tables on the number of war pensions in payment and other information.

## National Insurance Contributions

Accounts of the National Insurance Fund, together with the report of the Comptroller and Auditor General is published for each financial year.

## Prices and earnings

The Abstract of Statistics for indices of Retail Prices, Average Earnings, Social Security Benefits and Contributions shows changes in rates of contributions and benefits since July 1948 compared with other benefits and with average earnings. The 1993 edition is obtainable from ASD Secretariat, DSS, 10th Floor, The Adelphi, 1-11 John Adam Street, London, WC2N 6HT .

## Taxes and benefits

The Tax/Benefit Model Tables for April 1993 show benefit entitlement and tax liability for families who are local authority tenants in various circumstances, including whether they are working or unemployed.

## Low Income Statistics

Households below Average Income: A statistical analysis 1979-1990/91 provides estimates of the pattern of disposable income in the United Kingdom by family type and economic status and over time, based on Family Expenditure Survey data.

## Take-up of Benefits

Income related benefits: Estimates of Take-up in 1989 shows the amount of benefit claimed and unclaimed, the number of recipients and eligible non-recipients for income related social security benefits. It is obtainable from DSS, ASD6C, Room 10-19, The Adelphi, 1-11 John Adam Street, London WC2N 6HT.

## Adjudications

The Annual Report of the Chief Adjudication Officer on Adjudication Standards contains statistics on comment rates for each type of benefit, based on the examination of a sample of claims and appeals.

[^0]:    Note: Half of the mortgage interest is payable to claimants under 60 for the first 16 weeks of their claim.

[^1]:    Note: Includes rent arrears, Mortgage interest payments and Hostel, Residential Care and Nursing Home charges paid direct.

[^2]:    Notes: 1. Carer Premium commenced in October 1990.

[^3]:    Note: Table does not include claims where claimants were eligible for $H B$ but whose entitlement was nil after non- dependent deductions were accounted for.

[^4]:    Note: 'Eligible Rent' is the average amount of rent and/or other payments which are taken into account when a claimant's HB is calculated.

[^5]:    Note: "Eligible Rent" is the average payment per week that a claimant is required to make in order to occupy a dwelling as his/her home.

[^6]:    Notes: Age is given as age of claimant only. However, for the social security status breakdown claimants aged under 60 with a partner aged 60 or over are classified in the 'Aged 60 and over' group.

[^7]:    Notes: 1. Each case falls into the first appropriate group.
    2. Claimants and partners may be in receipt of more than one type of income.

[^8]:    Notes From 10 July 1989 the personal allowances for 16 and 17 year old single person s, and lone parents was increased to the 18-24 year old rate. The increase does not apply to 16-17 year old dependents or claimant couples. From 9 October 1989 a new Enhanced Pensioner Premiums was introduced for people aged 75- 79. The existing Higher Pensioner
    Premium was also increased from that date.
    From 7 October 1991 the personal allowance for single people under 25, lone parents aged under 18 and all the dependents allowances increased by 25p. The Family Premium increased by 75p at the same time.

    1. $£ 27.40$ from 10 July 1989.
    2. $£ 16 \cdot 20$ from 9 October 1989.
    3. $£ 23.00$ from 9 October 1989.
    4. From October 1990.
    5. £15.00 working carer's earnings disregard from April 1993.
    6. $£ 6,000$ until 29 May 1988.
[^9]:    Note: Age is given as age of claimant only. However, a claimant aged under 60 with a partner aged 60 or over will be classufied in the 'Aged 60 and over' group.

[^10]:    Note: Cold weather payment data are input clerically and so are subject to human error. Changes in the way data were collected means that direct comparison with earlier years is not possible.

[^11]:    $\rightarrow$ Women on own insurance
    $\rightarrow$ Wives on husband's insurance

    - Widows on husband's insurance

[^12]:    Notes: Including graduated pension, additional pension, increments, age addition, invalidity addition and attendance allowance but excluding increase for dependents. Including persons resident overseas.

    1. Including age-related.
[^13]:    Pension day at local Post Office.

[^14]:    Notes: Excluding non-contributory retirement pension but including recipients residing overseas.
    Average amount of notional additional pension relates only to those pensioners with entitlement to notional additional pension and not to all pensioners.

[^15]:    Note: Formerly known as old person's pension.

[^16]:    Notes: All causes of Incapacity referred to in this section are based on the International Classification of Diseases.
    Published by the World Health Organisation.
    Reference should be made to this table for the appropriate ICD Codes for a cause of Incapacity.
    Up to 1978/79 the 1965 edition of the publication has been used;
    from 1979/80 the 1975 edition has been used. The codes differ slightly between editions.
    The shaded Causes of Incapacity are subgroups of the unshaded Causation group above and
    are therefore included in that figure.

    1. From 1979/80 includes all tuberculosis.
    2. From 1979/80 includes emphysema and asthma.
    3. From 1979/80 also excludes the back.
    4. From 1983/84 includes prescribed diseases.
[^17]:    Notes: From 6 April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks sickness absence in a tax year. From 6 April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work. Spells of incapacity of 3 days or less do not count as periods of interruption of employment for benefit purposes. All causes of incapacity are based on the International Classification of Diseases, shown in Table D1.01. The shaded areas are subgroups of the unshaded group above, and are therefore included in that figure.

    1. From 1979/80 includes all tuberculosis.
    2. From 1979/80 includes emphysema and asthma.
    3. From 1979/80 also excludes the back.
    4. From 1983/84 includes prescribed diseases.
[^18]:    1. At 31 May up to 1979/80; 31 March thereafter.
[^19]:    Notes: 1. A benefit week is classed as being 6 days long (Sundays not counting for benefit). The benefit year therefore lasts 312 days in a 52 week year and 318 days in a 53 week year. The 1991/92 statistical period is a 53 week year.
    2. Duration of benefit excludes any preceding SSP.

[^20]:    Notes: $\quad$ Statistical periods do not coincide with calendar years: most are for 48 week periods.

[^21]:    Notes: From 1 October 1986 Reduced Earnings Allowance replaced Special Hardship Allowance.
    Statistical year starting 1 October up to 1986/87; first Monday in April thereafter. Provisional figures, no late awards included.

    1. Includes an allowance for late returns.
    2. Including pensions in lieu of gratuities.
    3. Included in other PDS from 1989/90.
    4. Paid following gratuities and from 1986/87 Reduced Earnings Allowance only.
    5. Including cases paid under the Pneumoconiosis, Byssnosis and Miscellaneous Diseases Benefit Scheme 1966 and the Workmen's Compensation Supplementation Scheme 1966.
[^22]:    Note: Includes widows residing overseas.
    Average amount of net additional pension relates only to those widows with net additional pension and not to all widows.

[^23]:    Note: 1. Adjusted rate taking account of higher rate of Child Benefit for the eldest qualifying child.
