## PROPOSED CHANGES IN TAXATION

## INLAND REVENUE

## INCOME TAX

It is proposed to increase the standard rate of income tax for 1965-66 by 6d., from 7s. 9d. to 8s. 3d.

## CUSTOMS AND EXCISE

## TEMPORARY CHARGE ON IMPORTS

It is proposed to provide for the imposition of a temporary charge at the rate of 15 per cent *ad valorem* on all goods, other than those classes of goods specifically excepted (principally foodstuffs, unmanufactured tobacco, fuel and certain basic raw materials for industry), imported on or after 27th October, 1964.

## TAX REBATES FOR EXPORTS

It is proposed to provide powers to make payments to exporters of sums broadly equivalent to the amount of certain indirect taxes, namely the hydrocarbon oil duty, motor vehicle excise duty and purchase tax on purchases on current account, which enter into the cost of production of exported goods but which are not repayable or drawn back under existing provisions. These tax rebates will be at various flat rates and will apply to goods exported on or after 26th October, 1964.

## HYDROCARBON OIL DUTY

It is proposed to increase by 6d. a gallon the duties on light hydrocarbon oils, heavy hydrocarbon oils used as road fuel, petrol substitutes and power methylated spirits. This change will take effect from 6 p.m. on 11th November, 1964. The existing duties and the proposed duties are as follows:

		Existing duties		Proposed duties	
		Rate per gallon		Rate per gallon	
		s.	d.	s.	d.
<i>Customs—</i>					
Light oils	...	2	9	3	3
Heavy oils used as road fuel	...	2	9	3	3
<i>Excise—</i>					
Light oils	...	1	6	2	0*
Heavy oils used as road fuel	...	1	6	2	0*
Petrol substitutes†	...	1	6	2	0*
Power methylated spirits (power alcohol)	...	2	9	3	3

\* From 1st January, 1965, these rates will become 3s. 3d. a gallon, under the provisions of Section 5 of the Finance Act 1964.

† Petrol substitutes are defined as any liquid intended to take the place of petrol as fuel for internal combustion piston engines, being neither a hydrocarbon oil nor power methylated spirits.

## ESTIMATED EFFECT OF CHANGES IN TAXATION

	Estimate for 1964-65	Estimate for a full year
	£ million	£ million
<b>INLAND REVENUE</b>

Increase of 6d. in standard rate from 7s. 9d. to 8s. 3d.		
<b>CUSTOMS AND EXCISE</b>		
Temporary charge on imports ... ... ... ...	*	*
Tax rebates for exports ... ... ... ...	†	†
Hydrocarbon oil duty ... ... ... ...	+ 32	+ 93

\* The yield from the proposed temporary charge on imports is estimated to be at an annual rate in the region of £200 million; and the charge may produce about £90 million in the remainder of 1964-65. The actual receipts will depend on the extent to which it affects the value of imports.

† The cost cannot be determined until the rates of rebate applicable to different classes of goods have been calculated. On the basis of an average rate of about 1½ per cent., and at the present level of exports, the annual cost is estimated at approximately £75 million. The amount which will become payable during 1964-65 will depend on arrangements to be announced later for receiving and paying claims.

*£100.2 incr on pers. sectn.* } ✓

## INCOME TAX

### Amount of tax and effective rate of tax per pound of income for specimen incomes

#### NOTES

The following tables show the tax payable after taking account of the personal allowance or personal allowances appropriate to the case, an allowance for National Insurance contributions and, where applicable, the earned income relief or small income relief. The taxpayer may be entitled to further reliefs which would reduce the tax payable (for examples see below); if, on the other hand, he is not entitled to the allowance assumed for National Insurance contributions, the tax payable may be greater.

The amount of the allowance for National Insurance contributions taken into account where the income is all earned is that for an adult employee, and where the income is all from investments it is the allowance for a non-employed male.

#### *Age relief*

Where a taxpayer (or his wife) is over 65 and his total income does not exceed £900 he is entitled to age relief which gives relief equivalent to the earned income relief on any investment income he may have and so reduces the tax payable on incomes up to £900 to that chargeable on earned income. Where the total income is not much above this amount marginal relief may be due so that the full tax is not payable until the marginal relief runs out.

#### *Age exemption*

Where a single person is over 65 and his total income does not exceed £360 no tax is payable. In the case of a married couple where either husband or wife is over 65 and the total income does not exceed £575 no tax is payable. Where the total income is only slightly above the appropriate limit marginal relief is given, so that the full tax is not payable until the marginal relief runs out.

The "proposed charge, 1965-66" comprises the income tax at the rates proposed and surtax (if any) calculated at the rates applicable to 1963-64.
