## Social Security Benefits Summary

During the period covered by the summary tables, several social security benefits changed.

In April 1988, Family Income Supplement was replaced by Family Credit, and Supplementary Benefit was replaced by Income Support.

Community Charge Benefit was introduced in 1989. It was known as Community Charge Rebate in Scotland. Council Tax Benefit was introduced in April 1993.

From April 1983, instead of claiming Sickness Benefit, most people working for an employer could claim Statutory Sick Pay from their employer for up to 8 weeks. From 6 April 1986 this changed to 28 weeks.

Severe Disablement Allowance replaced Non-Contributory Invalidity Pension and Housewives Non-Contributory Invalidity Pension in November 1984.

From 6 April 1992, Disability Living Allowance replaced Mobility Allowance and replaced Attendance Allowance for people disabled before the age of 65 .

Special Hardship Allowance was renamed Reduced Earnings Allowance (REA) in October 1986. Claims to REA are not counted separately but are included in claims to Industrial Injuries Disablement Benefit (IIDB). This is because a person has to be awarded IIDB at one per cent or morebefore they can be paid REA. A person who claims both IIDB and REA would be counted as making one claim.

From December 1984, married women could claim Invalid Care Allowance.

Benefit Expenditure can be divided into broad customer groups. The benefits included in each group are as follows.

## Elderly

Retirement Pension
Non-Contributory Retirement Pension
Christmas Bonus paid with Retirement
Pension and other non-disability benefits
Principal income related benefits and Social
Fund payments to people over 60

## Long Term Sick and Disabled

Invalidity Benefit
Attendance Allowance
Mobility Allowance
Disability Living Allowance
Disability Working Allowance
Industrial Injuries Disablement Benefit
Other Industrial Injuries benefits
Severe Disablement Allowance
Invalid Care Allowance
War Pensions
Independent Living Fund
Motability
Christmas Bonus paid with disability benefits Principal income related benefits and Social Fund payments made to people who are sick for more than 6 months and people who are disabled

## Short Term Sick

Statutory Sick Pay
Sickness Benefit
Principal income related benefits and Social Fund payments made to people who are sick for up to 6 months and do not receive a disability benefit

## Families

Child Benefit
One Parent Benefit
Family Credit
Statutory Maternity Pay
Maternity Allowance
Maternity Grant
Social Fund Maternity payments
Principal income related benefits and Social Fund payments to lone parent families Housing and Community Charge Benefits paid to people in work

## Unemployed

Unemployment Benefit
Principal income related benefits and Social
Fund payments to unemployed people and their families

## Widows and Others

Widow's Benefit
War Widows' Pension
Guardian's Allowance
Child's Special Allowance
Death Grant
Industrial Death Benefit
Social Fund Funeral payments
Income Support paid to people who do not
fall within other client groups
Principal income related benefits are Income Support, Housing Benefit and Council Tax Benefits.

A guide to extra help for people in work

## Family Credit

Family Credit is a weekly tax-free Social Security benefit for working people who are responsible for at least one child. The child should be under the age of 16 , but students under 19 can be included if they are in full-time education up to A-level (or equivalent standard). Both two-parent and one-parent families can get Family Credit.

The claimant, or her partner if she has one, must work an average of 16 hours or more a week. The work may be done in more than one job, but the hours worked by a couple cannot be added together to help them qualify. They can be either employed or self-employed.

The way the weekly rate of Family Credit is worked out is shown in table A1.08. Net earnings are used to work out the family's total income. Net earnings are earnings after deducting tax, National Insurance contributions and half of any contributions to any occupational or personal pension scheme. Up to $£ 40$ of child care charges can be allowed in certain cases. Some benefits are ignored, for example, Child Benefit; One Parent Benefit, Attendance Allowance, Disability Living Allowance, Housing Benefit and Council Tax Benefit. The first $£ 15$ of any maintenance in payment is also ignored. Most other types of income are taken into account in full.

From July 1995, people who work 30 hours or more a week will be paid additional Family Credit of up to $£ 10$ a week.

The first $£ 3,000$ of a person's savings or capital are ignored. If the claimant or their partner has between $£ 3,000$ and $£ 8,000$ in capital, $£ 1$ per week is taken off their benefit for each $£ 250$, or part of $£ 250$, over $£ 3,000$. People with more than $£ 8,000$ in savings or capital cannot get Family Credit.

Family Credit is awarded for a fixed period of 26 weeks. Normally the amount of the award will not change during that 26 weeks, even if family circumstances, earnings or savings change. To be paid Family Credit, a person must be entitled to more than 50p a week.

Anyone who is entitled to Family Credit is automatically entitled to certain other benefits. These are

- free NHS prescriptions
- free NHS dental treatment
- free NHS sight tests
- NHS vouchers to help with the cost of glasses
- refunds of travel costs to and from hospital for NHS treatment
- free NHS wigs and fabric supports
- dried milk for babies under a year old at specially reduced prices at maternity and child health clinics.

## Income Support

Income Support can be paid to a person who

- is in Great Britain
- is aged 18 or over
- is not working 16 hours or more a week
- has less money coming in than the law says they need to live on.

Income Support (IS) is a non-contributory benefit. If a claimant is under 60 and can work, they must normally be available for work to get Income Support. Lone parents do not have to be available for work. There are some other groups who can get Income Support without being available for work. The conditions for entitlement are in the Income Support regulations.

In September 1988 there were changes in the Income Support rules for 16 and 17 year olds. This means that most 16 and 17 year olds cannot get benefit, except in certain circumstances. There is more information about this in leaflet IS 26, Income Support if you are 16 or 17 .

The applicable amounts and resources of a couple living in the same household are lumped together to work out how much Income Support they can get. Any dependant children living with them are also included in the assessment. If the children have any capital, it is taken into account separately. Unmarried couples who live together as husband and wife are treated as if they were married. Either partner can claim Income Support.

Anyone who works 16 hours or more a week cannot normally get Income Support. People in full-time non-advanced education are not normally entitled. Any children aged 16 or over who are still at school can be included as dependants in their parents' Income Support assessment. Someone involved in a trade dispute cannot get Income Support, although it can be paid for their dependants. In certain urgent cases the regulations do allow people to get Income Support who would not normally be entitled to it.

Once they get Income Support, the claimant and any dependants are automatically entitled to certain other welfare benefits.

## Rate of Benefit

The rate of Income Support paid to a claimant is the amount needed to bring their income up to their 'applicable amount'. This is the level the law says they need to live on.

## Applicable Amounts

These are set down in the regulations. The applicable amount is made up of personal allowances, and premiums for certain groups with special needs. The allowances are shown in table A2.35 and the premiums are in table A2.36.

## Housing Costs

The applicable amount can also include an amount for certain housing costs such as

- an amount for mortgage interest (but not capital repayments)
- ground rent
- other miscellaneous costs which are not covered by Housing Benefit such as certain service charges.

Although they are not always expected to contribute, any contributions from non-dependants may be taken off the amount allowed for housing costs.

Income Support does not cover rent or Council Tax. Someone getting Income Support automatically qualifies for maximum Housing Benefit and Council Tax Benefit. This means the Local Authority pays $100 \%$ of eligible rent and Council Tax less any non-dependants' contribution.

A person in a Local Authority home gets the basic rate of Retirement Pension. This includes an amount for personal needs.

Someone in hospital for more than 6 weeks gets the hospital personal allowance rate and an amount for any continuing housing costs.

## Resources

The resources of a claimant are their total income and any capital. If they qualify for any of the disregards described below, these will be taken off.

If the claimant is working, a certain amount of the net weekly earnings is ignored. The rest is counted as a resource. The same applies to the partner's earnings.

Any money earned by children of school age is ignored. If the child has left school some of their earnings may be included in the assessment.

Child Benefit and the main National Insurance benefits and pensions are counted in full as income. Part of any War Disablement Pension or War Widow's Pension is ignored. Disability Living Allowance and Attendance Allowance are usually totally ignored.

Some other types of income, eg certain payments received from charities, can be ignored. The annuity paid to the holder of a Victoria Cross is ignored totally. Maintenance payments and any other types of income are counted in full.

If the claimant, or their partner, has more than $£ 8,000$ in capital assets, they cannot get Income Support. Capital assets means savings, investments or property other than their home. However, some assets, eg property occupied by an aged relative, can be ignored. If the claimant or their partner has between $£ 3,000$ and $£ 8,000$ in assets, $£ 1$ a week is taken off their benefit for each $£ 250$, or part of $£ 250$ over $£ 3,000$.

## Liability to Maintain

A husband is responsible for looking after his wife, and a wife is responsible for looking after her husband. Parents are responsible for looking after their children. Since October 1989, they must look after them up to their 19th birthday, if the young person is still treated as a dependant and the parents are getting Income Support. In October 1990 the law changed to let maintenance be sought in the case of divorced or never-married lone parents. This covers both benefit being paid for the children, and any benefit being paid to the person looking after those children, reflecting the cost of such care.

If someone gives a written undertaking to be responsible for the maintenance and accommodation of an immigrant, they must look after that person if they get Income Support. The Secretary of State can enforce these responsibilities by applying for a Court Order against the responsible relative or sponsor.

On 5 April 1993 the Child Support Agency took over the assessment, collection, review and enforcement of maintenance for children. Parents who look after a child for whom maintenance is an issue, and who get Income Support, Family Credit or Disability Working Allowance, may have to apply for child support maintenance. People who are not on benefit can also use the Agency. Under the Child Support Act of 1991, parents are responsible for natural and adopted children only.

## Exceptional Expenses

Income Support is intended to meet regular weekly needs. The Social Fund can provide extra help with particular additional needs in certain circumstances.

The above notes give a very brief outline of Income Support. Full information is given in leaflet IS 20, A Guide to Income Support (see Appendix 1).

## Lone Parents and One Parent Families

'Lone parents' in most tables represent Income Support claimants who are in receipt of a lone parent premium. Tables A2.15, A2.16, A2.17 and A2.33 show all one parent families (single claimants with dependants) including those who do not receive the lone parent premium because they attract other premiums.

Analyses of one parent families by marital status at May 1994 are not yet completed but are expected to be available around October 1995.

## Source

Statistics are derived from the Income Support Statistical Enquiries. Analyses for May 1994 are taken from the Quarterly Statistical Enquiry and those for earlier years from the Annual Statistical Enquiry (the figures are directly comparable).

A 1\% sample was used up to 1992. From 1993 onwards the sample size was increased to $5 \%$ although some analyses for 1993 were based on a $1 \%$ sample, as indicated in the footnotes.

## A2.20 Recipients in Residential Care and Nursing Homes: by age

|  | May | May | May | May | May | May <br> 1989 |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
|  | 1990 | 1991 | 1992 | 1993 | 1994 |  |
| Total | 176 | 192 | 233 | 268 | 286 | 278 |
| Residential Care | 119 | 127 | 139 | 152 | 159 | 126 |
| Over 60 | 93 | 98 | 107 | 114 | 117 | 90 |
| Under 60 | 26 | 28 | 32 | 38 | 42 | 36 |
|  |  |  |  |  |  |  |
| Nursing Homes | 57 | 65 | 94 | 116 | 124 | 95 |
| Over 60 | 52 | 62 | 87 | 110 | 116 | 88 |
| Under 60 | 4 | 3 | 6 | 6 | 8 | 7 |
| Residential Allowance | - | - | - | - | 2 | 57 |
| Over 60 | - | - | - | - | 2 | 49 |
| Under 60 | - | - | - | - | 1 | 8 |

Note: Before the introduction of a new system of community care in April 1993, all claimants had their accommodation charges met from Income Support within certain limits. Claimants entering homes after this date received Income Support on a broadly similar basis to people living in their own homes plus a Residential Allowance to assist with the recognised extra costs incurred. Local Authorities are now responsible for providing any additional financial assistance that they may need.

## Housing Benefit

Housing Benefit (HB) is an income-related Social Security benefit designed to help people who rent their homes and have difficulty meeting their housing costs. It is administered by local authorities. It can only be paid to tenants who are legally liable (or treated as liable) to pay rent for their home. It cannot help towards the housing costs of owner-occupiers. Most full-time students are not entitled to Housing Benefit. Couples are treated as a single benefit unit.

The "eligible rent" is the amount that can be met by Housing Benefit. It covers rent and compulsory charges for accommodationrelated services. It can also cover mooring charges for house boats, site fees for mobile homes, mesne profits and rental purchase payments. Eligible rent should be adjusted to take account of any charges included in the rent that relate to personal needs (eg fuel and meals). It may also be reduced if the rent is unreasonably high or the accommodation overlarge for the claimant's reasonable needs, or if the claimant or their partner is a full-time student.

Most income is counted in full when working out entitlement to Housing Benefit. However, some forms of income, such as Attendance Allowance and Disability Living Allowance, are totally ignored. Some other forms of income can be ignored in part, for example, $£ 15$ of maintenance received by a claimant entitled to the family premium is ignored, and $£ 10$ of a War Disablement or War Widow's pension. Local authorities may also operate a local scheme to increase the $£ 10$ disregard on War Disablement or War Widow's Pension, or make it a total disregard. Not all authorities operate such schemes.

If a claimant is working, part of their earnings, after deductions for tax, National Insurance and half of any contribution towards an occupational or personal pension scheme, will also be ignored. The amount of earnings ignored depends on the claimant's circumstances. Also, in certain circumstances, up to $£ 40$ per week of childcare charges paid for children under 11 can be offset against earnings from remunerative work.

Introduced 1 April 1983 Non-contributory, Means tested , Non-taxable

Anyone with savings, investments and other capital valued at more than $£ 16,000$ will not normally qualify for Housing Benefit. Capital of $£ 3,000$ or less is ignored. Capital of between $£ 3,000$ and $£ 16,000$ affects entitlement to Housing Benefit. For each $£ 250$ or part of $£ 250$ over $£ 3,000$, $£ 1$ per week is taken into account when calculating entitlement.

The "applicable amount" is made up of personal allowances and premiums.
Premiums are awarded to certain groups with special needs (see table A3.24). For example, a person under 60 will get the disability premium if either they or their partner - get Disability Living Allowance, or

- get Disability Working Allowance, or
- get the long term rate of Incapacity

Benefit, or

- get Severe DisablementAllowance, or
- are registered blind, or
- have an invalid vehicle.

A person claiming Housing Benefit who has satisfied the test of incapacity for work (the new incapacity test) for 52 weeks or more will also get the disability premium.

The amount of Housing Benefit for people who are on Income Support, or whose income is equal to or less than their applicable amount, is
$100 \%$ of eligible rent
less any non-dependant deductions.
For claimants whose income after disregards is more than their applicable amount, the amount of Housing Benefit is
$100 \%$ of eligible rent
less any non-dependant deductions
less $65 \%$ of the income above the applicable amount.

The minimum payment is 50 p a week.
The local authority can pay extra benefit to claimants who receive tapered Housing Benefit if it considers their circumstances to be out of the ordinary. It cannot spend more than $0.1 \%$ of its total Housing Benefit expenditure budget in this way.

## Source

A $100 \%$ count of recipients is carried out in May, August, November and February from the Housing Benefit Management Information System. This system collects data on both Housing Benefit and Council Tax Benefit. Figures for Local Authorities who do not respond are estimated on the basis of previous figures and trends.

Additionally a range of information about a sample of recipients is collected in May. The selection of this sample is as follows:
(a) For those receiving Housing Benefit and Income Support - a sample of $1 \%$ of those receiving Income Support;
(b) For those receiving Housing Benefit but not Income Support - approximately a $1 \%$ sample consisting of claimants with birthdays on four specified days of the year.

The data is weighted to correct for non-response.

Quarterly caseload counts form the basis of table A3.01. The remaining tables in this section are analyses of the annual sample survey for May 1994.

Where recipients are analysed by social security status, the following rules apply:
'Aged 60 and over' consists of benefit units where either claimant or partner is aged 60 or over.
'Aged under 60' consists of benefit units where both claimant and partner are under 60.
'Retirement pensioners' consist of benefit units where a State Retirement Pension is payable.
'In receipt of other NI benefits' consists of benefit units where State retirement pension is not in payment, but the claimant or partner is entitled to a disability premium.

Notes: 'Eligible rent' is the average amount of rent and/or other payments which are taken into account when a claimant's HB is calculated.
This table does not include cases where claimants were eligible for HB but where entitlement was nil (less than 50p) after non-dependant deductions were accounted for.

| Non-dependants: |  |  |  |  |  |  |  |  |  |  |

Notes: $\quad$ Someone paying rent to a claimant is not classified as a non-dependant. They are classed as a tenant, sub-tenant or boarder, unless they do not count as someone paying rent under HB rules, for example, a close relative paying rent. The table does not include cases where claimants were eligible for HB but where entitlement was nil (less than 50p) after non-dependant deductions were accounted for.

|  | Deduction for CTB | $1 \cdot 15$ | $2 \cdot 30$ |

Notes: $\quad$ The deductions shown are those for non-dependants aged 18 or over in remunerative work.
The lowest rate of deduction also applies to non-dependants aged 18 or over not in remunerative work, and to those aged over 25 on Income Support.
No deductions are made for non-dependants aged under 18, or for those under 25 and on Income Support, or where the claimant is blind or receiving Attendance Allowance or the care component of DLA.

## HELP WITH YOUR RENT

HOUSING BENEFIT

# Council Tax Benefit <br> Community Charge Benefit 

Council Tax Benefit

Council Tax Benefit (CTB) is an income-related Social Security benefit designed to help people on low incomes pay their Council Tax. It is administered by Local Authorities. Generally it is calculated in the same way as Housing Benefit, taking into account the claimant's applicable amount, resources and any non-dependant deductions.

There are two types of Council Tax Benefit: maximum Council Tax Benefit and Second Adult Rebate. Most of the Council Tax Benefit tables in this chapter deal only with maximum Council Tax Benefit.

Maximum Council Tax Benefit can help people who are liable to pay Council Tax, whether they are employed or unemployed. However, most full-time students are not entitled. It is paid by a rebate to the Council Tax bill. If the claimant gets Income Support, they can receive up to $100 \%$ help, less any non-dependant deductions that may be appropriate. Claimants who do not receive Income Support have their benefit assessed in a similar way to Housing Benefit. Maximum Council Tax Benefit is reduced by $20 \%$ of any net income above their applicable amount. If a claimant has more than $£ 16,000$ in capital, they cannot receive Council Tax Benefit.

Second Adult Rebates are another kind of help for people who are solely liable for their Council Tax. The claimant can get a Second Adult Rebate if they have a second adult in their household who would normally be expected to pay something towards the Council Tax bill but cannot afford to do so. The rebates are worked out on the financial circumstances of the second adult, not the person responsible for paying the bill. The local authority can award rebates of up to $25 \%$.

If the claimant can receive both maximum Council Tax Benefit and Second Adult Rebate, the local authority must award them the greater benefit.

Introduced 1 April 1993
Non-contributory, Means tested, Non-taxable
Introduced 1 April 1990 (1 April 1989 in Scotland) Non-contributory, Means tested, Non-taxable

## Community Charge Benefit

Council Tax Benefit replaced Community Charge Benefit in April 1993. Community Charge Benefit (CCB) was available to anyone who was liable to pay the Community Charge and was paid by a rebate to their bill. It had similar rules to Housing Benefit and Council Tax Benefit, except that there were no non-dependant deductions in CCB.

Claimants in receipt of Income Support were entitled to the maximum CCB of $80 \%$. For claimants not on Income Support, the maximum benefit was reduced by $15 \%$ of any net income above the applicable amount.

## Source

A $100 \%$ count of recipients is carried out in May, August, November and February from the Housing Benefit Management Information System. This system collects data on both Housing Benefit and Council Tax Benefit (CCB before 1993/94). Figures for Local Authorities who do not respond are estimated on the basis of previous figures and trends.

Additionally a range of information about a sample of recipients is collected in May. The selection of this sample is as follows:

- For those receiving Housing Benefit and Income Support - a sample of $1 \%$ of those receiving Income Support
- For those receiving Housing Benefit but not Income Support - approximately a $1 \%$ sample consisting of claimants with birthdays on four specified days of the year.

The data is weighted to correct for non-response.

Quarterly caseload counts form the basis of tables A3.01 and A4.01. The remaining tables in this section are analyses of the annual sample survey for May 1994.

Where recipients are analysed by social security status, the following rules apply:
'Aged 60 and over' consists of benefit units where either claimant or partner is aged 60 or over.
'Aged under 60 ' consists of benefit units where both claimant and partner are under 60.
'Retirement pensioners' consist of benefit units where a State Retirement Pension is payable.
'In receipt of other NI benefits' consists of benefit units where State Retirement Pension is not in payment, but the claimant or partner is entitled to a disability premium.

Each case falls in the first applicable category. Claimants with partners are counted as one recipient.

| Second Adult Rebate | 52 | 44 |  | 5 |

Notes: Figures represent the number of cases receiving benefit on the last working day of May, August, November and February. The table does not include cases where claimants were eligible for Council Tax Benefit but whose entitlement was nil after non-dependant deductions were accounted for. 'Maximum CTB' is a type of CTB (see prologue). 'Maximum' does not mean that all recipients are receiving benefit up to their full liable Council Tax.

Notes:
Age is given as age of claimant only. However, for the social security status breakdown, claimants aged under 60 with a partner aged 60 or over are classified in the 'Aged 60 or over' group.
The table includes only maximum CTB cases and not Second Adult Rebates.
It does not include claims where claimants were eligible for CTB but whose entitlement was nil after non-dependant deductions were accounted for.

## A4.11 (continued)

Thousands

## CTB cases not in receipt of Income Support

| Households with <br> non-dependants | 278 | 171 | 140 | 17 | 13 | 108 | 40 | 12 | 11 | 45 |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| of which: |  |  |  |  |  |  |  |  |  |  |
| Attracting deductions <br> for non-dependants | 183 | 123 | 104 | 10 | 9 | 60 | 23 | 6 | 6 | 24 |
| Non-dependants: |  |  |  |  |  |  |  |  |  |  |
| Total |  |  |  |  |  |  |  |  |  |  |

Notes: The table includes maximum CTB cases but excludes Second Adult Rebates.
It does not include claims where claimants were eligible for CTB but whose entitlement was nil after non-dependant deductions were accounted for.
Certain non-dependants do not attract deductions in the calculation of the CTB award,
eg. those receiving IS and people in receipt of a YT Allowance. Additionally, non-dependant deductions are not applied to benefit recipients who are registered blind or in receipt of Attendance Allowance or the care component of DLA, regardless of the number and type of non-dependants.

Note: $\quad$ The premiums apply to rate rebates before April 1990, to Community Charge Benefit from April 1990 (April 1989 in Scotland) to March 1993, and to Council Tax Benefit from April 1993.

| Range of gross income |  |  |  |
| :---: | :---: | :---: | :---: |
| April 1988 | Gross Income Deduction for rates | All incomes 3.00 |  |
| April 1989 | Gross Income Deduction for rates | All incomes 3.35 |  |
| April 1993 | Gross Income Deduction for CTB | Below $£ 105$ <br> 1.00 | $\begin{array}{r} £ 105 \text { or over } \\ 2.00 \end{array}$ |
| April 1994 | Gross Income Deduction for CTB | Below $£ 108$ $1 \cdot 15$ | $\begin{array}{r} £ 108 \text { or over } \\ 2 \cdot 30 \end{array}$ |
| April 1995 | Gross Income Deduction for CTB | Below $£ 111$ 1.15 | $\begin{array}{r} £ 111 \text { or over } \\ 2 \cdot 30 \end{array}$ |

Notes: $\quad$ The deductions shown are those for non-dependants aged 18 or over in remunerative work.
The lowest rate of deduction also applies to non-dependants aged 18 or over not in work.
No deductions are made for non-dependants aged under 18, for those on Income Support or where the claimant is blind, receiving Attendance Allowance or the care component of DLA.
There were no non-dependant deductions for Community Charge Benefit

COLD WEATHER
PAYMENTS

## Social Fund

The Social Fund is made up of regulated payments and discretionary payments.

Maternity, Funeral and Cold Weather Payments are governed by regulations. They are available to people who are on certain Social Security benefits and who meet various other conditions.

The discretionary part of the Social Fund provides help in the form of non-repayable grants and interest-free loans. The discretionary payments are Community Care Grants, Budgeting Loans and Crisis Loans. These are available for items or services allowed by the Secretary of State. There is a fixed annual budget. Districts must manage their budgets so that they can, as far as possible, meet a similar level of need throughout the year. They must not exceed their budget.

Social Fund Officers (SFO's) make the decisions on awarding loans and grants. To help their SFO's, each district manager draws up a list of local priorities for Social Fund awards. To reach their decisions the SFO must take account of the Secretary of State's guidance and the individual circumstances and needs of the case. They must then set these against national and district priorities, and the broad policy objectives of the Social Fund.

Maternity Payments (from April 1987) If the claimant or their partner gets Income Support, Family Credit or Disability Working Allowance, they can get a non-repayable Maternity Payment of $£ 100$ towards the cost of items for a new baby. Any savings of $£ 500$ or more are taken into account on a pound for pound basis.

Funeral Payments (from April 1987) These may be paid if the claimant or their partner is responsible for the cost of a funeral and they are getting Income Support, Family Credit, Housing Benefit, Council Tax Benefit or Disability Working Allowance. The payment covers the cost of a dignified funeral in the United Kingdom. The claimant can apply for a Funeral Payment up to three months after the funeral. If the claimant or their partner has more than $£ 500$ in capital ( $£ 1,000$ for those aged 60 or over), this is taken into account. If the
deceased person leaves any estate, the funeral payment should be paid back out of that. Personal possessions and the value of the home occupied by a surviving partner are disregarded.

Revised provision came into force from June 1995 which places a $£ 500$ ceiling on specified funeral director's charges. The reasonable cost of all burial or cremation disbursements will be met, with up to $£ 25$ for a floral tribute from the person responsible for arranging the funeral and up to $£ 75$ for additional expenses resulting from a requirement of the religious faith of the deceased.

## Cold Weather Payments <br> (from November 1991)

Payments of $£ 7$ are made for any period of 7 consecutive days when the temperature is $0^{\circ} \mathrm{C}$ or below. Anyone who gets Income Support and has a child under 5 years old, or who receives a pensioner or disability premium, is entitled to a Cold Weather Payment. All eligible people are paid automatically. They no longer have to put in a claim, and savings are not taken into account any more. From November 1995 payments will increase to $£ 8.50$.

Community Care Grants (from April 1988)
These are for certain people on Income Support who have special difficulties arising from special circumstances. Mainly they are paid to people who need help

- to re-establish themselves in the community when they come out of institutional or residential care
- to live independently in the community so that they do not have to go into institutional or residential care
- to cope with exceptional pressures that they and their family are under
- with certain urgent travelling costs
- looking after prisoners on release on temporary licence.
Community Care Grants do not have to be repaid.

Budgeting Loans (from April 1988)
These are interest-free loans available to people who have been getting Income Support for at least 26 weeks. They are for large intermittent expenses which are difficult to budget for from weekly income.

Crisis Loans (from April 1988)
This is another kind of interest-free loan which is available as a last resort for people whose health and safety is at serious risk as a result of an emergency or disaster.

There is more information in leaflet SFL 2 How the Social Fund can help you - see Appendix 1.

## Source

Statistics are obtained from the Social Fund computer system.

The following notes apply to tables A5.01-A5.05:

1. Differences between applications and decisions are due to applications being carried forward from one year to the next.
2. Differences between decisions and the sum of awards and refusals are due partly to cases where no response is received from the applicant, and partly to cases where an award is declined.
3. Data from 1992/93 onwards includes awards made on review or appeal. Such awards were excluded from the 1990/91 and 1991/92 data.

## A5.06 Cold Weather Payments

|  |  | $1992 / 93$ | $1993 / 94$ | $1994 / 95$ |
| :--- | ---: | ---: | ---: | ---: |
| Awards | $000 s$ | 2,503 | 2,064 | 11 |
| Gross expenditure | $£ m$ | 15 | 12 | 12 |
| Net expenditure | $£ m$ | 15 | 6 | 1 |
| Average award | $£$ | 6 | 6 | 7 |

Notes: Cold weather payment data are input clerically and so are subject to error. Changes in the way data were collected means that direct comparison with earlier years is not possible. Payments are now made automatically to those who qualify, and so no claims are required.
(1) Expenditure less than $£ 0.5 m$. This is attributed to an exceptionally mild winter.

## Benefitis after retirement

What you could claim as a pensioner

## Retirement Pension

There are two categories of contributory retirement pension and two categories of non-contributory retirement pension.

The categories of contributory retirement pension are

- Category A - based on a person's own contributions
- Category B - based on contributions paid by a spouse.

The two main conditions for payment are that
the person has reached State pension age ( 65 for men, 60 for women) and the contributions conditions are satisfied.

People who meet the contribution conditions get a flat-rate basic pension at the standard rate. If the conditions are only partly met, the basic pension is reduced. Since April 1978, a person's contribution record can be protected if their opportunities to work are limited because of responsibilities at home, such as bringing up a family or looking after a sick or disabled person. There are also special arrangements to help widows and widowers qualify for a retirement pension.

Extra money for dependant children can be paid with Category A or B pensions. Extra money can also be added to a Category A pension for a dependant spouse or someone who looks after the children.

A married woman can get a Category A pension on her own insurance if she meets the conditions. Otherwise she can claim a Category B pension on her husband's insurance, when he qualifies for his own pension and she has reached State pension age. She can also claim a Category B pension if her own pension would be less than the rate payable on her husband's insurance.

## Additional Pension

This is the earnings-related element of the state retirement pension, known as SERPS. The amount payable is based on the earnings between the Lower and Upper Earnings Limits for payment of National Insurance contributions in tax years from April 1978 up to the final relevant year. The final relevant year is the last complete tax year
before a person reaches State pension age. Earnings for the years before the final relevant year are revalued in line with the growth in average earnings.

## Contracted Out Deduction

The Additional Pension is reduced when someone has been a member of a contracted out scheme or personal pension scheme used in place of SERPS. Contracted out salary related schemes provide a Guaranteed Minimum Pension (GMP) worth about the same as the Additional Pension payable under the state scheme. The Additional Pension is reduced by the GMP. With contracted out money purchase schemes and personal pensions there is no guaranteed minimum, but the Additional Pension is reduced in a similar way.

## Notional Additional Pension

This is the entitlement to Additional Pension before reduction for Contracted Out Deduction.

## Net Additional Pension

This is the entitlement to Additional Pension after reduction for Contracted Out Deduction.

## Increments

If a person does not take their retirement pension until after State pension age, or cancels their claim, they earn increments. They get the increments with the pension they get on their own insurance, either when they do claim or five years after they reach State pension age. The amount of the increment is about $7.5 \%$ per year of deferred retirement on the basic rate, including invalidity allowance and additional pension. The minimum deferment is 42 days. A married woman can earn increments whether her pension is based on her own or her husband's insurance or both. Increments on her husband's insurance can only be earned if the couple are both over State pension age. A widow can have any increments earned by her husband added to her own.

## Graduated retirement benefit

This is paid to those people who paid into the graduated pension scheme which ended on 5 April 1975. It is paid whether or not they are entitled to the basic retirement
pension. The entitlement is based on each unit of graduated contributions paid ( $£ 7.50$ for a man, $£ 9$ for a woman). Someone who delays claiming can earn increments in the same way as for other parts of the pension. A widow can get half of any graduated retirement benefit for which her husband had qualified.

## Invalidity addition

This is paid to a person who was entitled to invalidity allowance as an increase of invalidity pension, at any time during the 57 days before they reached State pension age. The amount they get is the rate of invalidity allowance they were entitled to when they reached State pension age. Since September 1985 the rate of invalidity addition has been reduced by the notional rate of Additional Pension.

The two categories of non-contributory retirement pensions for people who do not meet the contributions conditions are Category C and Category D.

## Category C pensions

These are for people who were over State pension age on 5 July 1948, and are therefore excluded from the National Insurance scheme. The wife or widow of a man who was over 65 on July 1948 can also get a Category C pension.

## Category D pensions

These are awarded to people who reach the age of 80 , satisfy certain residence conditions and failed to qualify for a Category A or B pension, or would have received less than the non-contributory rate.

## Age addition

All pensioners over 80 years old get an age addition of 25 p a week.

## Christmas Bonus

In the first week of December, retirement pensioners, widows and people receiving certain other benefits in the relevant week get a Christmas Bonus. It is currently $£ 10$.

## Frozen and non-frozen rate countries

 People living abroad can get Retirement Pension. However, people who live in countries with which the UK has no reciprocal agreement cannot get uprating of pension. These countries are shown in Table B1.04 as 'frozen rate countries'. People living in 'non-frozen rate countries', which include the members of the European Union, get their pensions uprated in the same way as people living in Great Britain.
## Source

Statistics are based on a $10 \%$ sample from the Pensions Strategy Project computer file.

## Pensioners' Income

The Pensioner Income series comes from the Family Expenditure Survey. It shows both the trends and the sources of pensioners' total incomes in various years since 1979.

The heading "1990 \& 1991" refers to a combined sample for those two years. Because the Community Charge bills for April 1991 were late going out, there were problems collecting information on Community Charge Benefit. Therefore one quarter of the 1991 Family Expenditure Survey sample was not used, which meant the 1991 sample size was too small to give a reliable estimate of pensioners' incomes. The rest of the data for 1991 was included with the 1990 data.

## Pensioner units are:

Single women aged 60 or above, Single men aged 65 or above,
and Couples in which the husband is aged 65 or above.

Recently retired pensioner units are: Single women aged 60 to 64 , Single men aged 65 to 69 ,
and Couples in which the husband is aged 65 to 69 .

All amounts are based in July 1993 prices.
Estimates of the percentage of pensioner units who get money from an occupational pension are worked out using data from the Family Expenditure Survey and the Survey of Occupational Pension Schemes carried out by the Government Actuary's Department. It is not possible to work out the overall average occupational pension from the estimates in Table B2.06.

Figures in Tables B2.03 and B2.04 are for individual pensioners. They assume that all members of a household share the same standard of living.

A guide to benefits to help make ends meet

## Unemployment Benefit

To be entitled to Unemployment Benefit, a claimant must be

- unemployed
- available for employment
- actively seeking employment as an employed person, and
- free from certain grounds for disallowance or disqualification.
For example, a claimant cannot be paid Unemployment Benefit for a day on which they get payment in lieu of notice. The claimant may be disqualified for up to 26 weeks if they left their last job voluntarily and without a good reason, or if they lost it through misconduct, or if they refuse a job without just cause.

A claimant must also meet the contribution conditions for Unemployment Benefit. These depend on Class 1 National Insurance contributions paid as an employed earner. The Department for Education and Employment deals with claims as agents for the Department of Social Security.

If the claimant meets the contribution conditions in full, they will normally receive Unemployment Benefit at the standard rate shown in table C1.10. They can get extra money for any adult dependants and claimants over pension age can get extra money for dependant children. A person who is over 55 and gets more than $£ 35$ a week in occupational pension will have their benefit reduced.

A claimant cannot be paid Unemployment Benefit for any day on which they earn $£ 2$ or more. Neither can they be paid Unemployment Benefit for any benefit week in which they earn $£ 58$ (the Lower Earnings Limit) or more.

In any period of interruption of employment, the claimant can get Unemployment Benefit from 3 days after finishing work and for up to 312 days (excluding Sundays). After the claimant has been paid benefit for 312 days, they cannot be paid again until they requalify.

## Source

Statistics are based on $100 \%$ counts taken on certain dates, and on detailed returns for $5 \%$ samples of current claimants for benefit or credits. The samples cover claimants whose National Insurance number ends in the digits $14,24,44,64,84$.

Details of the samples for each table are as follows:

C1.01, C1.03, C1.05, C1.06, C1.09-100\% count.
C1.04, C1.07, C1.08-5\% sample.
The Standard Statistical Regions used in tables C1.03, C1.05 and C1.09 are shown in Appendix 4.

# Incapacity Benefit 

## Sickness Benefit

The main conditions for entitlement to Sickness Benefit were that the claimant was incapable of work because of illness or disablement and that they satisfied the contribution conditions. These depended on contributions paid as an employee (Class 1 ) or a self-employed person (Class 2). A person who could not work because of an industrial accident or prescribed disease was treated as if they satisfied the contribution conditions.

Most people paying Class 1 National Insurance contributions as employees receive Statutory Sick Pay (SSP) from their employer when they are off work sick. They can get SSP for up to 28 weeks in any one period of incapacity for work. People could claim Sickness Benefit if they

- did not work for an employer
- were employees who were excluded from the SSP scheme, or
- ran out of SSP before reaching the maximum of 28 weeks and were still sick.

If a person is incapable of work for 3 days or less, they are not counted as having a period of interruption of employment. An

## Invalidity Benefit

## Invalidity Pension

If the claimant was still incapable of work after 28 weeks, they could get Invalidity Pension instead of SSP or Sickness Benefit. The claimant could get extra money for any dependant adult and children. The rates are shown in table D1.28.

## Invalidity Allowance

This was paid as well as Invalidity Pension. The rate depended on the claimant's age when their incapacity began.

Claimants who became entitled to Invalidity Benefit after 6 April 1979 could sometimes get an additional Invalidity Pension. This was based on the earnings on which they paid National Insurance contributions as employees since 6 April 1978. Since 6 April 1992, new claimants have had their additional pension worked out on their earnings in the tax years 1978/79 to 1990/91 only.

Introduced 5 July 1948
Contributory, Not means tested, Non-taxable
exception is made for anyone who has regular weekly treatment by dialysis, or treatment by radiotherapy, chemotherapy or plasmapheresis. In these cases 2 days in any 6 consecutive days count as a period of interruption of employment. People whose incapacity for work ends within 3 days of the end of SSP entitlement are also excepted.

A claimant had to wait three days at the beginning of a period of interruption of employment before they could get Sickness Benefit. After 28 weeks ( 168 days) in any period of interruption of employment, the claimant would normally get Invalidity Benefit instead. Employees who were entitled to SSP for less than 28 weeks and who were still sick could get Sickness Benefit until they reach a total of 28 weeks SSP and Sickness Benefit, as long as they met the contribution conditions.

The rates of benefit are shown in table D1.27. A claimant could get extra benefit for any dependant adults. A claimant over State pension age could get extra money for any dependant children.

Introduced 23 September 1971
Contributory, Not means tested, Non-taxable
If the claimant got any additional Invalidity Pension or Guaranteed Minimum Pension, the amount was taken off their Invalidity Allowance.

## Note

Many of the tables in this section deal with Sickness Benefit and Invalidity Benefit together.

The figures for 1993/94 are provisional and are subject to amendment.

## Source

Tables D1.02, D1.03 and D1.05 are based on a $100 \%$ clerical count of claims. Tables D1.06 to D1.26 are based on a $1 \%$ sample of claimants whose National Insurance number ends in the digit 14.

## Incapacity Benefit

Incapacity Benefit replaced Sickness Benefit and Invalidity Benefit from 13 April 1995. It is paid to people who are assessed as being incapable of work and who meet the same contribution conditions as for Sickness Benefit.

## Assessing Incapacity

For the first 28 weeks of incapacity, people previously in work will be assessed on the 'own occupation' test - the claimant's ability to do their own job.

Otherwise, incapacity will be based on a new 'all work' test which will assess ability to carry out a range of work-related activities. The test will apply after 28 weeks of incapacity or from the start of the claim for people who did not previously have a job. Certain people will be exempted from this test.

## Rates of Benefit

The rates of Incapacity Benefit are set out in Table D1.29. For people under State pension age there are two short-term rates: the lower rate is paid for the first 28 weeks of sickness and the higher rate for weeks 29 to 52 . Employees will continue to receive Statutory Sick Pay (SSP) for the first 28 weeks of sickness, after which they will normally move on to Incapacity Benefit. People unable to get SSP will be able to claim Incapacity Benefit if they satisfy the contribution conditions.

The long-term rate of Incapacity Benefit applies to people under State pension age who have been sick for more than a year. People with a terminal illness or who are receiving the higher rate care component of Disability Living Allowance will get the long-term rate from week 29.

Introduced 13 April 1995
Contributory, Not means tested, Taxable
For people over State pension age, the short-term rate of Incapacity Benefit is paid for up to a year if incapacity began before pension age. The long-term rate is not paid for people over pension age.

The higher short-term rate and the long-term rate are treated as taxable income.

Increases are paid for a dependant who is caring for a child or where the spouse is aged 60 or over. Increases for children are paid with the short-term higher rate and with the long-term rate. An age addition is paid with the long-term rate at one of two rates depending on the age when incapacity began.

## Transitional Rules

There are transitional provisions for people who were on Sickness or Invalidity Benefit on 12 April 1995. Claimants on Invalidity Benefit who remain incapable of work will continue to receive benefit at the same rate and will get annual upratings except for the Additional Pension component which will be frozen. If they were over State pension age on 13 April 1995 they will get Incapacity Benefit for up to 5 years beyond pension age; otherwise Incapacity Benefit will cease at pension age.

Claimants on Sickness Benefit will be paid at the same rate until the 28 th week of incapacity. They will then be paid the short-term higher rate of Incapacity Benefit, moving to the long-term rate after 52 weeks.

Benefit received by former Invalidity Benefit claimants will not be subject to tax. Incapacity Benefit received by people moving from Sickness Benefit will be taxable after 28 weeks of incapacity.

Notes: All causes of Incapacity referred to in this section are based on the International Classification of Diseases published by the World Health Organisation.
Reference should be made to this table for the appropriate ICD Codes for a cause of Incapacity.
The shaded Causes of Incapacity are subgroups of the unshaded Causation group above and are therefore included in that figure.
(1) From 1979/80 includes emphysema and asthma.
(2) From 1983/84 includes prescribed diseases.

Notes: $\quad$ The statistical year starts on the first Monday in April.
Age is at 31 March.
The table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment for benefit purposes, unless they occur within 8 weeks of a previous period of incapacity of 4 days or more. From April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks' sickness absence in a tax year. From April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work.

Notes: From April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks' sickness absence in a tax year. From April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work.
The table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment
for benefit purposes, unless they occur within 8 weeks of a previous period of incapacity of 4 days or more.
The statistical year starts on the first Monday in June for 1979/80 and the first Monday in April thereafter.
Causes of incapacity are based on the International Classification of Diseases, shown in Table D1.01.
The shaded Causes of Incapacity are subgroups of the unshaded Causation group above and are therefore
included in that figure.
(1) From 1979/80 includes emphysema and asthma.
(2) From 1983/84 includes prescribed diseases.

Notes: $\quad$ From April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks' sickness absence in a tax year. From April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work. The table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment for benefit purposes, unless they occur within 8 weeks of a previous period of incapacity of 4 days or more. All causes of incapacity are based on the International Classification of Diseases, shown in Table D1.01. The shaded areas are subgroups of the unshaded group above, and are therefore included in that figure.From 1979/80 includes emphysema and asthma.
(2) From 1983/84 includes prescribed diseases.

Notes: From April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks' sickness absence in a tax year. From April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work. This table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment for benefit purposes, unless they occur within 8 weeks of a previous period of incapacity of 4 days or more. The statistical year starts on the first Monday in June for 1979/80 and the first Monday in April thereafter. Age at 31 May for 1979/80 and 31 March thereafter.

## D1.14 Spells of certified incapacity due to sickness and invalidity terminating between 5 April 1993 and 2 April 1994: by age and duration

Notes: $\quad$ The table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment for benefit purposes, unless they occur within 8 weeks of a previous period of incapacity of 4 days or more. From April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks' sickness absence in a tax year. From April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work. The benefit week is classed as being 6 days long (Sundays not counting for benefit). The benefit year therefore lasts 312 days in a 52 week year and 318 days in a 53 week year. The 1993/94 statistical period is a 52 week year. Duration of benefit excludes any preceding Statutory Sick Pay.

Notes: From 6 April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks' sickness absence in a tax year.
From 6 April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work.
This table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment for benefit purposes, unless they occur within 8 weeks of a previous period of incapacity of 4 days or more.
The end of the statistical year is the Saturday prior to the first Monday in April.
Age is at 31 March.

| 60 and over | 11 | 1 | 1 | 1 | 1 | 1 | - | - | 1 | 4 |

Notes: $\quad$ The table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment for benefit purposes, unless they occur within 8 weeks of a previous period of incapacity of 4 days or more.
(1) The benefit week is classed as being 6 days long (Sundays not counting for benefit). The benefit year therefore lasts 312 days in a 52 week year and 318 days in a 53 week year. The 1993/94 statistical period is a 52 week year. Duration of benefit excludes any preceding Statutory Sick Pay.

Notes: $\quad$ The end of the statistical year is the Saturday before the first Monday in June in 1979/80, and the Saturday before the first Monday in April thereafter.
Causes of incapacity are based on the International Classification of Diseases, shown in Table D1.01 The shaded Causes of Incapacity are subgroups of the unshaded Causation group above and are therefore included in that figure.
From April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks' sickness absence in a tax year. From April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work.
(1) From 1979/80 includes emphysema and asthma.
(2) From 1983/84 includes prescribed diseases.

Notes: $\quad$ The statistical year starts on the first Monday in April.
Age is at 31 March.
The table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment for benefit purposes, unless they occur within 8 weeks of a previous period of incapacity of 4 days or more.
From April 1983 Statutory Sick Pay was introduced for a maximum of 8 weeks' sickness absence in a tax year. From April 1986 Statutory Sick Pay is payable for up to 28 weeks in any one period of incapacity for work.

## D1.26 Spells of Invalidity Benefit terminating between 5 April 1993 and 2 April 1994: by age and duration

Thousands

| Age at <br> 31 March 1994 | $\begin{array}{r} \text { All } \\ \text { durations } \end{array}$ | Duration (week days) ${ }^{\text {© }}$ |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | 1 | 7 | 13 | 19 | 25 | 49 | 79 | 157 to | Over |
|  |  | to 6 | to 12 | to 18 | to 24 | to 48 | to 78 | to 156 | 312 | 312 |

[^21]This table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment for benefit purposes, unless it occurs within 8 weeks of a previous period of incapacity of 4 days or more.
(1) The benefit week is classed as being 6 days long (Sundays not counting for benefit). The benefit year therefore lasts 312 days in a 52 week year and 318 days in a 53 week year. The 1993/94 statistical period is a 52 week year. Duration of benefit excludes any preceding Statutory Sick Pay.

| 13 April 1995 | 58.85 | 35.25 | 9.85 | 11.05 | 12.40 | $6 \cdot 20$ |

Notes: (1) Incapacity Benefit introduced from 13 April 1995, replacing Sickness Benefit and Invalidity Benefit.
(2) The rate of age addition depends on age at date of onset of incapacity:
Higher rate
Under age 35
Lower rate
Age 35-44

Severe Disablement Allowance

For people who are unable to work
because of severe mental or physical disablement

[^22]
## Severe Disablement Allowance

Severe Disablement Allowance replaced Non-Contributory Invalidity Pension and Housewives Non-Contributory Invalidity Pension from 29 November 1984.

People who are incapable of work and do not satisfy the contribution conditions for Invalidity Benefit may get Severe Disablement Allowance (SDA). Claimants must be aged between 16 and 65 when they make their claim. There is no upper age limit for receiving the allowance once it has been awarded.

Claimants must have been incapable of work for at least 28 weeks. Anyone who became incapable of work before their 20th birthday may qualify on this basis alone. People who became incapable of work after their 20th birthday must also prove they have been $80 \%$ disabled for at least 28 weeks.

Introduced 29 November 1984
Non-contributory, Not means tested, Non-taxable
Like Invalidity Benefit claimants, SDA claimants can get extra money added to their allowance for any dependants. They can also get age additions. The amount of the addition depends on the claimant's age when they became incapable of work. However, the age bands for SDA are different from those for Invalidity Benefit.

In April 1992, the residence and presence conditions for Severe Disablement Allowance were substantially reduced.

## Source

Tables are based on a $1 \%$ sample of claimants whose National Insurance number ends in the digit 14 .

| 13 April 1995 | 35.55 | $12 \cdot 40$ | 7.80 | 3.90 | 21.15 | 9.85 | 11.05 |

Notes: (1) Age related additions were introduced from 3 December 1990 and depend on the claimant's age when incapacity for work began: Higher rate Under age 40 Middle rate Age 40-49 Lower rate

Age 50-59
(2) Non-contributory Invalidity Pension and Housewives Non-contributory Invalidity Pension were replaced by Severe Disablement Allowance from 29 November 1984.

## Attendance Allowance

Attendance Allowance (AA) is a benefit for people who are so severely disabled, physically or mentally, that they need someone with them to help with personal care. They could need either frequent help coping with their bodily functions or constant care to stop them hurting themselves or others. This could be either during the day or at night.

A claimant who needs help both during the day and at night can get the higher rate of Attendance Allowance. A claimant who needs help either during the day or at night gets the lower rate.

Introduced 6 December 1971
Non-contributory, Not means tested, Non-taxable
From October 1990, people who have a terminal illness, and are therefore not likely to live for more than 6 months, were also invited to claim.

Since April 1992, people who were disabled before the age of 65 receive Disability Living Allowance instead of Attendance Allowance.

## Source

Statistics are based on a $100 \%$ stock count. Figures are adjusted by an annual sampling exercise.

Notes: Estimated from a 100 per cent count of statistical records adjusted to reflect estimates of the extent to which they overstate the number of live cases. Estimates for the older age groups are particularly prone to error.
(1) From April 1990 the lower age limit for Attendance Allowance was abolished. From that date Attendance Allowance was available for severely disabled children under 2 years of age.
(2) Ages 2-4 before April 1990 and ages 0-4 from April 1990
(3) From April 1992 Disability Living Allowance replaced Attendance Allowance for people disabled before age 65.

Note:
(1) From April 1992 Disability Living Allowance replaced Attendance Allowance for people disabled before age 65.

## Attendance Allowance

Help for people with an illness or disability who are aged 65 or over
benefits
ba
agency

... if you have an illness or disability and are under 66

## Disability Living Allowance

Disability Living Allowance (DLA) is a benefit for people who become disabled before the age of 65 . It replaced and extended Attendance Allowance and Mobility Allowance. People who could not qualify for Mobility Allowance or Attendance Allowance can get the lower rates of DLA.

DLA is payable to people who are disabled and need help with personal care, getting around or both.

DLA consists of two components:

- the care component for people who need help with personal care, and
- the mobility component for people who need help with getting around.
Children under 5 cannot get the mobility component.

Introduced 1 April 1992
Non-contributory, Not means tested, Non-taxable
There are three rates of the care component and two rates of the mobility component, shown in table E2.09.
To get DLA the claimant must have needed help for three months (the qualifying period) and be expected to need help for at least a further six months (the prospective test). People who are not expected to live longer than six months because they have a terminal illness do not have to satisfy either the qualifying period or the prospective test. Once a claimant has been awarded DLA they will get it as long as they meet the conditions of entitlement.

## Disability Working Allowance

Disability Working Allowance (DWA) is a tax-free non-contributory income-related benefit. It tops up the earnings of some disabled people who are in low paid work. DWA is particularly aimed at people on long term incapacity benefits who have a limited earning capacity. It is meant to help them get back to work.

Claimants must be aged 16 or over, and work an average of 16 hours or more a week. They must have an illness or disability which puts them at a disadvantage in getting a job and

- get Disability Living Allowance, or Attendance Allowance, or a Constant Attendance Allowance with either a War Disablement Pension or with Industrial Injuries Disablement Benefit, or
a Mobility Supplement with a War
Disablement Pension, or
- have an invalid three-wheeler vehicle from the DSS, or
- have been receiving within the last 56 days either short-term Incapacity Benefit at the higher rate, long-term Incapacity Benefit or Severe Disablement Allowance or
- have been receiving within the last 56 days a disability or higher pensioner premium with either Income Support, Housing Benefit or Council Tax Benefit.

The amount of DWA awarded depends on the claimant's income, capital and family type as shown in table E3.06.

Net earnings are used to work out the family's total income. Net earnings are earnings after tax, National Insurance contributions and half of any contributions to any occupational or personal pension scheme are taken off. A claimant is also allowed up to $£ 40$ of formal child-care costs for children under 11. Some benefits are ignored, for example Child Benefit, Disability Living Allowance, Housing Benefit, Income Support and Council Tax Benefit. Most other types of income are taken into account in full.

Introduced 1 April 1992
Non-contributory, Means tested, Non-taxable
The first $£ 3,000$ of a claimant's capital is ignored. If the claimant has between $£ 3,000$ and $£ 16,000$ in savings, $£ 1$ a week is taken off their benefit for each $£ 250$, or part of $£ 250$, they have over $£ 3,000$. People who have more than $£ 16,000$ in savings or capital cannot get DWA.

Like Family Credit, DWA is paid for 26 weeks at a time. The amount of the award is not normally affected by changes in circumstances, even if the claimant stops working or they start to have more money coming in. If the claimant is awarded $£ 4$ a week or less, they will get this as a lump sum at the start of their claim.

Once they get DWA, the claimant and any dependants are automatically entitled to certain other welfare benefits if they have savings of not more than $£ 8,000$. The benefits are

- free NHS prescriptions
- free NHS dental treatment
- free NHS sight tests
- NHS vouchers to help with the cost of glasses
- refunds of travel costs to and from hospital for NHS treatment and
- free NHS wigs and fabric supports.

## Invalid Care Allowance

Introduced 5 July 1976
Non-contributory, Not means tested, Taxable

## Source

Statistics are based on a $100 \%$ count.

Invalid Care Allowance (ICA) is a non-contributory benefit for men and women

- who are eligible before their 65 th birthday
- who are not gainfully employed (ie not earning more than $£ 50$ per week after certain deductions) or in full-time education and
- who look after a severely disabled person for at least 35 hours a week.

The severely disabled person must be getting either

- the higher or middle rate of Disability Living Allowance care component or
- Attendance Allowance, or
- a Constant Attendance Allowance at the maximum rate under the War Pensions or Industrial Injuries Scheme.

Someone who gets ICA can have extra money added on for their dependants.

## War Pension

Pensions, allowances or other payments may be awarded where disablement or death is a result of service in HM Forces, or of an injury sustained as a result of war-time service in the Naval Auxiliary Service, or
the Mercantile Marine, or
a fishing fleet, or
a Civil Defence organisation.
Pensions, allowances or other payments may also be awarded to civilians whose disablement or death is the direct result of an injury sustained in World War Two.

## Disablement Pension

This is paid at a rate which varies according to the degree of disablement (see tables F1.07 and F1.08). The degree of disablement is assessed on a percentage basis by the Department's doctors.

## Treatment Allowance

This is equivalent to a disablement pension paid at the $100 \%$ rate. It may be paid instead of disablement pension to a pensioner who incurs a loss of earnings as a result of receiving treatment for their pensioned disablement.

## Unemployability Supplement

This may be paid to a pensioner whose pensioned disablement is so severe that they are unemployable or virtually unemployable. Additional allowances may be paid for a spouse and a child or children.

## Invalidity Allowance

This may be paid to a pensioner receiving Unemployability Supplement. The rate varies according to the age at which unemployability began.

## Constant Attendance Allowance

This may be paid to a pensioner who needs regular personal attention because of their pensioned disablement. It is payable at one of four rates. The rate varies according to the level of attendance they need. It may also be paid to those pensioners who have a life expectancy of no more than 6 months because of their pensioned disablement. In these cases it is paid regardless of the pensioner's need for attendance.

Introduced 1918
Non-contributory, Not means tested, Non-taxable

## Severe Disablement Occupational Allowance

This may be paid to a pensioner who is entitled to Constant Attendance Allowance at one of the two highest rates, but who still normally has a gainful occupation.

## Exceptionally Severe Disablement Allowance

This may be paid to a pensioner who is receiving Constant Attendance Allowance at one of the two highest rates, or would be receiving it if they were not in hospital.

## Allowance for Lowered Standard of Occupation

This may be paid if a pensioner's earning capacity is reduced because their pensioned disablement permanently prevents them following their regular occupation. This allowance plus their basic War Disablement Pension cannot exceed the $100 \%$ disablement pension rate.

Age Allowance
This may be paid to a pensioner (man or woman) who is aged 65 or over and whose disablement is assessed at $40 \%$ or more.

## Clothing Allowance

This may be paid if the disablement causes exceptional wear and tear on clothing.

## Comforts Allowance

This may be paid to a severely disabled pensioner who is receiving Constant Attendance Allowance or Unemployability Supplement or both. It is intended to help with the extra expenses associated with severe disablement.

## War Pensioners' Mobility Supplement

This is intended to help with the mobility costs of a pensioner who is unable to walk, or virtually unable to walk, because of their pensioned disablement. It is also paid to double amputees and to those pensioners who need help getting about because they are both deaf and blind as a result of their pensioned disablement.

## Temporary Allowance for Widows

This may be paid to a widow, irrespective of the cause of her husband's death, if he was awarded Unemployability Supplement or Constant Attendance Allowance or both. The allowance is approximately equal to the disablement pension and allowances paid to her late husband. It is paid for the first 26 weeks of widowhood.

## War Widow's Pension

The standard rate of pension may be paid if the widow

- has a dependant child, or
- is over 40 , or
- is incapable of self-support.

The lower rate is paid to childless widows under the age of 40 . If the husband was receiving Constant Attendance Allowance, a War Widows Pension is awarded automatically irrespective of the cause of his death.

## Rent Allowance

A war widow with a child or children may be eligible for a rent allowance.

## Elderly Widow's Age Allowance

A war widow may receive an additional allowance at age 65 which is increased at age 70 and again at age 80.

## Orphan's Pension

This may be payable to a child who has lost both parents.

## Funeral Expenses

The Department may pay funeral expenses if the pensioner

- died as a result of his pensioned disablement, or
- died while having treatment for that disablement in hospital, or
- was entitled to Constant Attendance Allowance.

INDUSTRIAL INJURIES DISABLEMENT BENEFIT

INDUSTRIAL INJURIES

# Industrial Injuries Disablement Benefit 

## Industrial Injuries Disablement Benefit (IIDB)

People who are disabled because of an industrial accident or prescribed industrial disease may be able to get Industrial Injuries Disablement Benefit.

The customer cannot get IIDB until 90 days after the date of the accident or the date they started to suffer from the prescribed disease.

To get the basic benefit the customer needs a medical assessment of the degree of their disability caused by the injury or disease. This is expressed as a percentage. A customer who claimed IIDB before 1 October 1986 got benefit whatever their degree of disablement. If they were assessed as being less than $20 \%$ disabled they normally got a lump sum gratuity. How much they got depended on the degree of their disability and the period of assessment. Since 1 October 1986 any claim resulting in an assessment of less than 14\% disabled does not normally attract benefit, unless the disability is caused by pneumoconiosis, byssinosis, or diffuse mesothelioma.

If a customer claims benefit for more than one disability, the assessments can be added together and benefit awarded on the total. If a customer is assessed as being $14 \%$ disabled or more, they will be paid a weekly disablement pension. How much they get depends on the percentage of their disability. If they are assessed as being $14 \%$ to $19 \%$ disabled, they are paid at the $20 \%$ rate. If they are assessed as over $20 \%$ disabled their assessments are rounded up or down to the nearest $10 \%$. For example $34 \%$ would be rounded down to $30 \%$, and $35 \%$ would be rounded up to $40 \%$.

The customer's occupation or any loss of earnings are not taken into account in the assessment of their disability, but they can get allowances added to their basic benefit (table F2.12). If the customer is entitled to other Social Security benefits, these will be paid as well as IIDB.

## Unemployability Supplement (US)

A disabled pensioner who cannot work
because of their disability, and is unlikely ever
to work again, can get Unemployability
Supplement. From 8 April 1987
Unemployability Supplement was withdrawn
for new customers and only pensioners who were already on it are now able to get it. They can have extra money added on for any dependants. They can also get an age increase as for Invalidity Benefit. The disabled person cannot get Unemployability Supplement and Reduced Earnings Allowance for the same period. Nor can they get it for the same period as an Unemployability Supplement paid with a War Pension. If they are entitled to Sickness or Invalidity Benefit, Severe Disablement Allowance or Retirement Pension at the same time as Unemployability Supplement, the amount of the other benefits may be adjusted.

## Constant Attendance Allowance (CAA)

This allowance can be paid to a person who is receiving Industrial Injuries Disablement Benefit at the $100 \%$ rate and who needs constant care and attention because of the effects of the industrial injury or disease. There are four rates depending on the amount of care needed. If the disabled person is already entitled to either Attendance Allowance (AA) or the care component of Disability Living Allowance (DLA), the amount of AA or DLA they get will change.

Exceptionally Severe Disablement

An exceptionally severely disabled pensioner who is already entitled to Constant Attendance Allowance at one of the two higher rates may get Exceptionally Severe Disablement Allowance. They must also be likely to need the same amount of care permanently.

## Reduced Earnings Allowance (REA)

A customer may be able to get REA if they are assessed as $1 \%$ disabled or more because of their injury or disease, and they cannot go back to their normal job or one like it. Their disability must have started before 1 October 1990. The amount the customer gets is the difference between the wage in their normal job and the wage of any job they are capable of doing. The amount they get cannot be more than a specified maximum rate. Nor can they get more than $140 \%$ of the maximum disablement pension rate if they add the allowance and their IIDB together. If the customer does not get IIDB because of the

14\% rule, they can still get Reduced Earnings Allowance if they are assessed as being at least $1 \%$ disabled. If a customer had an industrial accident or started to suffer from the prescribed disease on or after 1 October 1990 they cannot get Reduced Earnings Allowance.

## Retirement Allowance (RA)

Customers who get REA of $£ 2$ a week or more, who reach State pension age and give up regular work may get Retirement Allowance instead of Reduced Earnings Allowance. They get Retirement Allowance at 25\% of their rate
of REA. If the customer is getting less than $£ 2$ REA it stops when they reach State pension age. They do not get Retirement Allowance instead.

## Source

Statistics are based on a $10 \%$ sample consisting of disablement beneficiaries whose National Insurance number ends in the digit 4.

F2.01 and F2.02-100\% count.
F2.03 to F2.11 excluding F2.05-10\% sample.

Notes: Before October 1986 a lump sum gratuity was normally paid for assessments of less than $20 \%$. A pension was paid for assessments for pneumoconiosis and byssinosis, and where Special Hardship Allowance was payable. From 1 October 1986 assessments in the $14 \%$ to $20 \%$ range are paid as a pension of $20 \%$. No payment is made for assessments of less than $14 \%$ except for pneumoconiosis, byssinosis and diffuse mesothelioma.

Notes:
An increase corresponding to invalidity allowance is payable for dependants - see Table D1.27.
2) Before October 1986 Reduced Earnings Allowance was known as Special Hardship Allowance. Rates shown are maximum amounts payable.
(3) Introduced in April 1989.

## Industrial Death Benefit

Before 11 April 1988 Industrial Death Benefit (IDB) was paid after a person died from an industrial accident or disease. It could be paid as a pension, allowance or lump sum. Parents, certain dependant relatives and a woman looking after children of the deceased could qualify for the benefit.

Only a certain amount of benefit could be paid for any one death. A widow receives a pension. For the first 26 weeks she gets a higher rate, then the permanent rate of pension depending on her age and circumstances. Some widowers also got a weekly pension. Allowances are paid for each qualifying child of the deceased.

Introduced 5 July 1948
Non-contributory, Not means tested, Taxable
Industrial Death Benefit is not paid for deaths which happened on or after 11 April 1988.
Instead, the widow gets National Insurance Widow's Benefit.

## Other Industrial Injuries

Workmen's Compensation<br>Supplementation Scheme

Introduced 11 July 1951
The claimant can get allowances under this scheme if they are entitled to weekly payments of compensation under the Workmen's Compensation Acts. The compensation must be for an injury or disease they got before 5 July 1948. If the claimant has been entitled to weekly payments of workmen's compensation at any time since the relevant laws were introduced, they can also get help under this scheme.

Non-contributory, Not means tested, Non-taxable

## Pneumoconiosis, Byssinosis and Miscellaneous Diseases Benefit Scheme

## Introduced 10 March 1952

If a claimant is not entitled to help under the Workmen's Compensation Acts, or the Industrial Injuries provisions of the Social Security Act, they may get help under this scheme. The scheme provides benefits for people who are disabled or die from a specified prescribed disease resulting from a job they finished before 5 July 1948.

## Medical Boarding Centres (Respiratory Diseases)

Medical Boarding Centres (Respiratory Diseases) are staffed by doctors who are specialists in respiratory diseases caused by work. If a person claims benefit for one of the respiratory diseases covered by the Industrial Injuries scheme, they are normally sent for a chest X-ray and a clinical examination by a Special Medical Board (SpMB). The SpMB consists of two specially qualified doctors. If the SpMB decide that a claimant is suffering from one of the prescribed diseases, they go on to assess the degree of disablement. They compare the condition of the claimant with the condition of a normal healthy person of the same age and sex.

If a person claims benefit for pneumoconiosis, they are sent for a chest X-ray which is looked at by a doctor at the centre. If the X-ray, together with any other evidence, suggests any possibility that they have pneumoconiosis, then the claimant is sent for a clinical examination by a SpMB . The SpMB always examines claimants who have been exposed to asbestos dust or slate dust. The claimant has the right of appeal to be examined by a SpMB if their claim for pneumoconiosis is disallowed without a clinical examination.

If the SpMB decide that a claimant is suffering from pneumoconiosis, they go on to assess the degree of the claimant's disability. The assessment takes account of all the claimant's disabilities which result directly from pneumoconiosis. The SpMB will take into account any other condition (for example chronic bronchitis or emphysema) which makes the pneumoconiosis more disabling, even if it is not caused by the pneumoconiosis. They can increase the claimant's assessment to take account of this. The SpMB applies special rules to people whose disablement from pneumoconiosis is assessed at $50 \%$ or more and who also have chronic bronchitis or emphysema. They also use different rules for people with tuberculosis.

The assessment of a claimant's disablement from one of the respiratory diseases may be for a limited period. Towards the end of the period a SpMB will examine the beneficiary again. This SpMB can change the assessment of the claimant's disablement.

| 1993 | 4,229 | 5,755 | 831 | 1,568 | 27 | 79 | 3,250 |
| 1994 | 3,083 | 6,548 | 991 | 2,025 | 17 | 27 | 3,488 |

Notes: This table excludes cases under the Pneumoconiosis, Byssinosis and Miscellaneous Diseases Benefit Scheme 1966. The figures relate to cases seen in connection with claims for disablement or injury benefit under the industrial injuries scheme (from 21 June 1965 for farmer's lung, and from 27 November 1974 for beryllium, cadmium and nitrous fumes poisoning and cancer in certain nickel workers). The figures exclude cases diagnosed by Medical Appeal Tribunals which are no longer available.

## Child Benefit

Before April 1977 families with two or more children could get Family Allowance. From 5 April 1977 Child Benefit replaced Family Allowance and brought all children into the scheme. Child Benefit is normally paid for children up to the age of 16 . If a child is in full-time non-advanced education (ie up to A-level standard) at a recognised educational establishment, benefit may be paid for them until they are 19.

Child Benefit can also be paid for a short period for 16 or 17 year olds who have just left school and are registered for work or a Youth Training Scheme.

## One Parent Benefit

One Parent Benefit was introduced in April 1977. It replaced Child Benefit Increase which was paid from April 1976. It is a weekly benefit paid for the eldest dependant child. Claimants must be bringing up a child or children alone. This may be because they are single, widowed, divorced or permanently separated. The claimant does not need to be the parent of the child.

One Parent Benefit will not be paid if the claimant

- is living with someone as though they were husband and wife, or
- is living apart temporarily because their partner is in hospital or some other reason, or
- has been separated for less than 13 weeks, unless they are legally separated or divorced, or
- is bringing up someone else's child and the parent lives at the claimant's address, or
- is getting Child's Special Allowance for the eldest dependant child or the higher rate of Industrial Death Benefit for the child, or
- is getting an increase for the eldest dependant child with either Widowed Mother's Allowance, War Widow's Pension, Retirement Pension, Industrial Disablement Pension (which includes Unemployability Supplement), or Invalid Care Allowance.

Introduced 5 April 1977
Non-contributory, Not means tested, Non-taxable

## Source

Statistics are based on a $1 \%$ sample consisting of beneficiaries whose Child Benefit number ends in 17. Late notifications received up to and including 31 March of the following year are included.

All tables include children and families living overseas.

Introduced 6 April 1976
Non-contributory, Not means tested, Non-taxable

## Source

Statistics are based on a $1 \%$ sample consisting of beneficiaries whose Child Benefit number ends in 17. Late notifications received up to and including 31 March of the following year are included.

## Child Support Agency

The Child Support Agency (CSA) was launched on 5 April 1993. It is an executive agency of the Department of Social Security set up to implement the Child Support Act 1991 and operate the new child maintenance system in the United Kingdom (there is a separate but parallel agency for Northern Ireland).

The purpose of the Child Support Act is to ensure that parents who live apart both maintain their children whenever they can afford to do so.

The CSA's main clients are:

## Parents with care

These are parents who are looking after their children, but who do not live with the child's other parent. The parent with care may have a new partner, but they can still claim maintenance for their children from the other parent.

## Persons with care

These are people who look after children who are not their own, and at least one of the children's parents is alive and living elsewhere.

Children in Scotland who are 12 or older These children can apply for maintenance on their own behalf, if at least one of their parents does not live with them.

## Absent parents

These are parents who do not live with their children, but should be contributing to their children's maintenance.

Applicants to the agency give their details on a Maintenance Application Form. Absent parents fill in a Maintenance Enquiry Form.

## Source

Table G2.01 is a $100 \%$ count of all cases. Figures are based on information from the Child Support Computer System (CSCS) and clerical counts in Local Offices.

Tables G2.02 to G2.08 are based on a $1 \%$ sample consisting of open cases where the MAF had been returned. Figures for these tables are wholly based on information from the CSCS.

All tables relate to Great Britain.

## Widows' Benefit

A widow is entitled to National Insurance Widows' Benefits if her late husband met the contribution conditions. If he fully satisfied the conditions, she will get the standard rate of benefit shown in Tables G3.15 and G3.17, otherwise she will get a reduced rate.

For women widowed on or after 11 April 1988, the benefits are:

## Widow's Payment (WPT)

This is a single tax-free payment of $£ 1,000$ paid to a widow who is under 60 when she is widowed. It can also be paid to a widow over 60 if her husband was not entitled to a Category A retirement pension when he died.

## Widowed Mother's Allowance (WMA)

Widowed Mother's Allowance (WMA) can be paid to a widow

- as long as she is entitled to Child Benefit for at least one qualifying child, or
- she is pregnant by her late husband, or
- in certain cases of artificial insemination.

Child dependency increases are paid for each child.

## Widow's Pension (WP)

A widow who is 45 or over when she stops being entitled to WMA, or when she is widowed, can get Widow's Pension. If she is 55 or over at that time she will get the standard rate of benefit. Younger widows have their pension reduced by $7 \%$ for each year they are under the age of 55 , so that they get $93 \%$ rate at age 54, falling to $30 \%$ at age 45 (see Table G3.17). This reduction is also applied to any Additional Pension they get.

## Additional Pension

This part of Widowed Mother's Allowance and Widow's Pension is based on earnings. The amount payable is based on the husband's earnings between the Lower and Upper Earnings Limits for payment of National Insurance contributions in tax years from April 1978 up to the last complete tax year before his death or age 65 if earlier. Earnings for the years before the last complete tax year are revalued in line with the growth in average earnings. If he was in contracted-out employment or had a Personal Pension instead of SERPS, the widow's Additional Pension is reduced by half the Guaranteed Minimum Pension (or its equivalent) that her

Introduced 6 July 1948
Contributory, Not means tested, Taxable
husband was entitled to. This is the
Contracted Out Deduction (see tables G3.10 and G3.11).

## Notional Additional Pension

This is the entitlement to Additional Pension before reduction for Contracted Out Deduction.

## Net Additional Pension

This is the entitlement to Additional Pension after reduction for Contracted Out Deduction.

For women widowed before 11 April 1988, the benefits are:

## Widow's Allowance

This was paid instead of Widow's Payment, in the same circumstances. It was an especially high rate of benefit paid to the widow for the first 26 weeks after her husband died. She got extra money for each dependant child.

## Widowed Mother's Allowance

- paid as above. It was also paid at a personal rate only, if the widow had at least one child aged under 19 living with her, that she would have got an increase for had they been eligible for Child Benefit.

## Widow's Pension

This was for widows who were at least 40 years old either when their husband died or when they stopped being entitled to WMA. Widows aged 50 or over got the standard rate.

## Frozen and non-frozen rate countries

Widows living abroad can get Widows' Benefits. Widows who live in countries with cannot get upratings of benefit. These countries are shown in Table G3.04 as 'frozen rate countries'. People living in 'non- frozen rate countries', which include the members of the European Union, get their benefits uprated in the same way as those living in Great Britain.

## Source

Tables G3.01, G3.02 and G3.04 to G3.14 are based on a $10 \%$ sample of widow beneficiaries.

## Guardian's Allowance

## Child's Special Allowance

## Guardian's Allowance

This is a National Insurance benefit paid to someone who is bringing up a child or children whose parents have died. It is paid as well as Child Benefit. One of the parents must have satisfied a residence condition before they died. In certain very limited circumstances, it can be paid when only one parent is dead, when for example the other parent is missing and cannot be found.

Introduced 5 July 1948
Non- contributory, Not means tested, Non-taxable
Introduced 18 November 1957
Contributory, Not means tested, Non-taxable

## Child's Special Allowance

This allowance is paid to a divorced woman whose former husband has died. She cannot get it if she has remarried or is living with a man as his wife. She must have a qualifying child living with her and her former husband must have been contributing, or have been liable to contribute, towards that child's maintenance. She can get extra money added to the allowance for other qualifying children. The former husband must have satisfied certain National Insurance conditions.

If the former husband died on or after 6 April 1987, his wife cannot make a new claim for this allowance.

A guide to babies and benefits for expectant and new mothers

## Maternity Benefits

## Maternity Allowance

A woman who has worked and paid full National Insurance contributions in the relevant test period can get this allowance. It is paid for 18 weeks, at the earliest starting 11 weeks before the baby is due. If the woman does any paid work during this period, she cannot get the allowance for that time.

From 6 April 1987 most women who work for an employer and who pay Class 1 National Insurance contributions are entitled to Statutory Maternity Pay which employers are liable to pay. Because of changes introduced under the EC Directive on the protection of pregnant women at work, employed women expecting babies on or after 16 October 1994 get extra Statutory Maternity Pay and Maternity Allowance. Women who are not employees in the 15th week before the baby is due get the lower rate of Maternity Allowance.

Introduced 5 July 1948
Contributory, Not means tested, Non-taxable

## Maternity Grant

This was a National Insurance lump sum benefit paid to women who gave birth before 4 July 1982. It was paid if either the mother or her husband satisfied the contribution conditions. If the mother had a multiple birth, she would get more than one grant. All mothers who gave birth between 4 July 1982 and 5 April 1987 could get the grant if they could satisfy a simple test of presence in Great Britain. During this time the grant was non-contributory. Since April 1987 the Social Fund pays Maternity Grants based on need (see Table A5.01)

## Source

Statistics are based on a $1 \%$ sample of maternity benefit payments.
G5.01-2.5\% sample to June 1982, 2\% sample to June 1987 and $1 \%$ thereafter.

Notes:
Since April 1987 payment of Maternity Grant is based on needs and is made from the Social Fund. Half and three-quarter rates were abolished from 20 December 1986
(2) Child dependancy addition was abolished from 26 November 1984.
(3. The woman must be an employee in the 15th week before the baby is expected (the qualifying week).

From 16 October 1994, the lower rate applies for women who are not employees in the qualifying week.

## Contributions

There are five classes of contribution:

- Class 1 earnings-related contributions paid by employed earners and their employers
- Class 1A contributions paid on the use of company cars
- Class 2 contributions paid by self-employed contributors at a flat rate
- Class 3 contributions paid voluntarily by non-employed persons and others
- Class 4 contributions paid by certain self-employed people on profits or gains.

A proportion of the income from Class 1, Class 1A, Class 2, Class 3 and Class 4 contributions is allocated to the National Health Service.

Class 1 earnings-related contributions
These consist of two elements. Employed earners pay Primary Class 1 contributions. Their employers pay their secondary contributions.

Employed earners are people who are gainfully employed in Great Britain. They could be

- employed under a contract of service
- in an official position, including elective office, whose earnings are taxable under schedule E of Income Tax law. This includes people like company directors.
- treated as employed earners under the law.

When the earnings they get from their job reach the Lower Earnings Limit (LEL), an employee has to pay Class 1 contributions. The rate of contribution depends on whether or not they are contracted out of the State earnings related pension scheme (SERPS). For employees who are not contracted out, the rate of contribution is the same on all earnings up to the Upper Earnings Limit (UEL). Employees and their employers who are contracted out pay lower primary and secondary contributions on the earnings between the Lower and Upper Earnings Limits.

People who reach State pension age ( 65 for men, 60 for women) do not have to pay primary contributions. Their employers pay secondary contributions at the not contracted-out rate.

The government introduced a sliding scale of contributions in October 1985. Lower paid employees and their employers paid reduced rates of contributions. To finance this change employers had to pay secondary contributions at the not contracted-out rate on earnings above the Upper Earnings Limit.

In October 1989, the government introduced a new structure for employees' contributions. The employee pays $2 \%$ on earnings up to the Lower Earnings Limit and then at the standard not contracted-out or contracted-out rate on earnings between the Lower and Upper Earnings Limits. From 6 April 1977 to 1 October 1984, secondary Class 1 contributions also included an amount for the National Insurance Surcharge. This was part of the government's general tax revenue.

## Class 1A contributions

These were introduced in April 1991 for employers who give their employees a company car. The rate is $10.2 \%$ of the benefit to the employee for the car, and the fuel it uses.

## Flat-rate Class 2 contributions

These are paid by people who are normally self-employed. If they expect their earnings from self-employment to be less than a specified annual limit they can, on application, be excepted from liability to pay.

## Class 3 contributions

These are voluntary contributions paid by earners or non-employed people. They can pay Class 3 contributions in order to qualify for certain benefits if they have not paid enough Class 1 or Class 2 contributions during the tax year.

## Class 4 contributions

Self-employed earners pay Class 4 contributions on profits or gains chargeable to Income Tax under Cases I and II of Schedule D. The contribution is a percentage of annual profits or gains between a lower and upper limit. A person whose income comes partly from employment and partly from self-employment may have to pay Class 1, Class 2 and sometimes Class 4 contributions. However, if they end up paying more than a specified amount, they get the extra money back.

## Reduced rate contributions

Until 5 April 1977, all married women and some widows could choose to pay contributions at a reduced rate. They could continue to pay the reduced rate if they already had the right on 5 April 1977, or if they chose the right to pay the reduced rate before 12 May 1977. They lose this right if their marriage ends by divorce or annulment, or if they have no earnings on which Class 1 contributions are payable in any two consecutive tax years after 5 April 1978, unless they are self-employed.

The reduced rate for Class 1 contributions is $3.85 \%$ of earnings up to the Upper Earnings Limit if the woman is employed. Women pay no Class 2 contributions if they are self-employed, but do have to pay Class 4 contributions. They are not allowed to pay Class 3 contributions. A woman does not qualify for benefit if she is paying reduced rate contributions. If she is working as an employed earner she will be covered for Industrial Injury benefit, and she may be able to claim Statutory Sick Pay and Statutory Maternity Pay.

## Credits

People can be credited with contributions when incapacity for work or unemployment can be proved, or when they are entitled to Invalid Care Allowance. Credits can also be given in certain other circumstances where they are needed to maintain entitlement to benefit. Married women who pay reduced rate contributions cannot get credits.

Since April 1983 men are automatically credited with contributions for the tax year in which they reach 60 and for the following four years. These credits cover any gap in their record when they did not have to pay Class 1 or Class 2 contributions. They cannot get these credits for any tax year before $1983 / 84$. Nor can they get them for any part of a tax year during which they spent more than 182 days abroad.

## Home Responsibilities Protection (HRP)

Since April 1978 people who cannot work because of caring commitments at home can claim Home Responsibilities Protection. When calculating entitlement to Retirement Pension, the number of years in the person's working life is reduced by the number of complete tax years they spent at home. The number of years left over cannot be reduced to less than 20. A woman who has paid reduced rate contributions for any part of a year cannot get HRP for that year.

## Source

Statistics are based on a $1 \%$ sample consisting of contributors whose National Insurance number ends in 14. Before 1980 the statistics were based on a $2 \%$ sample of contributors whose National Insurance number ended in 14 or 84 .

Note: (1) If earnings from self-employment were expected to be below this limit, a self-employed person could, on application, be excepted from liability to pay Class 2 contributions.

## Personal Pensions

## Occupational Pensions

Employers' pension schemes can be contracted out of the State earnings-related pension scheme (SERPS). If the employee receives a contracted-out occupational pension, it takes the place of some of the SERPS element of the state scheme. Therefore, both employers and employees pay lower rates of National Insurance contributions.

Appropriate Personal Pensions (APPs) Appropriate Personal Pensions (APPs) are pensions which meet certain conditions. Employees can use these pensions in place of part of SERPS. APPs were introduced in July 1988. However, until 5 April 1989 the employee could backdate the start of the scheme to the 1987/88 tax year.

With an APP, the employer and employee pay National Insurance contributions at the not contracted-out rate. The DSS then pays the

APP provider an amount equivalent to the contracted-out rebate, plus an age-addition for any APP holders who are aged 30 or over. The APP provider also gets basic tax relief on the employees share of the rebate.

The contracted-out rebate is based on the earnings on which the employer and employee pay Class 1 National Insurance contributions, up to the employee's Upper Earnings Level, the UEL. (see Table H1.05)

The fund produced by an APP is based on the amount of contributions paid in and their investment return.

## Source

Statistics are based on a $1 \%$ sample consisting of contributors whose National Insurance numbers end in 14.

Note:
Point in time figures are extracted from Contracted Out Employment Group (COEG) statistics. The total at 5 April 1993 was 5.1 million.

## Low Income Statistics

This section gives information on people on the lowest incomes in the United Kingdom. Tables H3.01 to H3.04 are from Households Below Average Income: A Statistical Analysis 1979-1992/93 (see Appendix 3). The Households Below Average Income (HBAI) series provides estimates of patterns of personal disposable income and of changes over time, focusing particularly on the lower part of the income distribution. HBAI is derived mainly from the Family Expenditure Survey (FES).

## Family Expenditure Survey (FES)

The FES is a continuous survey of about 11,000 private households in the UK. People who do not live in private households, for example people who live in institutions, hostels and boarding houses, are not included. Each adult member of the selected households is asked to give a detailed breakdown of their income and expenditure. About 70\% of households co-operate.

Estimates for 1992/93 are based on two years FES data combined.

## Low Income Statistics

Real Income growth by decile
group, 1979 to 1992/93 ${ }^{\circ}$

Income growth (\%)

(1) The graph shows the change in income between a particular group in the income distribution in 1979 and the group occupving the position in the income distribution in 1992/93. The data on which the graph is based does not track individuals over time; the graph does not therefore show the change in income between a particular group of individuals in 1979 and those same individuals in 1992/93.

## Take-Up of Income Related Benefits

Take-up is measured by caseload and by expenditure. Expenditure take-up compares the total amount of benefit paid during a year to the total amount that would be paid if everyone took up their entitlement. Caseload take-up compares the number of benefit recipients (averaged over a year) with the number who would receive benefit if everyone took up their entitlement.

Take-up estimates for Housing Benefit and Income Support are given as ranges because point estimates are not reliable enough. There are several reasons for this.
Entitlement to Income Support and Housing Benefit is estimated using data from the Family Expenditure Survey which can be inaccurate or insufficiently detailed. Sometimes the people surveyed do not report receipt of a benefit because they have confused it with something else such as Retirement Pension. Converting the sample results into nationally representative estimates for the whole population may also introduce inaccuracies. Other errors arise if claimants are paid benefits to which they are not entitled. The ranges used in the tables are reached by assessing the combined impact of all these problems. Thus they give the best estimates of true take-up. Take-up estimates for Family Credit are not presented as ranges, but there is still some margin of error. It is difficult to assess the effect of errors on Family Credit take-up because the rate of benefit is awarded for six months at a time. Any change in the claimant's circumstances during this time does not affect their entitlement to the benefit.

People who live in residential care and nursing homes or in bed and breakfast accommodation are not included in the take-up estimates for the three benefits as the Family Expenditure Survey only covers private households. There is not sufficiently detailed information on the incomes of the full-time self-employed to allow a reliable assessment of their benefit entitlement, so they too are not included in the estimates. The take-up estimates were published in Income Related Benefits: Estimates of TakeUp in 1992.

In these tables average amounts are rounded to the nearest 5 p. Claimed amounts are rounded to the nearest $£ 10$ million and caseload figures are rounded to the nearest 10,000 .

## Source

Statistics are based on the 1992 Family Expenditure Survey and 1992 annual and quarterly Income Support Statistical Enquiries, and administrative data for Housing Benefit and Family Credit.

## Contents

Table Page
H4.01 Income Support expenditure and caseload based estimates 1992 ..... 339
H4.02 Family Credit expenditure and caseload based estimates 1991 and 1992 ..... 339
H4.03 Housing Benefit expenditure and caseload based estimates 1992 ..... 340

## H4.01 Income Support expenditure and caseload based estimates, 1992

| Expenditure-based take-up | $84 \%-93 \%$ |
| :--- | ---: |
| Value of Income Support: | £m pa |
| Claimed | 10,030 |
| Unclaimed range | $800-1,920$ |
| Apw |  |
| Average award | $36 \cdot 70$ |
| Average unclaimed amount | $24 \cdot 00$ |
| Caseload based take-up | $77 \%-87 \%$ |
| Number of | 000 s |
| Recipients | 5,250 |
| Entitled non-recipients | $770-1,570$ |

Notes: $\quad$ The average weekly amount unclaimed is a single estimate since insufficient information is available to allow
identification of a range. In practice, the 'total' average amount unclaimed will depend on where the count of entitled
non-recipients, for each family type, lies within its range. The data does not allow a strict reconciliation of the caseload
and expenditure range limits with the average unclaimed amounts.

## H4.02 Family Credit expenditure and caseload based estimates, 1991 and 1992

| Expenditure based take-up | $73 \%$ |
| :--- | ---: |
| Value of Family Credit | £m pa |
| Claimed | 560 |
| Unclaimed | 200 |
|  | £pw |
| Average award | $33 \cdot 25$ |
| Average unclaimed amount | 23.75 |
| Caseload-based take-up | $66 \%$ |
| Number of | 000 s |
| Recipients | 320 |
| Entitled non-recipients | 160 |

## H4.03 Housing Benefit expenditure and caseload based estimates, 1992

| Expenditure based take-up | $91 \%-95 \%$ |
| :--- | ---: |
| Value of Housing Benefit | £m pa |
| claimed | 6,410 |
| unclaimed range | $330-610$ |
| Average award | £pw |
| Average unclaimed amount | $28 \cdot 80$ |
| Caseload based take-up | 19.20 |
| Number of | $88 \%-93 \%$ |
| Recipients | 000 s |
| Entitled non-recipients | 4,290 |

## Notes:

The average weekly amount unclaimed is a single estimate since insufficient information is available to allow identification of a range. In practice, the 'Total' average amount unclaimed will depend on where the count of entitled non-recipients, for each family type, lies within its range. The data does not allow a strict reconciliation of the caseload and expenditure range limits with the average unclaimed amounts.

## Appeals and Referrals

The Independent Tribunal Service (ITS) is responsible for the administration of social security and medical appeals. It is independent of the DSS.

In the tables the definitions used are - Registrations

Appeals and referrals that are registered with a Tribunal for a decision. They include appeals and referrals which the ITS had registered in previous years but were still outstanding at the end of that year.

- Appeal

An appeal to a Tribunal against an Adjudication Officer's decision.

- Referral

A claim or question referred by an
Adjudication Officer for a Tribunal decision.

- New lodgement

An appeal or referral registered during that year.

- Appeal lapsed on review

A review by an Adjudication Officer of their original decision, which results in a revised decision in the appellant's favour.

- Appeal not admitted An appeal that the Tribunal will not take on because it is outside their jurisdiction.
- Outstanding

An appeal or referral that is registered with a Tribunal for a decision which is not settled by the end of the period.

## Source

Statistics are based on a $100 \%$ count from ITS records.

## Sampling Error

Because most of the statistics in this publication are based on sample surveys they are subject to sampling error, which is measured by a statistics known as the standard error. For samples of 30 or more the standard error is approximately the square root of the number of cases in the sample. There is a $95 \%$ probability that the true value falls within two standard errors of the grossed up sample value; this range is known as the $95 \%$ confidence interval.

When there are fewer than 30 observations in the sample, the calculation of confidence limits is slightly more complicated.

In the following table, specimen estimates are shown together with the ranges which represent the $95 \%$ confidence limits for these estimates. Sampling fractions of $1 \%, 5 \%$ and $10 \%$ have been used.

The above method cannot be applied to estimating the sampling error associated with averages, such as average weekly rate of allowances. The standard errors of these figures depend on the variability of the values averaged as well as the sample size.

| Estimated <br> value | $95 \%$ confidence interval <br> $5 \%$ sample |  |  |
| :--- | :---: | :---: | :---: |
|  |  |  | $10 \%$ sample |
| 100 | 2 to 555 | 33 to 230 | 50 to 180 |
| 250 | 46 to 795 | 134 to 438 | 165 to 363 |
| 500 | 163 to 1,164 | 304 to 696 | 361 to 639 |
|  |  |  |  |
| 1,000 | 481 to 1,835 | 723 to 1,277 | 804 to 1,196 |
| 2,500 | 1,520 to 3,480 | 2,062 to 2,938 | 2,190 to 2,810 |
| 5,000 | 3,614 to 6,386 | 4,380 to 5,620 | 4,562 to 5,438 |
|  |  |  |  |
| 10,000 | 8,040 to 11,960 | 9,123 to 10,877 | 9,380 to 10,620 |
| 25,000 | 21,901 to 28,099 | 23,614 to 26,386 | 24,020 to 25,980 |
| 50,000 | 45,617 to 54,383 | 48,040 to 51,960 | 48,614 to 51,386 |
|  |  |  |  |
| 100,000 | 93,802 to 106,198 | 97,228 to 102,772 | 98,040 to 101,960 |
| $1,000,000$ | 980,400 to $1,019,600$ | 991,235 to $1,008,765$ | 993,802 to $1,006,198$ |

## Appendix 3

## Related Publications

A full list of statistical publications produced by the Department of Social Security is set out in Analytical Services Division Publications, available from:
ASD Secretariat, DSS, 10th Floor, Adelphi, 1-11 John Adam Street, London WC2N 6HT.
Some of the major publications are listed below.

## Income Support

Income Support Statistics Quarterly Enquiry gives detailed analyses of Income Support recipients based on a $5 \%$ sample. Publications are available nine months after the enquiry date. Copies are available from the ASD Secretariat.

## Prices and Earnings

The Abstract of Statistics for Social Security Benefits and Contributions and Indices of Prices and Earnings shows changes in rates of contributions and benefits since July 1948 compared with prices and earnings. The 1995 edition is obtainable from the ASD Secretariat.

## Taxes and Benefits

The Tax Benefit Model tables for April 1995 analyse benefit entitlement and tax liability for various types of families living in rented housing, according to whether they are working or unemployed. The tables also show marginal deduction rates and replacement ratios which compare benefits for the unemployed with net income for people in work.

## Low Income Statistics

Households Below Average Income: A statistical analysis 1979-1992/93 provides estimates of the pattern of disposable income in the United Kingdom by family type and economic status and over time, based on Family Expenditure Survey data.

## Take-up of Benefits

Income Related Benefits: Estimates of Take-up in 1992 shows the amount of benefit claimed and unclaimed, the number of recipients and eligible non-recipients for Income Support, Housing Benefit and Family Credit by family type and tenure. It is obtainable from DSS, ASD6C, 10th Floor, Adelphi, 1-11 John Adam Street, London WC2N 6HT.
The following HMSO publications contain statistical tables on social security benefits.

## Social Security Expenditure

Social Security: The Government's Expenditure Plans - also known as the Departmental Report - sets out plans for the social security programme for the next three years. It also reports on expenditure during the last six years and describes the objectives and targets of the social security programme. There are extensive tables on finance, benefit claimants and performance targets. The most recent edition relates to 1995-96 to 1997-98 (Cm 2813).
The Growth of Social Security, which was published in July 1993, describes how social security expenditure has grown in recent years indicating the major areas of growth and the main contributory factors. There are projections of expenditure forward to the year 1999/2000.

Containing the Cost of Social Security: the International Context contains information on expenditure in EU member states and selected OECD countries.

## Central Statistical Office publications

Monthly Digest of Statistics updates the numbers of recipients for the principal social security benefits each month.

The Annual Abstract of Statistics includes tables on the National Insurance Fund, National Insurance contributors and contributions, rates of social security benefits and numbers in receipt of social security benefits.

Social Trends shows public expenditure on social security, numbers of recipients of benefits and redistribution of income through taxes and benefits.

Family Spending, a report on the annual Family Expenditure Survey, shows income from social security benefits by type of household and by region.

## Country and Regional data

The Digest of Welsh Statistics, Scottish Abstract of Statistics and Northern Ireland Annual Abstract of Statistics are annual publications which include some details of social security benefits for the individual countries.

Northern Ireland Social Security Statistics provides tables for each benefit, showing trends for the latest five years and detailed analyses for the most recent year.

Regional Trends includes a table showing expenditure on the main cash benefits by region.

## Social Fund

The Annual Report by the Secretary of State for Social Security on the Social Fund contains annexes detailing expenditure on each type of payment and reasons for refusals of grants and loans. The Annual Report of the Social Fund Commissioner, dealing with the work of Social Fund Inspectors, has several statistical appendices.

## Sickness and Disability

On the State of the Public Health, the annual report of the Chief Medical Officer of the
Department of Health, includes statistics on Sickness Benefit and causes of incapacity,
Attendance Allowance, Disablement Benefit and Prescribed diseases.

## War Pensions

## War Pensioners' Annual Report has tables on the number of war pensions in payment and

 other information.
## National Insurance Contributions

Accounts of the National Insurance Fund, together with the report of the Comptroller and
Auditor General is published for each financial year.

## Adjudications

The Annual Report of the Chief Adjudication Officer on Adjudication Standards contains statistics on comment rates for each type of benefit, based on the examination of a sample of
claims appeals.

## STANDARD REGIONS OF ENGLAND, WALES, SCOTLAND.

STANDARD REGIONS OF ENGLAND, WALES, SCOTLAND.

[^0]:    Note: Family Credit is calculated as follows:
    If Net income is below the Applicable amount, Family Credit $=$ Adult credits + Child credits
    If Net income is greater than the Applicable amount, Family Credit $=$ Adult credits + Child credits $-0.7 \times$ (Net income - Applicable amount $)$

[^1]:    Notes: (1) 1\% sample

[^2]:    Notes: $\quad$ The deductions shown are those for non-dependants aged 18 or over in renumerative work.
    The lowest rate of deduction also applies to non-dependants aged 18 or over not in work, and to those aged over 25 on Income Support.
    No deductions are made for non-dependants aged under 18 or for those under 25 on Income Support.

[^3]:    Note: $\quad$ This table includes a small number of cases where the claimants were eligible for $H B$ but where entitlement was nil (less than 50p) after non-dependant deductions were accounted for.

[^4]:    Note: $\quad$ This table does not include cases where claimants were eligible for HB but where entitlement was nil (less than 50p) after

[^5]:    Note: $\quad$ This table does not include cases where claimants were eligible for HB but where entitlement was nil (less than 50p) after non-dependant deductions were accounted for.

[^6]:    Notes: 'Eligible CT' is the amount of Council Tax that the claimant is liable for after deduction of any disability reductions, discounts or any transitional reductions.
    The table includes maximum CTB cases but excludes Second Adult Rebates.
    It does not include claims where claimants were eligible for CTB but whose entitlement was nil after non-dependant deductions were accounted for.

[^7]:    Notes: $\quad$ The table includes maximum CTB cases but excludes Second Adult Rebates.
    It does not include cases where claimants were eligible for CTB but whose entitlement was nil after non-dependant deductions were accounted for.

[^8]:    Notes: $\quad$ The table includes maximum CTB cases but excludes Second Adult Rebates. Each case falls into the first appropriate group.
    Claimants and partners may be in receipt of more than one type of income.

[^9]:    Note: Excluding non-contributory retirement pensions, people in receipt of graduated retirement benefit only and Additional Pension only cases.

[^10]:    Notes: Including graduated pension, Additional Pension, increments, age addition, Invalidity Addition and Attendance Allowance but excluding increase for dependants.
    Including people resident overseas.
    Including age-related.

[^11]:    Notes: Excluding non-contributory retirement pensions but including recipients residing overseas.
    Average amount of increments relates only to those pensioners with entitlement to increments and not to all pensioners.

[^12]:    Note: Income Support replaced Supplementary Benefit from April 1988.

[^13]:    Note
    Figures for February, May and August 1985 unavailable due to industrial action.

[^14]:    Notes:
    Earnings-related supplement was also payable until June 1982.
    (2) Child dependency addition abolished from 26 November 1984.
    (3) Payment of half and three-quarter rate benefit where the contribution condition was partially satisfied were abolished with effect from 5 October 1986.

[^15]:    Notes:
    The figures are based on a $100 \%$ count.
    (1) Includes some cases where evidence of recovery was received too late for examination appointment to be cancelled.
    (2) 1994 is the last full year to which reference of claims for Sickness and Invalidity Benefit will be collected by the Regional Medical Services because of the introduction of Incapacity Benefit in 1995.

[^16]:    Notes: $\quad$ This table excludes spells of incapacity of less than 4 days for which there is no entitlement to benefit unless it occurs within 8 weeks of a previous period of incapacity of 4 days or more.
    Duration is the duration of incapacity excluding any preceding Statutory Sick Pay.

[^17]:    Note: $\quad$ The table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment for benefit purposes, unless they occur within 8 weeks of a previous period of incapacity of 4 days or more.

[^18]:    Notes: $\quad$ The table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment for benefit purposes, unless they occur within 8 weeks of a previous period of incapacity of 4 days or more.

[^19]:    Notes:
    The table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment for benefit purposes, unless they occur within 8 weeks of a previous period of incapacity of 4 days or more. All causes of incapacity are based on the International Classification of Diseases, shown in Table D1.01. The shaded Causes of Incapacity are subgroups of the unshaded Causation group above and are therefore included in that figure.
    (1) From 1979/80 includes emphysema and asthma.
    (2) From 1983/84 includes prescribed diseases.

[^20]:    Notes:
    (1) Beneficiaries entitled to Invalidity Addition which is extinguished due to Additional Pension/Guaranteed Minimum Pension overlap.
    (2) Invalidity Allowance is payable with Invalidity Pension and the rates depend on age when incapacity began:

    Higher rate
    Middle rate
    Lower rate

    Under age 40
    Age 40-49
    Age 50-59 for men, 50-54 for women

[^21]:    Notes:

[^22]:    (60]45
    (acovili

[^23]:    Note: $\quad$ Duration of spell includes any period of sickness incapacity which may have preceded the award of Non-contributory Invalidity Pension, Housewives' Non-contributory Invalidity Pension or Severe Disablement Allowance. The duration is the duration of benefit only, and excludes any period of Statutory Sick Pay.

[^24]:    Notes: The statistical year starts on the first Monday in April. Age is taken at 31 March.
    The table excludes spells of incapacity of less than 4 days which do not count as periods of interruption of employment for benefit purposes, unless they occur within 8 weeks of a previous period of incapacity of 4 days or more.

[^25]:    Duration of award is changed.
    (2) Rates of either component are increased in value.

    3 Rates of either component are decreased in value.

[^26]:    Notes: $\quad D W A$ is calculated as follows:
    If Net income is below the Applicable amount, DWA $=$ Adult credits + Child credits
    If Net income is greater than the Applicable amount,
    DWA $=$ Adult credits + Child credits $-0.7 x$ (Net income - Applicable amount)

[^27]:    Notes: In addition there are some war pensioners living outside the British Isles and having their pension paid in the United Kingdom. At December 1994 there were 1,973 such cases.
    (2) 1980 and 1990 figures have been revised.

[^28]:    Notes: Statistical year starting 1 October up to 1986/87; first Monday in April thereafter. Type according to the Standard Industrial Classification (revised 1992).

[^29]:    Notes: (1) Less workmen's compensation basic allowance as appropriate.
    (2) The amount of Lesser incapacity allowance is based on a computation of the loss of earnings prior to date of claim. The resulting level of allowance is then reduced by payment of workmen's compensation in excess of $£ 2$.

[^30]:    Notes: Excludes cases under the Pneumoconiosis, Byssinosis and Miscellaneous Diseases Benefit Scheme 1966

[^31]:    Note: - Excludes cases where region is unknown

[^32]:    Notes:
    (1) Includes Interim Assessments where information about the income of the AP's partner, PWC's partner or other member of their family has been withheld (Category B IMAs).
    (2) Includes Interim Assessments where information about AP's income has been withheld (Category A IMAs). Excludes Category B IMAs.

[^33]:    Notes: (1) Includes Interim Assessments where information about the income of the AP's partner, PWC's partner or other member of their family has been withheld (Category B IMAs).
    (2) Includes Interim Assessments where information about AP's income has been withheld (Category A IMAs). Excludes Category B IMAs.

[^34]:    Notes: Six month periods ending last day of month shown.
    Excludes awards of Widow's Allowance where no succeeding widow's benefit was payable.

[^35]:    Notes:
    (1) A state scheme premium applies when a person leaving a contracted-out pension scheme transfers the Guaranteed Minimum Pension rights to SERPS.
    (2) Death Grant was replaced by Social Fund funeral payments from April 1987.
    (4)

    These benefits ceased to be paid from the National Insurance Fund from April 1990.
    4 Minimum contributions paid in respect of NI rebates, tax relief and incentive payments to members of Appropriate Personal Pension schemes.

[^36]:    Number
    Percentage
