## CHANGES OF TAXATION.

### INLAND REVENUE.

#### INCOME TAX.

##### *Changes Proposed to take Effect in the Year 1946-47.*

It is proposed to increase the personal allowance for married persons from £140 to £180 and for other persons from £80 to £110.

It is proposed to increase the exemption limit from £110 to £120.

It is proposed to reduce the standard rate of tax by 1s. to 9s. in the £.

It is proposed to alter the graduation of the standard rate by replacing the existing reduced rate of tax of 6s. 6d. in the £ chargeable on the first £165 of taxable income by a two-tier reduced-rate system, the lower reduced rate being 3s. in the £ chargeable on the first £50 of taxable income and the higher reduced rate 6s. in the £ on the next £75 of taxable income.

It is proposed that no further post-war credits should be created after those for the year 1945-46.

#### SUR-TAX.

It is proposed to increase the rates of Sur-tax for the year 1946-47 as follows:—

Tax chargeable on every £ of income—			<i>Existing</i> rates.	<i>Proposed</i> rates.

#### INCOME TAX, EXCESS PROFITS TAX, NATIONAL DEFENCE CONTRIBUTION AND ESTATE DUTY.

It is proposed to make provision *inter alia* for carrying out the double taxation agreements recently concluded with the United States and for authorising the conclusion of double taxation agreements with the Dominions and other countries.

#### EXCESS PROFITS TAX.

It is proposed to reduce the rate of E.P.T. from 100 per cent. to 60 per cent. as from the 1st January, 1946.

It is proposed that deficiencies as from the 1st January, 1947, will not rank for set-off against excess profits for other periods. Deficiencies for the period from the 1st January, 1946, to the 31st December, 1946, will rank for set-off primarily against excess profits charged at the 60 per cent. rate.

#### E.P.T. REFUNDS.

It is proposed to make provision for repayment of the E.P.T. refunds and to prescribe the conditions which must be satisfied before repayment can be made. The refunds will be subject to deduction of Income Tax at the standard rate for the year 1946-47.

## CUSTOMS AND EXCISE.

### CUSTOMS.

*Hydrocarbon oils.*—It is proposed to modify the existing provisions regarding the liability to duty of oil used in premises which are classified as “refineries,” so as to relieve from duty hydrocarbon oils used as materials for processes of chemical synthesis. It is also proposed that an allowance should be paid in respect of home-produced hydrocarbon oils in the like circumstances, equal to the net amount of the Customs duty on similar imported oils.

### EXCISE.

*Purchase Tax.*—It is proposed to exempt from tax certain domestic appliances at present chargeable at the rate of  $33\frac{1}{3}$  per cent. of the wholesale value, viz.:—

*Space-heating appliances:*

- Coal and coke stoves, grates and fireplaces (and parts thereof);
- Gas and electric fires;
- Radiators and convectors;
- Oil heaters.

*Cooking appliances:*

- Coal and coke ranges (and parts thereof);
- Gas, electric and oil stoves;
- Boiling rings, grillers and hot-plates.

*Water heaters:*

- Independent domestic boilers;
- Geysers, immersion heaters and similar water heaters;
- Wash boilers and coppers.

*Refrigerators.*

It is proposed that this change shall come into effect, as regards goods delivered by registered manufacturers and wholesalers, from the 24th October, 1945.

*Spirits.*—It is proposed to repeal the allowances at present payable in respect of alcohol for industrial use and certain other classes of spirits, as from the 1st January, 1946. Further information with regard to this matter is given in the White Paper (Cmd. 6622) published in April 1945.

*Distillers' licences.*—It is proposed to reduce the licence duty in respect of the distillation of spirits for industrial purposes, as from the 1st October, 1946.

## MOTOR VEHICLE DUTIES.

### I.—*Vehicles charged to duty by reference to horsepower.*

It is proposed that, as from a date to be fixed by the Treasury, vehicles first registered after that date, which under existing law would be charged to duty by reference to their horsepower, should be charged by reference to their cylinder capacity. The unit of capacity will be 100 cubic centimetres, and it is proposed that the rate for each unit shall be four-fifths of the rate in force at the time for each unit of horsepower. The minimum duty payable under the cylinder capacity scale will be the same as that payable under the horsepower scale, at present £7 10s.

### II.—*Hackney motor vehicles.*

The present scale of duties for hackney motor vehicles proceeds by steps of 4 seats up to 8 seats, thence by steps of 6 seats to 32 seats, by steps of 8 seats to 64 seats with an additional duty for each seat in excess of 64. For vehicles with more than 8 seats it is proposed to insert steps of one seat in the existing scale while keeping the duty payable at existing steps the same. It is also proposed to abolish the higher scale of duty payable on vehicles with solid tyres. It is proposed that this change shall take effect on the 1st January, 1946.

### III.—*Goods Vehicles.*

It is proposed to insert steps of  $\frac{1}{4}$ -ton in the existing scales for all goods vehicles weighing more than 1-ton. The existing scales in general progress by  $\frac{1}{2}$ -ton steps between 1 and 3 tons and thence by 1-ton steps, and the rates of duty at these points will not be altered. It is also proposed to abolish the higher scale of duty payable on vehicles with solid tyres. It is proposed that this change shall take effect on the 1st January, 1946.

## INCOME TAX POST-WAR CREDITS.

As a result of the cessation of Income Tax post-war credits in respect of tax for the year 1946-47 and subsequent years, the Exchequer will be relieved from incurring liabilities to repay £225,000,000 a year in respect of these credits.

## EXCESS PROFITS TAX.

No figure for the cost of reducing the E.P.T. to 60 per cent. is included in the above table, in view of the difficulty of making any estimate of this cost. In the Budget Speech the Chancellor of the Exchequer conjectured that the cost might be £60 millions after allowing for a fall in the level of excess profits. After allowing for the consequential increase in income tax the net cost would be about £30 millions.

\* These estimates are made on the basis of the existing amount and distribution of the national income.

ESTIMATED EFFECT OF CHANGES IN TAXATION—*continued.*

\* The effects of these proposed changes were taken into account in computing the Customs and Excise revenue for 1945-46 on the existing basis of taxation.

† Of which the proposed relief from duty on imported oils used as materials for processes of chemical synthesis accounts for £25,000 and the proposed allowance on home-produced oils so used accounts for £375,000.
